

THE RELATIVE VALUE FUND

Advisor Class Shares
CIA Class Shares

Supplement dated April 10, 2019, to the
Prospectus dated March 9, 2019.

Effective April 10, 2019, the following amendments are made to the Prospectus:

- 1. The fourth paragraph under the section entitled “Distributor” beginning on page 38 of the Prospectus is deleted in its entirety and replaced with the following:**

The Fund has authorized one or more financial intermediaries and their authorized agents that have made arrangements with the Fund (collectively, “Financial Intermediaries”) to receive on its behalf purchase orders and repurchase requests. Such Financial Intermediaries are authorized to designate other intermediaries or designees to receive purchase orders and repurchase requests on the Fund’s behalf. The Fund will be deemed to have received a purchase order or repurchase request when a Financial Intermediary or, if applicable, a Financial Intermediary’s designee, receives the order or repurchase request. Orders will be priced at the Fund’s NAV per Share of that Class appropriate next computed after they are received by a Financial Intermediary or the Financial Intermediary’s authorized designee.

Investors may be charged a fee if they effect transactions through a Financial Intermediary or authorized designee. Investors who purchase shares through Financial Intermediaries will be subject to the procedures of those intermediaries through which they purchase shares, which may include charges, investment minimums, cutoff times and other restrictions in addition to, or different from, those listed herein. Information concerning any charges or services will be provided to customers by the Financial Intermediary through which they purchase shares. Investors purchasing shares of the Fund through Financial Intermediaries should acquaint themselves with their Financial Intermediary’s procedures and should read the Prospectus in conjunction with any materials and information provided by their Financial Intermediary. The Financial Intermediary, and not its customers, will be the shareholder of record, although customers may have the right to vote shares depending upon their arrangement with the Financial Intermediary. The Investment Manager pays the Distributor a fee for certain distribution-related services. The maximum amount of compensation to be received by the participating members from any source will not exceed 8% of the proceeds raised in the offering. The Fund has been granted exemptive relief by the SEC permitting the Fund to offer multiple classes of Shares and to adopt a Distribution and Service Plan with respect to Advisor Class Shares in compliance with Rule 12b-1 under the Investment Company Act. The Distribution and Service Plan allows the Fund to pay distribution and servicing fees for the sale and servicing of its Advisor Class Shares to the Fund’s Distributor and/or other qualified recipients. The Fund or other parties may pay the Financial Intermediary for maintaining individual ownership records as well as providing other shareholder services or other services.

2. The section entitled “Purchasing Shares” beginning on page 54 of the Prospectus is deleted in its entirety and replaced with the following:

PURCHASING SHARES

PURCHASE TERMS

The minimum initial investment in Advisor Class Shares by any investor is \$1,000 and the minimum initial investment in CIA Class Shares by any investor is \$1,000. The minimum additional investment in the Fund by any Shareholder is \$1,000. However, the Fund, in its sole discretion, may accept investments below these minimums. Shares may be purchased by principals and employees of the Investment Manager or its affiliates and their immediate family members without being subject to the minimum investment requirements. The Shares were initially issued at \$25.00 per share. Thereafter the purchase price for each class of Shares is based on the NAV per Share of that Class as of the date such Shares are purchased.

Advisor Class Shares are sold at the public offering price, which is the NAV plus an initial maximum sales charge, which varies with the amount you invest as shown in the following chart. This means that part of your investment in the Fund will be used to pay the sales charge.

Advisor Class Shares – Sales Charge Schedule

Your Investment	Front-End Sales Charge As a % Of Offering Price*	Front-End Sales Charge As a % Of Net Investment	Dealer Reallowance As a % of Offering Price
Up to \$24,999	5.75%	6.10%	5.00%
\$25,000 - \$49,999	5.00%	5.26%	4.50%
\$50,000 - \$99,999	4.50%	4.71%	3.75%
\$100,000 - \$249,999	3.50%	3.63%	2.75%
\$250,000 - \$499,999	2.50%	2.56%	2.00%
\$500,000 - \$999,999	2.00%	2.04%	1.50%
\$1 million or more	None	None	None

* The offering price includes the sales charge.

CIA Class Shares are not subject to any initial sales charge.

Shares will generally be offered for purchase on each business day, except that Shares may be offered more or less frequently as determined by the Board in its sole discretion. The Board may also suspend or terminate offerings of Shares at any time.

Except as otherwise permitted by the Board, initial and subsequent purchases of Shares will be payable in cash. Orders will be priced at the appropriate price next computed after the order is received by the Administrator. The Fund reserves the right, in its sole discretion, to accept or reject any subscription to purchase Shares in the Fund at any time. In the event that cleared funds and/or a properly completed investor application are not received from a prospective investor prior to the cut-off times pertaining to a particular offering, the Fund may hold the relevant funds and investor application for processing in the next offering.

In general, an investment will be accepted if a completed investor application and funds are received in good order. The Fund reserves the right to reject, in its sole discretion, any request to purchase Shares in the Fund at any time.

ADVISOR CLASS SHARES PURCHASE PROGRAMS

Eligible purchasers of Advisor Class Shares may be entitled to reduced or waived sales charges through certain purchase programs offered by the Fund.

Quantity Discounts. You may be able to lower your Advisor Class sales charges if:

- you assure the Fund in writing that you intend to invest at least \$25,000 in Advisor Class Shares over the next 13 months in exchange for a reduced sales charge (“Letter of Intent”) (see below); or
- the amount of Advisor Class Shares you already own in the Fund plus the amount you intend to invest in Advisor Class Shares is at least \$25,000 (“Cumulative Discount”).

By signing a Letter of Intent you can purchase Shares at a lower sales charge level. Your individual purchases will be made at the applicable sales charge based on the amount you intend to invest over a 13-month period as stated in the Letter of Intent. Any Shares purchased within 90 days prior to the date you sign the Letter of Intent may be used as credit toward completion of the stated amount, but the reduced sales charge will only apply to new purchases made on or after the date of the Letter of Intent. Purchases resulting from the reinvestment of dividends and capital gains do not apply toward fulfillment of the Letter of Intent. Shares equal to 5.75% of the amount stated in the Letter of Intent will be held in escrow during the 13-month period. If, at the end of the period, the total net amount invested is less than the amount stated in the Letter of Intent, you will be required to pay the difference between the reduced sales charge and the sales charge applicable to the individual net amounts invested had the Letter of Intent not been in effect. This amount will be obtained from redemption of the escrowed Shares. Any remaining escrowed Shares after payment to the Fund of the difference in applicable sales charges will be released to you. If you establish a Letter of Intent with the Fund, you can aggregate your accounts as well as the accounts of your immediate family members. You will need to provide written instructions with respect to the other accounts whose purchases should be considered in fulfillment of the Letter of Intent.

The Letter of Intent and Cumulative Discount are intended to let you combine investments made at other times for purposes of calculating your present sales charge. Any time you can use any of these quantity discounts to “move” your investment into a lower sales charge level, it is generally beneficial for you to do so.

For purposes of determining whether you are eligible for a reduced Advisor Class sales charge, you and your immediate family members (i.e., your spouse or domestic partner and your children or stepchildren age 21 or younger) may aggregate your investments in the Fund. This includes, for example, investments held in a retirement account, an employee benefit plan, or through a financial advisor other than the one handling your current purchase. These combined investments will be valued at their current offering price to determine whether your current investment amount qualifies for a reduced sales charge.

You must notify the Fund or Financial Intermediary at the time of purchase whenever a quantity discount is applicable to purchases and you may be required to provide the Fund, or the Financial Intermediary with certain information or records to verify your eligibility for a quantity discount.

Such information or records may include account statements or other records regarding Shares held in all accounts (e.g., retirement accounts) by you and other eligible persons, which may include accounts held at the Fund or at a Financial Intermediary. Upon such notification, you will pay the sales charge at the lowest applicable sales charge level. You should retain any records necessary to substantiate the purchase price of Shares, as the Fund and Financial Intermediary may not retain this information.

Information about sales charges can be found on the Fund’s website www.vivaldifunds.com or you can consult with your financial representative.

Please file this Supplement with your records.

THE RELATIVE VALUE FUND

PROSPECTUS

Advisor Class Shares VFLAX
CIA Class Shares VFLEX

March 9, 2019

The Relative Value Fund (the “Fund”) is a Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the “Investment Company Act”), as a non-diversified, closed-end management investment company. The Fund intends to operate as an interval fund. The Fund operates under an Agreement and Declaration of Trust (“Declaration of Trust”) dated November 23, 2016 (the “Declaration of Trust”). Vivaldi Asset Management, LLC serves as the investment adviser (the “Investment Manager”) of the Fund. The Investment Manager is an investment adviser registered with the Securities and Exchange Commission (the “SEC”) under the Investment Advisers Act of 1940, as amended. The Fund intends to qualify and elect to be treated as a regulated investment company under the Internal Revenue Code of 1986, as amended (the “Code”).

Total Offering⁽¹⁾

	Advisor Class Shares	CIA Class Shares	Total
Public Offering Price	Current Net Asset Value	Current Net Asset Value	\$100,000,000
Sales Charge ⁽²⁾ as a percentage of purchase amount	5.75%	0.00%	
Proceeds to Fund ⁽³⁾	Current Net Asset Value Minus Sales Charge	Current Net Asset Value	Up to \$100,000,000

- (1) Foreside Fund Services, LLC (the “Distributor”) acts as the principal underwriter of the Fund’s Shares on a best-efforts basis. The Shares are being offered through the Distributor and may also be offered through other brokers or dealers that have entered into selling agreements with the Distributor. The Investment Manager and/or its affiliates may make payments to selected affiliated or unaffiliated third parties (including the parties who have entered into selling agreements with the Distributor) from time to time in connection with the distribution of Shares and/or the servicing of Shareholders and/or the Fund. These payments will be made out of the Investment Manager’s and/or affiliates’ own assets and will not represent an additional charge to the Fund. The amount of such payments may be significant in amount and the prospect of receiving any such payments may provide such third parties or their employees with an incentive to favor sales of Shares of the Fund over other investment options. See “*DISTRIBUTOR*.” The minimum initial investment in Advisor Class Shares by any investor is \$1,000 and the minimum initial investment in CIA Class Shares by any investor is \$1,000. However, the Fund, in its sole discretion, may accept investments below this minimum. See “*Fund Summary — The Offering*.”
- (2) Investments in Advisor Class Shares of the Fund are sold subject to a sales charge of up to 5.75% of the investment. For some investors, the sales charge may be waived or reduced. The full amount of the sales charges may be reallocated to brokers or dealers participating in the offering. Your financial intermediary may impose additional charges when you purchase Shares of the Fund. See “*Fund Summary — The Offering*.”
- (3) The Fund’s initial offering expenses are described under “*FUND FEES AND EXPENSES*” below. The total of expenses of issuance and distribution are \$203,859.

The investment objective of the Fund is to seek to achieve long-term capital appreciation by pursuing positive absolute returns across market cycles. A fund seeking positive “absolute return” aims to earn a positive total return over a reasonable period of time regardless of market conditions or general market direction. In pursuing its objective, the Fund seeks to generate attractive long-term returns with low sensitivity to traditional equity and fixed income indices. The Fund uses a “multi-manager” approach whereby the Fund’s assets are allocated to one or more sub-advisers, in percentages determined at the discretion of the Investment Manager. In pursuing the Fund’s strategies, the Investment Manager and sub-advisers may invest directly in individual securities or through closed-end and open-end registered investment companies, private investment funds and other investment vehicles that invest or trade in a wide range of investments. **The Fund’s investment program is speculative and entails substantial risks. There can be no assurance that the Fund’s investment objective will be achieved or that its investment program will be successful. Investors should consider the Fund as a supplement to an overall investment program and should invest only if they are willing to undertake the risks involved. Investors could lose some or all of their investment (see “*PRINCIPAL RISK FACTORS*” BEGINNING ON PAGE 16).**

This Prospectus (the “Prospectus”) applies to the public offering of two separate classes of shares of beneficial interest (“Shares”) of the Fund, designated as Advisor Class (“Advisor Class Shares”) and CIA

Class (“CIA Class Shares”). The Shares will be offered during an initial public offering and in a continuous offering thereafter. The Shares will generally be offered for purchase on any business day, which is any day the New York Stock Exchange is open for business, in each case subject to any applicable sales charges and other fees, as described herein. The Shares will be issued at net asset value per Share. The Fund has registered \$100,000,000 for sale under the registration statement to which this Prospectus relates. No holder of Shares (each, a “Shareholder”) will have the right to require the Fund to redeem its Shares.

This Prospectus concisely provides information that you should know about the Fund before investing. You are advised to read this Prospectus carefully and to retain it for future reference. Additional information about the Fund, including the Fund’s statement of additional information (the “SAI”), dated March 9, 2019, has been filed with the SEC. You may request a free copy of this Prospectus, the SAI, annual and semi-annual reports and other information about the Fund, and make inquiries without charge by writing to the Fund, c/o UMB Fund Services, Inc., 235 West Galena Street, Milwaukee, WI 53212, by calling the Fund toll-free at 1.877.779.1999 or by accessing the Investment Manager’s website at <https://www.vivaldifunds.com>. The information on the Investment Manager’s website is not incorporated by reference into this Prospectus and investors should not consider it a part of this Prospectus. The SAI is incorporated by reference into this Prospectus in its entirety. The table of contents of the SAI appears on page 58 of this Prospectus. You may also obtain copies of the SAI, and the annual and semi-annual reports of the Fund, as well as other information about the Fund on the SEC’s website www.sec.gov. The address of the SEC’s internet site is provided solely for the information of prospective investors and is not intended to be an active link.

Shares are an illiquid investment.

- **We do not intend to list the Shares on any securities exchange and we do not expect a secondary market in the Shares to develop.**
- **You should generally not expect to be able to sell your Shares (other than through the limited repurchase process), regardless of how we perform.**
- **Although we are required to implement a Share repurchase program, only a limited number of Shares will be eligible for repurchase by us.**
- **You should consider that you may not have access to the money you invest for an indefinite period of time.**
- **An investment in the Shares is not suitable for you if you need foreseeable access to the money you invest.**
- **Because you will be unable to sell your Shares or have them repurchased immediately, you will find it difficult to reduce your exposure on a timely basis during a market downturn.**

Neither the SEC nor any state securities commission has determined whether this Prospectus is truthful or complete, nor have they made, nor will they make, any determination as to whether anyone should buy these securities. Any representation to the contrary is a criminal offense.

You should not construe the contents of this Prospectus and the SAI as legal, tax or financial advice. You should consult with your own professional advisers as to legal, tax, financial, or other matters relevant to the suitability of an investment in the Fund.

You should rely only on the information contained in this Prospectus. The Fund has not authorized anyone to provide you with different information. You should not assume that the information provided by this Prospectus is accurate as of any date other than the date shown below.

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund’s shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. If you hold shares at the Fund's transfer agent, you may elect to receive shareholder reports and other communications from the Fund electronically by contacting the Fund, c/o UMB Fund Services at 235 West Galena Street, Milwaukee, WI 53212, or by calling toll-free at 1 (877) 779-1999. If you own your shares through a financial intermediary (such as a broker-dealer or bank), you must contact your financial intermediary. You may elect to receive all future reports in paper free of charge.

You can inform the Fund or your financial intermediary, as applicable, that you wish to receive paper copies of your shareholder reports by contacting them directly. Your election to receive reports in paper will apply the Fund and all funds held through your financial intermediary, as applicable.

THE FUND'S PRINCIPAL UNDERWRITER IS FORESIDE FUND SERVICES, LLC.

The date of this Prospectus is March 9, 2019

FUND SUMMARY

This is only a summary and does not contain all of the information that investors should consider before investing in the Fund. Investors should review the more detailed information appearing elsewhere in this Prospectus and SAI, especially the information set forth under the heading “*Principal Risk Factors.*”

The Fund and the Shares The Relative Value Fund (the “Fund”) is a closed-end management investment company registered under the Investment Company Act of 1940, as amended (the “Investment Company Act”), and organized as a Delaware statutory trust on July 5, 2016. Vivaldi Asset Management, LLC serves as the investment adviser (the “Investment Manager”) of the Fund. The Investment Manager provides day-to-day investment management services to the Fund. The Fund is non-diversified, which means that under the Investment Company Act, it is not limited in the percentage of its assets that it may invest in any single issuer of securities. The Fund is an appropriate investment only for those investors who can tolerate a high degree of risk and do not require a liquid investment.

The Fund offers two separate classes of shares of beneficial interest (“Shares”) designated as Advisor Class (“Advisor Class Shares”) and CIA Class (“CIA Class Shares”). Advisor Class Shares and CIA Class Shares are subject to different fees and expenses. The Fund may offer additional classes of Shares in the future. The SEC granted the Fund an exemptive order on November 21, 2017 permitting the Fund to offer multiple classes of shares. Only the CIA Class of shares is operational as of the date of this Registration Statement.

The Fund intends to satisfy the diversification requirements necessary to qualify as a regulated investment company under the Internal Revenue Code of 1986, as amended, which generally requires that, at the end of each quarter: (1) at least 50% of the Fund’s total assets are invested in (i) cash and cash items (including receivables), Federal Government securities and securities of other regulated investment companies; and (ii) securities of separate issuers, each of which amounts to no more than 5% of the Fund’s total assets (and no more than 10% of the issuer’s outstanding voting shares), and (2) no more than 25% of the Fund’s total assets are invested in (i) securities (other than Federal Government securities or the securities of other regulated investment companies) of any one issuer; (ii) the securities (other than the securities of other regulated investment companies) of two or more issuers which the taxpayer controls and which are engaged in the same or similar trades or businesses; or (iii) the securities of one or more qualified publicly traded partnerships.

Investment Objective and Strategies The Fund’s investment objective is to seek to achieve long-term capital appreciation by pursuing positive absolute returns across market cycles. In pursuing its objective, the Fund seeks to generate attractive long-term returns with low sensitivity to traditional equity and fixed income indices. The Fund uses a “multi-manager” approach whereby the Fund’s assets are allocated amongst the Investment Manager and one or more

sub-advisers (each, a “Sub-Adviser” and together, the “Sub-Advisers”), in percentages determined at the discretion of the Investment Manager. The Investment Manager and Sub-Advisers implement both fundamentally and technically driven strategies. The allocation amongst these strategies will vary over time in response to changing market opportunities. These strategies may include, without limitation, global macro, opportunistic equity and fixed income, multi-strategy fixed income and arbitrage strategies that invest in different asset classes, securities and derivative instruments. There is no limit on the duration, maturity or credit quality of any investment in the Fund’s portfolio.

In pursuing the Fund’s investment objective, the Investment Manager and Sub-Advisers invest directly or indirectly in closed-end and open-end registered investment companies, private investment funds and other investment vehicles (collectively, “Investment Funds”). The Fund’s investments in Investment Funds may constitute all or a substantial portion of the Fund’s holdings at any given point in time. The Fund’s investments in private Investment Funds (i.e., Investment Funds that would be investment companies but for the exemptions under Section 3(c)(1) or 3(c)(7) of the Investment Company Act) are limited to no more than 15% of the Fund’s net assets. The Fund may also invest, directly or through Investment Funds, in sub-investment grade debt securities or “junk” debt securities and non-rated debt securities. In addition, the Fund may invest, directly or through Investment Funds, in publicly and privately traded real estate investment trusts (“REITS”) and up to 25% of its net assets in bank loans and participations, including first-lien, second-lien and unitranche loans. “Unitranche” loans are loans that combine senior and subordinated debt into one loan under which the borrower pays a single interest rate intended to reflect the relative risk of the secured and unsecured loan components. These investments could constitute a material percentage of the Fund’s holdings at any given point in time. The Fund may invest in bank loans and participations of any credit quality, maturity or duration. Some of the bank loans may be leveraged loans. The Fund may also leverage its investments by “borrowing.” The Investment Manager and/or Sub-Advisers may cause the Fund to use various methods to leverage investments, including (i) borrowing, (ii) swap agreements or other derivative instruments, (iii) use of short sales, or (iv) a combination of these methods. The Fund may invest, directly or through Investment Funds, in foreign securities, including those from emerging markets. The Fund’s allocation to these various security types, various asset classes and various market types will vary over time in response to changing market opportunities. The Fund may invest a material portion of its assets in foreign securities. It is not anticipated that investments in emerging markets will constitute a significant portion of the Fund’s investments. There can be no assurance that the Fund will achieve its investment objective.

The Investment Manager and
Sub-Advisers

As Investment Manager, Vivaldi Asset Management, LLC provides day-to-day investment management services to the Fund, including selecting Sub-Advisers and determining the amount of the Fund’s assets to allocate to each Sub-Adviser. Its principal place of business is located at 225 W. Wacker Drive, Suite 2100, Chicago, Illinois 60606. The Investment Manager is registered as an investment adviser with the SEC under the Investment Advisers Act of 1940, as amended (the “Advisers Act”). As of September 30, 2018, the Investment Manager had approximately \$951 million of assets under management.

Each Sub-Adviser selected by the Investment Manager, subject to Shareholder approval, will be primarily responsible for its investment strategy and the day-to-day management of the Fund’s assets allocated to it by the Investment Manager. Currently, RiverNorth Capital Management, LLC and Angel Oak Capital Advisors, LLC serve as Sub-Advisers to the Fund. See “*Management of the Fund.*”

The Administrator

The Fund has retained UMB Fund Services, Inc. (the “Administrator”) to provide it with certain administrative services, including performing all actions related to the issuance and repurchase of Shares of the Fund. The Fund compensates the Administrator for these services and reimburses the Administrator for certain of its out-of-pocket expenses. See “*Fees and Expenses*” below.

Fees and Expenses

The Fund bears its own operating expenses (including, without limitation, its offering expenses not paid by the Investment Manager). A more detailed discussion of the Fund’s expenses can be found under “*FUND EXPENSES.*”

Investment Management Fee. The Fund pays the Investment Manager a management fee (the “Investment Management Fee”) at an annual rate of 0.50%, payable monthly in arrears, based upon the Fund’s net assets as of month-end. The Investment Management Fee is paid to the Investment Manager before giving effect to any repurchase of Shares in the Fund effective as of that date and will decrease the net profits or increase the net losses of the Fund that are credited to its Shareholders. Each Sub-Adviser receives a portfolio management fee, which is paid by the Investment Manager out of the Investment Management Fee.

Administration Fee. The Fund pays the Administrator an annual fee of 0.06% of the Fund’s net assets. In addition, the Fund pays the Administrator its pro-rata share, based on combined assets under management, of an annual relationship-level base fee of \$75,000 paid by all registered investment companies advised by the Investment Manager and serviced by the Administrator (together with the asset-based fee, the “Administration Fee”). This fee structure generally covers fund administration, fund accounting, tax regulation and compliance, transfer agent and record keeping, and custody administration services provided by the Administrator or its affiliates. The Administration Fee is paid to the Administrator out of the assets of the Fund, and therefore

decreases the net profits or increases the net losses of the Fund. The Fund also reimburses the Administrator for certain out-of-pocket expenses. See “*ADMINISTRATION*.”

The Fund has received exemptive relief from the SEC that allows the Fund, subject to certain conditions, to adopt a Distribution and Service Plan with respect to Advisor Class Shares in compliance with Rule 12b-1 under the Investment Company Act. Under the Distribution and Service Plan, the Fund is permitted to pay as compensation up to 1.00% on an annualized basis of the aggregate net assets of the Fund attributable to Advisor Class Shares, (the “Distribution and Servicing Fee”) to the Fund’s Distributor or other qualified recipients under the Distribution and Service Plan. The Distribution and Servicing Fee is paid out of the Fund’s assets and decreases the net profits or increases the net losses of the Fund. For purposes of determining the Distribution and Servicing Fee only, the value of the Fund’s assets is calculated prior to any reduction for any fees and expenses, including, without limitation, the Distribution and Servicing Fee payable. CIA Class Shares are not subject to the Distribution and Servicing Fee. As of the date of this Prospectus, Advisor Class Shares have not been offered for sale. See “*DISTRIBUTION AND SERVICE PLAN*”.

The Investment Manager has entered into an amended and restated expense limitation and reimbursement agreement (the “Expense Limitation and Reimbursement Agreement”) with the Fund, whereby the Investment Manager has agreed to waive fees that it would otherwise have been paid, and/or to assume expenses of the Fund (a “Waiver”), if required to ensure the Total Annual Expenses (excluding any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses (as determined in accordance with SEC Form N-2), expenses incurred in connection with any merger or reorganization, and extraordinary expenses, such as litigation expenses) do not exceed 1.95% and 0.95% of the average daily net assets of Advisor Class Shares and CIA Class Shares, respectively (the “Expense Limit”). Because taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses, expenses incurred in connection with any merger or reorganization, and extraordinary expenses are excluded from the Expense Limit, Total Annual Expenses (after fee waivers and expense reimbursements) are expected to exceed 1.95% and 0.95% for the Advisor Class Shares and CIA Class Shares, respectively. For a period not to exceed three years from the date on which a Waiver is made, the Investment Manager may recoup amounts waived or assumed, provided it is able to effect such recoupment and remain in compliance with the Expense Limit. The Expense Limitation and Reimbursement Agreement has a term which ends on August 1, 2020. The Expense Limitation and Reimbursement Agreement will automatically renew for consecutive one-year terms thereafter. After August 1, 2020, either the Fund or the Investment Manager may terminate the Expense Limitation and Reimbursement Agreement upon 30 days’ written notice. See “*FUND EXPENSES*.”

Fees of the Underlying Managers . .

As an investor in Investment Funds, the Fund will indirectly bear asset-based fees and may indirectly bear performance-based fees or allocations charged by the investment advisers to the Investment Funds (the “Underlying Managers”). Such fees and performance-based compensation are in addition to the fees that are charged by the Investment Manager to the Fund and allocated to the Fund. Generally, fees payable to Underlying Managers of Investment Funds will range from 0.50% to 2% (annualized) of the average net asset value (“NAV”) of the Fund’s investment. In addition, certain Underlying Managers of private Investment Funds charge an incentive allocation or fee generally ranging from 10% to 30% of an Investment Fund’s net profits, although it is possible that such ranges may be exceeded for certain Underlying Managers. An investor in the Fund bears a proportionate share of the expenses of the Fund.

The Offering

The minimum initial investment in the Fund by any investor in either the Advisor Class Shares or CIA Class Shares is \$1,000 and the minimum additional investment in the Fund by any Shareholder is \$1,000. However, the Fund, in its sole discretion, may accept investments below these minimums. The Shares will be offered in a continuous offering. Shares will generally be offered for purchase on each business day, except that Shares may be offered more or less frequently as determined by the Board of Trustees of the Fund (the “Board”) in its sole discretion. Once a prospective investor’s purchase order is received, a confirmation is sent to the investor. Potential investors should send subscription funds by wire transfer pursuant to instructions provided to them by the Fund. Subscriptions are generally subject to the receipt of cleared funds on or prior to the acceptance date set by the Fund and notified to prospective investors.

A prospective investor must submit a completed investor application on or prior to the acceptance date set by the Fund. The Fund reserves the right to reject, in its sole discretion, any request to purchase Shares in the Fund at any time. The Fund also reserves the right to suspend or terminate offerings of Shares at any time at the Board’s discretion.

Investments in Advisor Class Shares of the Fund may be subject to a sales charge of up to 5.75% of the subscription amount. The full amount of the sales charge may be reallocated to brokers or dealers participating in the offering. Your financial intermediary may impose additional charges when you purchase Shares of the Fund.

Distribution Policy

Distributions will be paid at least annually on the Shares in amounts representing substantially all of the net investment income and net capital gains, if any, earned each year. The Fund is not a suitable investment for any investor who requires regular dividend income.

Each Shareholder whose Shares are registered in its own name will automatically be a participant under the Fund’s dividend reinvestment program (the “DRIP”) and have all income dividends and/or capital gains distributions automatically reinvested in Shares priced at the then-current NAV unless such

Shareholder, at any time, specifically elects to receive income dividends and/or capital gains distributions in cash. A Shareholder receiving Shares under the DRIP instead of cash distributions may still owe taxes and, because Fund Shares are generally illiquid, may need other sources of funds to pay any taxes due. The Fund reserves the right to cap the aggregate amount of any income dividends and/or capital gain distributions that are made in cash (rather than being reinvested) at a total amount of not less than 20% of the total amount distributed to Shareholders. In the event that Shareholders submit elections in aggregate to receive more than the cap amount of such a distribution in cash, any such cap amount will be pro-rated among those electing Shareholders. Inquiries concerning income dividends and/or capital gains distributions should be directed to the Fund's Administrator, UMB Fund Services, Inc. at 1.877.779.1999 or 235 West Galena Street, Milwaukee, WI 53212.

Repurchase Offers

The Fund intends to provide a limited degree of liquidity to the Shareholders by conducting repurchase offers quarterly with a Valuation Date (as defined below) on or about March 31, June 30, September 30 and December 31 of each year. In each repurchase offer, the Fund may offer to repurchase its Shares at their NAV as determined as of approximately March 31, June 30, September 30 and December 31, of each year, as applicable (each, a "Valuation Date"). **Each repurchase offer will be for no less than 5% of the Fund's Shares outstanding, but if the value of Shares tendered for repurchase exceeds the value the Fund intended to repurchase, the Fund may determine to repurchase less than the full number of Shares tendered. In such event, Shareholders will have their Shares repurchased on a pro rata basis, and tendering Shareholders will not have all of their tendered Shares repurchased by the Fund.** Shareholders tendering Shares for repurchase will be asked to give written notice of their intent to do so by the date specified in the notice describing the terms of the applicable repurchase offer, which date will be approximately fourteen (14) days prior to the Valuation Date. See "*TENDER OFFERS/OFFERS TO REPURCHASE.*"

Risk Factors

The Fund is subject to substantial risks — including market risks, strategy risks and risks associated with investments in Investment Funds. The Fund will also be subject to the risks associated with the investment strategies employed by the Investment Manager and Sub-Advisers, which may include merger arbitrage and special situations risks, equity securities risks, derivative risks, and non-U.S. securities risks. While the Investment Manager and Sub-Advisers will attempt to moderate any risks, there can be no assurance that the Fund's investment activities will be successful or that the investors will not suffer losses. The Investment Manager and Sub-Advisers may not have any control over the Underlying Managers and there can be no assurances that the Underlying Managers will manage their Investment Funds in a manner consistent with the Fund's investment objective. Additionally, some Investment Funds may not be registered as investment companies under the Investment Company Act and,

therefore, the Fund may not be entitled to the various protections afforded by the Investment Company Act with respect to its investments in those Investment Funds. There may also be certain conflicts of interest relevant to the management of the Fund, arising out of, among other things, activities of the Investment Manager and the Sub-Advisers and their affiliates and employees with respect to the management of accounts for other clients as well as the investment of proprietary assets. Prospective investors should review carefully the “*PRINCIPAL RISK FACTORS*” section of this Prospectus. An investment in the Fund should only be made by investors who understand the risks involved and who are able to withstand the loss of the entire amount invested.

Accordingly, the Fund should be considered a speculative investment, and you should invest in the Fund only if you can sustain a complete loss of your investment. Past results of the Investment Manager, its principals, and the Fund are not indicative of future results. See “*PRINCIPAL RISK FACTORS*.”

Summary of Taxation

The Fund has elected to be treated and qualify as a regulated investment company (a “RIC”) for federal income tax purposes. As a RIC, the Fund will generally not be subject to federal corporate income tax, provided that when it is a RIC, it distributes out all of its income and gains each year. The Investment Funds may be subject to taxes, including withholding taxes, attributable to investments of the Investment Funds. See “*TAXES*.”

FUND FEES AND EXPENSES

The following tables describe the aggregate fees and expenses that the Fund expects to incur and that the Shareholders can expect to bear, either directly or indirectly, through the Fund's investments. You may qualify for sales charge discounts if you and your family invest, or agree to invest in the future, at least \$25,000 in Advisor Class Shares. More information about these and other discounts is available from your financial professional and in the section titled "*Purchasing Shares*" beginning on page 54 of this Prospectus.

	Advisor Class Shares ⁽⁵⁾	CIA Class Shares
TRANSACTION EXPENSES:		
Maximum Sales Charge (Load) (as a percentage of subscription amount) ⁽¹⁾ . . .	5.75%	None
ANNUAL EXPENSES (AS A PERCENTAGE OF NET ASSETS ATTRIBUTABLE TO SHARES)⁽²⁾		
Management Fee ⁽³⁾	0.50%	0.50%
Distribution and Servicing Fee ⁽⁴⁾	1.00%	None
Dividend and Interest Expense on Short Sales	0.64%	0.64%
Acquired Fund Fees and Expenses ⁽⁶⁾	1.41%	1.41%
Other Expenses	2.82%	2.82%
Total Annual Expenses ⁽⁷⁾	6.37%	5.37%
Less: Amount Paid or Absorbed Under Expense Limitation and Reimbursement Agreement ⁽⁷⁾⁽⁸⁾	2.27%	2.27%
Net Annual Expenses ⁽⁷⁾	4.10%	3.10%

-
- (1) Investors in Advisor Class Shares may be charged a sales charge of up to 5.75% of the subscription amount.
 - (2) This table summarizes the expenses of the Fund and is designed to help investors understand the costs and expenses they will bear, directly or indirectly, by investing in the Fund. For purposes of determining net assets in fee table calculations, derivatives are valued at market value.
 - (3) Restated to reflect the decrease in the Management Fee from 1.50% to 0.50%. For its provision of advisory services to the Fund, the Investment Manager receives an annual Management Fee, payable monthly in arrears, equal to 0.50% of the Fund's net assets determined as of month-end. The Management Fee will be paid to the Investment Manager before giving effect to any repurchase of Shares in the Fund effective as of that date, and will decrease the net profits or increase the net losses of the Fund that are credited to its Shareholders.
 - (4) The Fund has received exemptive relief from the SEC to offer multiple classes of shares and to adopt a distribution and service plan for Advisor Class Shares. Investors may pay a Distribution and Servicing Fee of up to 1.00% on an annualized basis of the aggregate net assets of the Fund attributable to Advisor Class Shares to the Fund's Distributor or other qualified recipients. Payment of the Distribution and Servicing Fee is governed by the Distribution and Service Plan for Advisor Class Shares, which, pursuant to the conditions of an exemptive order issued by the SEC, has been adopted by the Fund with respect to Advisor Class Shares in compliance with Rule 12b-1 under the Investment Company Act. CIA Class Shares are not subject to the Distribution and Servicing Fee. See "*DISTRIBUTION AND SERVICE PLAN*."
 - (5) As discussed in the "FUND SUMMARY" section above, only the CIA Class of shares is operational as of the date of this Registration Statement.
 - (6) In addition to the Fund's direct expenses, the Fund indirectly bears a pro-rata share of the expenses of the Investment Funds. Private Investment Funds generally charge, in addition to management fees calculated as a percentage of the average NAV of the Fund's investment, performance-based fees generally from 10% to 30% of the net capital appreciation in the private Investment Fund's investment for the year or other measurement period, subject to loss carryforward provisions, as set forth in the respective private Investment Funds' offering documents. Acquired Fund Fees and Expenses have been restated to reflect the estimated fees that the Fund is expected to bear during the current fiscal year. In the future, these fees and expenses may be substantially higher or lower than reflected, because certain fees are based on the performance of the Investment Funds, which fluctuates over time. In addition, the Fund's portfolio changes from time to time, which will result in different Acquired Fund Fees and Expenses.
 - (7) The Expense Limit, Total Annual Expenses and Net Annual Expenses have been restated and differ from the ratios of net expenses to average net assets shown in the Fund's annual report, which does not reflect the current expenses of the Fund.
 - (8) The Investment Manager has entered into an amended and restated expense limitation and reimbursement agreement (the "Expense Limitation and Reimbursement Agreement") with the Fund, whereby the Investment Manager has agreed to waive fees that it would otherwise have been paid, and/or to assume expenses of the Fund (a "Waiver"), if required to ensure the Total Annual Expenses (excluding any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses (as determined in accordance with SEC Form N-2), expenses incurred in connection with any

merger or reorganization, and extraordinary expenses, such as litigation expenses) do not exceed 1.95% and 0.95% of the average daily net assets of Advisor Class Shares and CIA Class Shares, respectively (the "Expense Limit"). Because taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses, expenses incurred in connection with any merger or reorganization, and extraordinary expenses are excluded from the Expense Limit, Total Annual Expenses (after fee waivers and expense reimbursements) are expected to exceed 1.95% and 0.95% for the Advisor Class Shares and CIA Class Shares, respectively. For a period not to exceed three years from the date on which a Waiver is made, the Investment Manager may recoup amounts waived or assumed, provided it is able to effect such recoupment and remain in compliance with the Expense Limit. The Expense Limitation and Reimbursement Agreement term ends on August 1, 2020. The Expense Limitation and Reimbursement Agreement will automatically renew for consecutive one-year terms thereafter. Neither the Fund nor the Investment Manager may terminate the Expense Limitation and Reimbursement Agreement during the current term. After August 1, 2020, either the Fund or the Investment Manager may terminate the Expense Limitation and Reimbursement Agreement upon 30 days' written notice.

The purpose of the table above is to assist prospective investors in understanding the various fees and expenses Shareholders will bear directly or indirectly. "Other Expenses," as shown above, is an estimate based on anticipated investments in the Fund and anticipated expenses for the current fiscal year of the Fund's operations, and includes, among other things, professional fees and other expenses that the Fund will bear, including initial and ongoing offering costs and fees and expenses of the Administrator and custodian. For a more complete description of the various fees and expenses of the Fund, see "INVESTMENT MANAGEMENT FEE," "ADMINISTRATION," "FUND EXPENSES," and "PURCHASING SHARES."

The following example is intended to help you compare the cost of investing in the Fund with the cost of investing in other funds. The example assumes that all distributions are reinvested at NAV and that the percentage amounts listed under annual expenses remain the same in the years shown (except that the example reflects the expense limitation for the one-year period and the first year of each additional period). The assumption in the hypothetical example of a 5% annual return is the same as that required by regulation of the Securities and Exchange Commission (the "SEC") applicable to all registered investment companies. The assumed 5% annual return is not a prediction of, and does not represent, the projected or actual performance of the Shares.

EXAMPLE

Advisor Class Shares

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
You Would Pay the Following Expenses Based on the Imposition of the 5.75% Sales Charge and a \$1,000 Investment in the Fund, Assuming a 5% Annual Return:	\$96	\$216	\$332	\$609

CIA Class Shares

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
You Would Pay the Following Expenses Based on a \$1,000 Investment in the Fund, Assuming a 5% Annual Return:	\$31	\$140	\$249	\$516

The example is based on the annual fees and expenses of Advisor Class Shares and CIA Class Shares set out in the table above and should not be considered a representation of future expenses. Actual expenses may be greater or less than those shown. Moreover, the rate of return of the Fund may be greater or less than the hypothetical 5% return used in the example. A greater rate of return than that used in the example would increase the dollar amount of the asset-based fees paid by the Fund.

FINANCIAL HIGHLIGHTS

The information contained in the table below for the fiscal period from June 12, 2017 (commencement of operations) to March 31, 2018 and the semi-annual period ended September 30, 2018 sets forth selected information derived from the Fund's financial statements. Financial statements for the fiscal period ended March 31, 2018 have been audited by Grant Thornton LLP, the Fund's independent registered public accounting firm. Grant Thornton LLP's report, along with the Fund's financial statements and notes thereto, are included in the Fund's annual report for the fiscal period ended March 31, 2018. Financial statements for the semi-annual period ended September 30, 2018 are unaudited. The annual report and the semi-annual report are included in the Fund's SAI, which is available upon request from the Fund. The information in the table below should be read in conjunction with each of those financial statements and the notes thereto.

* Commencement of operations.

¹ Based on average shares outstanding for the period.

² Not annualized.

³ Annualized.

⁴ If interest expense and dividends on securities sold short had been excluded, the expense ratios would have been lowered by 0.64% for the six months ended September 30, 2018 and 0.50% for the period ended March 31, 2018, respectively.

USE OF PROCEEDS

The proceeds from the sale of Shares, not including the amount of any sales charges and the Fund's fees and expenses (including, without limitation, offering expenses not paid by the Investment Manager), will be invested by the Fund in accordance with the Fund's investment objective and strategies as soon as practicable, but in no event later than three months after receipt, consistent with market conditions and the availability of suitable investments. Delays in investing the Fund's assets may occur, for example, because of the time required to complete certain transactions, but any such delay will not exceed three months after the receipt of funds.

Pending the investment of the proceeds of any offering or any other available funds pursuant to the Fund's investment objective and strategies, a portion of such amounts, which may include a substantial portion of the proceeds of an offering, may be invested in short-term debt securities or money market funds. In addition, subject to applicable law, the Fund may maintain a portion of its assets in cash or short-term securities or money market funds to meet operational needs, for temporary defensive purposes, or to maintain liquidity. The Fund may be prevented from achieving its objective during any period in which the Fund's assets are not substantially invested in accordance with its principal investment strategies.

INVESTMENT OBJECTIVE AND STRATEGIES

INVESTMENT OBJECTIVE

The Fund's investment objective is to seek to achieve long-term capital appreciation by pursuing positive absolute returns across market cycles. In pursuing its objective, the Fund seeks to generate attractive long-term returns with low sensitivity to traditional equity and fixed income indices. The Fund uses a "multi-manager" approach whereby the Fund's assets are allocated amongst the Investment Manager and one or more sub-advisers, in percentages determined at the discretion of the Investment Manager. There can be no assurance that the Fund will achieve its investment objective.

INVESTMENT STRATEGIES AND OVERVIEW OF INVESTMENT PROCESS

The Investment Manager seeks to achieve the Fund's investment objective by delegating the management of a portion of Fund assets to a group of experienced investment managers that utilize a variety of investment strategies and styles (the "Sub-Advisers") and may manage a portion of the Fund's assets directly. The Investment Manager maintains primary responsibility for allocating Fund assets to the Sub-Advisers and from time to time will select and determine the percentage of Fund assets to allocate to each Sub-Adviser. While the Investment Manager delegates a portion of the day-to-day management of the Fund's assets to a combination of Sub-Advisers, the Investment Manager retains overall supervisory responsibility for the general management and investment of the Fund's securities portfolio. The Investment Manager may exercise its discretion to manage a portion of Fund assets directly to hedge or to modify the Fund's exposure to a particular investment or market-related risk created by a Sub-Adviser, to invest the Fund's assets pending allocation to a Sub-Adviser, or to establish positions in securities and strategies it deems appropriate for meeting the Fund's investment objective. The Investment Manager may, from time to time, reallocate the Fund's assets among itself and the Sub-Advisers.

In pursuing the Fund's investment objectives, the Investment Manager and Sub-Advisers may obtain exposure to these investments directly or indirectly by investing in closed-end and open-end registered investment companies, private investment funds and other investment vehicles that invest or trade in these investments (collectively, "Investment Funds").

The Investment Manager and Sub-Advisers implement both fundamentally and technically driven strategies. The allocation amongst these strategies will vary over time in response to changing market opportunities. These strategies may include, without limitation, global macro, opportunistic equity and fixed income, multi-strategy fixed income and arbitrage strategies that invest in different asset classes, securities, and derivative instruments, as discussed below. These strategies seek to target attractive absolute returns. These strategies may exhibit different degrees of volatility, as well as changes in relative value, currency, and interest rate markets. The Investment Manager and Sub-Advisers seek to have diversifying characteristics including lower correlation to market risk factors than traditional equity and fixed income strategies.

The Fund may engage in the following strategies and investments directly or indirectly through Investment Funds. At any time, the Fund's investment in Investment Funds may constitute all or a substantial percentage of the Fund's holdings.

- **Global Macro:** The Investment Manager and Sub-Advisers have a broad investment mandate to invest in liquid asset classes globally, including futures and other derivative contracts, with a goal of generating positive total returns over a full market cycle, with the potential to generate these returns with lower correlation to traditional equity and fixed income indices. The Investment Manager and Sub-Advisers may analyze a variety of factors, including fiscal and monetary policy, historical price data, country specific fundamental economic data, as well as social and demographic trends, and political events.
- **Opportunistic:** The Investment Manager and Sub-Advisers may invest globally, long or short, in stocks of companies of any size or market capitalization, and/or in government and corporate bonds, other fixed income securities, fixed or floating rate bank loans and participations, registered and private Investment Funds, and public and privately traded real estate investment trusts ("REITs"). They may also invest in derivatives either to manage risk or to enhance return. The Investment Manager and Sub-Advisers may employ a bottom-up analysis for individual security selection, and/or a top-down approach to capital allocation amongst various asset classes, while employing risk management strategies designed to mitigate downside risk.
- **Closed-End Fund Arbitrage:** The Investment Manager and Sub-Advisers may seek to derive value from the discount and premium spreads associated with closed-end funds, which involves investments in closed-end funds, open-end funds, private funds, exchange-traded funds and business development companies.
- **Merger Arbitrage:** The Investment Manager and Sub-Advisers may seek to generate returns by transacting in the stock of companies involved in significant corporate events, such as mergers and acquisitions, to capitalize on potential arbitrage opportunities. This strategy may involve investments in publicly-traded common stock and preferred stock of such companies as well as short sales involving the stock of certain such companies and the use of derivative transactions, such as options, index futures, forwards and swaps, for hedging purposes.
- **Convertible/Credit Arbitrage:** The Investment Manager and Sub-Advisers may seek to profit from perceived pricing inefficiencies between a convertible security and its underlying stock, mispricing of a convertible security relative to other securities in an issuer's capital structure, and potential opportunities as a result of significant corporate events, such as mergers, acquisitions, reorganizations, covenant violations or balance sheet restructurings.
- **Multi-Strategy Fixed Income:** Under this strategy the Fund may invest in asset-backed fixed income securities, including securities backed by assets such as credit card receivables, student loans, automobile loans and residential and commercial real estate, and fixed or floating rate bank loans and participations, and REITs. The Fund's allocation of its assets into various asset classes within the asset-backed fixed income market will depend on the views of the Investment Manager and Sub-Advisers as to the best value relative to what is currently presented in the market place. Certain of the Fund's portfolio managers lead a team of sector specialists responsible for researching opportunities within their sector and making recommendations to those portfolio managers. In selecting investments, the Investment Manager and Sub-Advisers may consider maturity, yield and ratings information and opportunities for price appreciation among other criteria. The Investment Manager and Sub-Advisers may sell investments if it is determined that any of the mentioned factors have changed materially from the initial analysis or that other factors indicate that an investment is no longer earning a return commensurate with its risk. From time to time, the Fund may allocate a portion of its assets so as to focus on particular types of asset-backed fixed income securities. Under the Multi-Strategy Fixed Income strategy, the Investment Manager and Sub-Advisers analyze a variety of additional factors when selecting investments for the Fund, such as collateral quality, credit support, structure and market conditions. The Investment Manager and Sub-Advisers attempt to diversify risks that arise from

position sizes, geography, ratings, duration, deal structure and collateral values. The Investment Manager and Sub-Advisers will also seek to invest in securities that have relatively low volatility. The Investment Manager and Sub-Advisers seek to limit risk of principal by targeting assets that they consider undervalued.

The Fund invests in a wide range of U.S. and non-U.S. publicly traded and privately issued or negotiated securities (securities for which the price is negotiated between private parties) including, but not limited to, equity securities, fixed-income securities, bank loans and participations, REITS, currencies and derivatives. The Fund may invest in foreign securities, including those from emerging markets. The Fund's allocation to these various security types, various asset classes and various market types will vary over time in response to changing market opportunities. The Fund may invest a material portion of its assets in foreign securities. It is not anticipated that investments in emerging markets will constitute a significant portion of the Fund's investments.

The Fund may invest in REITs. REITs are pooled investment vehicles that invest primarily in real estate or real estate related loans. REITs are generally classified as equity REITs, mortgage REITs or a combination of equity and mortgage REITs. Equity REITs invest the majority of their assets directly in real property and derive income primarily from the collection of rents. Equity REITs can also realize capital gains by selling properties that have appreciated in value. Equity REITs may further be categorized by the type of real estate they own, such as apartment properties, retail shopping centers, office and industrial properties, hotels, healthcare facilities, manufactured housing and mixed property types. Mortgage REITs invest the majority of their assets in real estate mortgages and derive income from the collection of interest payments. Hybrid REITs combine the characteristics of both equity and mortgage REITs. Like regulated investment companies such as the Fund, REITs are not taxed on income distributed to shareholders provided they comply with certain requirements under the Code.

The Fund may also invest in collateralized loan obligations ("CLOs"), which are backed by a pool of corporate debt. CLOs are similar to collateralized mortgage obligations ("CMOs") but differ as to the type of underlying loan. The Fund may invest in non-agency, residential mortgage-backed securities ("RMBS"). Residential mortgage loans are generally classified into three categories based on the risk profile of the borrower and the property: (i) Prime, (ii) Alternative-A ("Alt-A"), and (iii) Subprime. Prime residential mortgage loans are extended to borrowers who represent a relatively low risk profile through a strong credit history. Subprime loans are made to borrowers who display poor credit histories and other characteristics that correlate with a higher default risk. Alt-A loans are made to borrowers whose risk profile falls between Prime and Subprime. When selecting RMBS investments for the Fund under the Multi-Strategy Fixed Income strategy, the Investment Manager and Sub-Advisers intend to focus on RMBS that are collateralized by pools of Prime or Alt-A mortgages and that are seasoned (i.e., have a history of timely payments). (These securities are also known as CMOs.)

Prime mortgage loans may be either "agency" or "non-agency." Agency loans have balances that fall within the limits set by the Federal Housing Finance Agency ("FHFA") and qualify as collateral for securities that are issued by the Government National Mortgage Association ("Ginnie Mae"), the Federal National Mortgage Association ("Fannie Mae") or the Federal Home Loan Mortgage Corporation ("Freddie Mac"). Non-agency loans have balances that may or may not fall within the limits set by FHFA and do not qualify as collateral for securities that are issued by Ginnie Mae, Fannie Mae or Freddie Mac, and are sponsored by private companies other than government sponsored enterprises (sometimes referred to as "private label paper").

Additionally, the Fund may invest up to 25% of its net assets in bank loans and participations, including first-lien, second-lien and unitranche loans. The Fund may invest in bank loans and participations of any credit quality, maturity or duration. The bank loans and participations in which the Fund will invest may have fixed or floating interest rates, may be senior or subordinated, may be leveraged loans and may be rated below investment grade or unrated. The Fund may invest in bank loans through assignments (whereby the Fund assumes the position of the lender to the borrower) or loan participation (whereby the Fund purchases all or a portion of the economic interest in a loan). "Unitranche" loans are loans that combine both senior and subordinate debt into a single loan under which the borrower pays an interest rate intended to reflect the relative risk of the secured and unsecured components of the loan.

For either investment or hedging purposes, certain Sub-Advisers may invest substantially in a broad range of derivative instruments, including structured products, swaps (including credit default swaps), futures and forward contracts, and options. The Sub-Advisers may be highly dependent on the use of futures and other derivative instruments, and to the extent that they become unavailable, this may limit a Sub-Adviser from fully implementing its investment strategy. Such derivatives may trade over-the-counter or on an exchange and may principally be used for one or more of the following purposes: speculation, currency hedging, duration management, or to pursue the Fund's investment objective. The Fund may also invest in repurchase agreements and reverse repurchase agreements.

The Investment Manager and Sub-Advisers invest based upon their belief that the securities have a strong appreciation potential (long investing, or actually owning a security) or potential to decline in value (short investing, or borrowing a security from a broker and selling it, with the understanding that it must later be bought back and returned to the broker). The Fund sells (or closes a position in) a security when the Investment Manager or a Sub-Adviser determines that a particular security has achieved its investment expectations or the reasons for maintaining that position are no longer valid, including: (1) if the Sub-Adviser's view of the business fundamentals or management of the underlying company changes; (2) if a more attractive investment opportunity is found; (3) if general market conditions trigger a change in the Sub-Adviser's assessment criteria; or (4) for other portfolio management reasons.

Each Sub-Adviser has complete discretion to invest its portion of the Fund's assets as it deems appropriate, based on its particular philosophy, style, strategies and views. While each Sub-Adviser is subject to the oversight of the Investment Manager, the Investment Manager does not attempt to coordinate or manage the day-to-day investments of the Sub-Advisers.

The Investment Manager and the Sub-Advisers may invest in equity securities of any market capitalization without limitation as to types of industries and sectors in which it may invest. The Investment Manager and Sub-Advisers may also invest in government and corporate bonds and other fixed income securities, futures and other derivative instruments, closed-end funds and other investment vehicles, convertible securities and other securities and investment products as described more fully herein.

The Fund may invest in special purpose acquisition companies ("SPACs"). SPACs are collective investment structures that pool funds in order to seek potential acquisition opportunities. Unless and until an acquisition is completed, a SPAC generally invests its assets (less an amount to cover expenses) in U.S. Government securities, money market fund securities and cash. SPACs and similar entities may be blank check companies with no operating history or ongoing business other than to seek a potential acquisition. Accordingly, the value of their securities is particularly dependent on the ability of the entity's management to identify and complete a profitable acquisition. Certain SPACs may seek acquisitions only in limited industries or regions, which may increase the volatility of their prices. If an acquisition that meets the requirements for the SPAC is not completed within a predetermined period of time, the invested funds are returned to the entity's shareholders. Investments in SPACs may be illiquid and/or be subject to restrictions on resale. To the extent the SPAC is invested in cash or similar securities, this may impact a Fund's ability to meet its investment objective.

Investment Process

The Investment Manager looks to identify skilled investment advisory firms to serve as Sub-Advisers to the Fund. The Investment Manager selects Sub-Advisers who satisfy a stringent selection process, which may include, but is not limited to: ability to produce attractive long-term, risk-adjusted investment results; ability to manage risks; ability to perform well in markets where investment conditions are difficult; and operational competence. The Investment Manager also considers additional criteria including, but not limited to: relevant investment management experience; the degree to which a specific Sub-Adviser's investment style complements and balances the Fund's portfolio with respect to the strategies employed by other Sub-Advisers; the quality of the Sub-Adviser's organization; and the ability of a Sub-Adviser to consistently and effectively apply its investment approach.

The Investment Manager allocates to each Sub-Adviser a portion of the Fund's assets to invest. The Sub-Advisers invest in the securities described above based upon their respective investment strategies. Each Sub-Adviser has complete discretion to invest its portion of the Fund's assets as it deems appropriate, based on its particular philosophy, style, strategies and views. While each Sub-Adviser is subject to the oversight

of the Investment Manager, the Investment Manager does not attempt to coordinate or manage the day-to-day investments of the Sub-Advisers.

In evaluating whether the Fund will invest in a particular Investment Fund, the Investment Manager and/or Sub-Advisers may consider, among other things, (i) the Investment Fund's and Underlying Manager's past performance and reputation, (ii) the degree to which the Investment Fund complements and balances the Fund's portfolio and correlates to the strategies pursued by the Investment Manager and/or the Sub-Advisers, (iii) the fees payable in connection with the Fund's investment in the Investment Fund, (iv) the tenure of the Investment Fund's Underlying Manager, (v) the continued favorability of the strategy employed by an Investment Fund, and (vi) the ability of the Fund to make withdrawals or liquidate its investment positions in the Investment Fund.

In reviewing the degree to which a particular Investment Fund is a suitable investment for the Fund, the Investment Manager and/or Sub-Advisers will consider the fees payable in connection with the investment in order to evaluate execution and compare net returns. The Investment Manager and/or Sub-Advisers will also consider the assets under management of the Underlying Managers to evaluate whether the Underlying Managers are appropriate for the Fund's strategies, given that certain strategies may be more or less appropriate at different asset levels. In an effort to optimize its investment program, the Fund may allocate a portion of its capital to Investment Funds that lack historical track records but, that in the Investment Manager and/or Sub-Advisers' judgment, offer exceptional potential.

The Fund sells (or closes a position in) a security when the Investment Manager or Sub-Adviser determines that a particular security has achieved its investment expectations or the reasons for maintaining that position are no longer valid, including: (1) if the Investment Manager's or Sub-Adviser's view of the business fundamentals or management of the underlying company changes; (2) if a more attractive investment opportunity is found; (3) if general market conditions trigger a change in the Investment Manager's or Sub-Adviser's assessment criteria; or (4) for other portfolio management reasons.

When adverse market, economic, political or other conditions dictate a more defensive investment strategy, the Fund may, on a temporary basis, hold cash or invest a portion or all of its assets in money-market instruments including obligations of the U.S. government, its agencies or instrumentalities, obligations of foreign sovereignties, other high-quality debt securities, including prime commercial paper, repurchase agreements and bank obligations, such as bankers' acceptances and certificates of deposit. Under normal market conditions, the potential for capital appreciation on these securities will tend to be lower than the potential for capital appreciation on other securities that may be owned by the Fund. In taking such a defensive position, the Fund would temporarily not be pursuing its principal investment strategies and may not achieve its investment objective.

PRINCIPAL RISK FACTORS

All investments carry risks to some degree. The Fund cannot guarantee that its investment objective will be achieved or that its strategy of investing in the Fund will be successful. **An investment in the Fund involves substantial risks, including the risk that the entire amount invested may be lost.**

GENERAL RISKS

REPURCHASE OFFERS; LIMITED LIQUIDITY. The Fund is a closed-end investment company structured as an "interval fund" and, as such, has adopted a fundamental policy to make quarterly repurchase offers, at per-class NAV, of not less than 5% of the Fund's outstanding Shares on the repurchase request deadline. The Fund will offer to purchase only a small portion of its Shares each quarter, and there is no guarantee that Shareholders will be able to sell all of the Shares that they desire to sell in any particular repurchase offer. Under current regulations, such offers must be for not less than 5% nor more than 25% of the Fund's Shares outstanding on the repurchase request deadline. If a repurchase offer is oversubscribed, the Fund may repurchase only a pro rata portion of the Shares tendered by each Shareholder. The potential for proration may cause some investors to tender more Shares for repurchase than they wish to have repurchased.

The Fund's repurchase policy will have the effect of decreasing the size of the Fund over time from what it otherwise would have been. Such a decrease may therefore force the Fund to sell assets it would not otherwise sell. It may also reduce the investment opportunities available to it and cause its expense ratio to increase.

Payment for repurchased Shares may require the Fund to liquidate portfolio holdings earlier than the Investment Manager would otherwise want, potentially resulting in losses, and may increase the Fund's portfolio turnover, subject to such policies as may be established by the Board in an attempt to avoid or minimize potential losses and turnover resulting from the repurchase of Shares.

If a Shareholder tenders all of its Shares (or a portion of its Shares) in connection with a repurchase offer made by the Fund, that tender may not be rescinded by the Shareholder after the date on which the repurchase offer terminates. However, although the amount payable to the Shareholder will be based on the value of the Fund's assets as of the repurchase date, the value of Shares that are tendered by Shareholders generally will not be determined until approximately fourteen (14) days after the repurchase offer terminates. Thus, a Shareholder will not know its repurchase price until after it has irrevocably tendered its Shares.

LIMITED LIQUIDITY. Shares in the Fund provide limited liquidity since Shareholders will not be able to redeem Shares on a daily basis. A Shareholder may not be able to tender its Shares in the Fund promptly after it has made a decision to do so. In addition, with very limited exceptions, Shares are not transferable, and liquidity will be provided only through repurchase offers made quarterly by the Fund. Shares in the Fund are therefore suitable only for investors who can bear the risks associated with the limited liquidity of Shares and should be viewed as a long-term investment.

BORROWING, USE OF LEVERAGE. The Fund may leverage its investments by "borrowing." The use of leverage increases both risk of loss and profit potential. The Investment Manager and/or Sub-Advisers may cause the Fund to use various methods to leverage investments, including (i) borrowing, (ii) swap agreements or other derivative instruments, (iii) use of short sales, or (iv) a combination of these methods. The Fund expects that under normal business conditions it will utilize a combination of the leverage methods described above. The Fund is subject to the Investment Company Act requirement that an investment company satisfy an asset coverage requirement of 300% of its indebtedness, including amounts borrowed, measured at the time the investment company incurs the indebtedness (the "Asset Coverage Requirement"). This means that at any given time the value of the Fund's total indebtedness may not exceed one-third the value of its total assets (including such indebtedness). The interests of persons with whom the Fund enters into leverage arrangements will not necessarily be aligned with the interests of the Fund's Shareholders and such persons will have claims on the Fund's assets that are senior to those of the Fund's Shareholders.

NON-DIVERSIFIED STATUS. The Fund is a "non-diversified" management investment company. Thus, there are no percentage limitations imposed by the Investment Company Act on the Fund's assets that may be invested, directly or indirectly, in the securities of any one issuer. Consequently, if one or more securities are allocated a relatively large percentage of the Fund's assets, losses suffered by such securities could result in a higher reduction in the Fund's capital than if such capital had been more proportionately allocated among a larger number of securities. The Fund may also be more susceptible to any single economic or regulatory occurrence than a diversified investment company.

LEGAL, TAX AND REGULATORY. Legal, tax and regulatory changes could occur that may materially adversely affect the Fund. For example, the regulatory and tax environment for derivative instruments in which the Fund may participate is evolving, and changes in the regulation or taxation of derivative instruments may materially adversely affect the value of derivative instruments held by the Fund and the ability of the Fund to pursue its trading strategies. Similarly, the regulatory environment for leveraged investors is evolving, and changes in the direct or indirect regulation of leveraged investors may materially adversely affect the ability of the Fund to pursue its investment objective or strategies. Increased regulatory oversight and other legislation or regulation could result. Such legislation or regulation could pose additional risks and result in material adverse consequences to the Fund and/or limit potential investment strategies that would have otherwise been used by the Fund in order to seek to obtain higher returns.

MULTI-MANAGER RISK. Fund performance is dependent upon the success of the Investment Manager and the Sub-Advisers in implementing the Fund's investment strategies in pursuit of its investment objective. To a significant extent, the Fund's performance will depend on the success of the Investment Manager's methodology in allocating the Fund's assets to the Sub-Advisers and its selection and

oversight of the Sub-Advisers. The Sub-Advisers selected by the Investment Manager may underperform the market generally or other sub-advisers that could have been selected for the Fund. The Sub-Advisers' investment styles may not always be complementary, which could adversely affect the performance of the Fund. Because each Sub-Adviser makes investment decisions independently, it is possible that one or more Sub-Advisers may, at any time, take positions that may be opposite of positions taken by other Sub-Advisers or the Investment Manager. In such cases, the Fund will incur brokerage and other transaction costs without accomplishing any net investment results. The Sub-Advisers also may be competing with one another for similar positions at the same time, which could have the result of increasing a security's cost. The multi-manager approach could increase the Fund's portfolio turnover rates, which may result in higher levels of realized capital gains or losses with respect to the Fund's portfolio securities, and higher broker commissions and other transaction costs.

PORTFOLIO TURNOVER. The Fund may sell securities without regard to the length of time they have been held to take advantage of new investment opportunities, when the Investment Manager or a Sub-Adviser feels either the securities no longer meet its investment criteria or the potential for capital appreciation has lessened, or for other reasons. The Fund's portfolio turnover rate may vary from year to year. A high portfolio turnover rate (100% or more) increases the Fund's transaction costs (including brokerage commissions and dealer costs), which would adversely impact the Fund's performance. Higher portfolio turnover may result in the realization of more short-term capital gains than if the Fund had lower portfolio turnover. The turnover rate will not be a limiting factor, however, if the Investment Manager or a Sub-Adviser considers portfolio changes appropriate.

LARGE SHAREHOLDER TRANSACTIONS RISK. Shares of the Fund may be offered to certain other investment companies, large retirement plans and other large investors. As a result, the Fund is subject to the risk that those shareholders may purchase or redeem a large amount of shares of the Fund. To satisfy such large shareholder redemptions, the Fund may have to sell portfolio securities at times when it would not otherwise do so, which may negatively impact the Fund's NAV and liquidity. In addition, large purchases of Fund shares could adversely affect the Fund's performance to the extent that the Fund does not immediately invest cash it receives and therefore holds more cash than it ordinarily would. Large shareholder activity could also generate increased transaction costs and cause adverse tax consequences.

NON-QUALIFICATION AS A REGULATED INVESTMENT COMPANY. If for any taxable year the Fund were to fail to qualify as a regulated investment company under Subchapter M of Subtitle A, Chapter 1, of the Internal Revenue Code of 1986, as amended (the "Code"), all of its taxable income would be subject to tax at regular corporate rates without any deduction for distributions. To qualify as a regulated investment company, the Fund must meet three numerical requirements each year regarding (i) the diversification of the assets it holds, (ii) the income it earns, and (iii) the amount of taxable income that it distributes to shareholders. These requirements and certain additional tax risks associated with investments in the Fund are discussed in "TAXES" in this Prospectus.

INVESTMENT-RELATED RISKS

GENERAL INVESTMENT-RELATED RISKS

GENERAL ECONOMIC AND MARKET CONDITIONS. The success of the Fund's investment program may be affected by general economic and market conditions, such as interest rates, availability of credit, inflation rates, economic uncertainty, changes in laws, and national and international political circumstances. These factors may affect the level and volatility of securities prices and the liquidity of investments held by the Fund. Unexpected volatility or illiquidity could impair the Fund's profitability or result in losses.

In June 2016, the United Kingdom (the "UK") voted in a referendum to leave the European Union ("EU"). Although the precise timeframe for "Brexit" is uncertain, it is currently expected that the UK will seek to withdraw from the EU by invoking Article 50 of the Lisbon Treaty and that the completion date of their exit shall fall within two years from the date of notification to the European Council of the UK's intention to withdraw. It is unclear how withdrawal negotiations will be conducted and what the potential consequences may be. In addition, it is possible that measures could be taken to revote on the issue of Brexit, or that portions of the UK could seek to separate and remain a part of the EU. The political

divisions within the UK, as well as those between the UK and the EU, which the referendum vote has highlighted coupled with the uncertain consequences of a Brexit, may have a significant impact upon the UK and European economies as well as the broader global economy. As a result, markets in the UK, Europe and globally could experience increased volatility and illiquidity, and potentially lower economic growth which in return could potentially have an adverse effect on the value of the Fund's investments.

HIGHLY VOLATILE MARKETS. The prices of commodities contracts and all derivative instruments, including futures and options, can be highly volatile. Price movements of forwards, futures and other derivative contracts in which the Fund may be invested are influenced by, among other things, interest rates, changing supply and demand relationships, trade, fiscal, monetary and exchange control programs and policies of governments, and national and international political and economic events and policies. In addition, governments from time to time intervene, directly and by regulation, in certain markets, particularly those in currencies, financial instruments, futures and options. Such intervention often is intended directly to influence prices and may, together with other factors, cause all of such markets to move rapidly in the same direction because of, among other things, interest rate fluctuations. The Fund is also subject to the risk of the failure of any exchanges on which its positions trade or of the clearinghouses for those exchanges.

RISKS OF SECURITIES ACTIVITIES. The Fund will invest and trade in a variety of different securities, and utilize a variety of investment instruments and techniques. Each security and each instrument and technique involves the risk of loss of capital. While the Investment Manager and/or Sub-Advisers will attempt to moderate these risks, there can be no assurance that the Fund's investment activities will be successful or that the Shareholders will not suffer losses.

COUNTERPARTY CREDIT RISK. Many of the markets in which the Fund effects its transactions are "over the counter" or "inter-dealer" markets. The participants in these markets are typically not subject to credit evaluation and regulatory oversight as are members of "exchange based" markets. To the extent the Fund invests in swaps, derivative or synthetic instruments, or other over the counter transactions, on these markets, the Fund is assuming a credit risk with regard to parties with whom it trades and may also bear the risk of settlement default. These risks may differ materially from those associated with transactions effected on an exchange, which generally are backed by clearing organization guarantees, daily marking to market and settlement, and segregation and minimum capital requirements applicable to intermediaries. Transactions entered into directly between two counterparties generally do not benefit from such protections. This exposes the Fund to the risk that a counterparty will not settle a transaction in accordance with its terms and conditions because of a dispute over the terms of the contract (whether or not bona fide) or because of a credit or liquidity problem, thus causing the Fund to suffer a loss. Such counterparty risk is accentuated in the case of contracts with longer maturities where events may intervene to prevent settlement, or where the Fund has concentrated its transactions with a single or small group of counterparties. The Fund is not restricted from dealing with any particular counterparty or from concentrating its investments with one counterparty. The ability of the Fund to transact business with any one or number of counterparties, the lack of any independent evaluation of such counterparties' financial capabilities and the absence of a regulated market to facilitate settlement may increase the potential for losses by the Fund.

INVESTMENT STRATEGY-SPECIFIC INVESTMENT-RELATED RISKS

In addition to the risks generally described in this Prospectus and the SAI, the following are some of the specific risks of the investment strategy:

UNDERLYING INVESTMENT FUND RISK. When the Fund invests in securities issued by an Investment Fund, it will bear its pro rata portion of the Investment Fund's expenses, including advisory fees. These expenses are in addition to the direct expenses of the Fund's own operations, thereby increasing indirect costs and potentially reducing returns to Shareholders. An Investment Fund in which the Fund invests has its own investment risks, and those risks can affect the value of the Investment Fund's shares and therefore the value of the Fund's investments. There can be no assurance that the investment objective of an Investment Fund will be achieved. An Investment Fund may change its investment objective or policies without the Fund's approval, which could force the Fund to withdraw its investment from such Investment Fund at a time that is unfavorable to the Fund. In addition, one Investment Fund may buy the

same securities that another Investment Fund sells. Therefore, the Fund would indirectly bear the costs of these trades without accomplishing any investment purpose. Additionally, the shares of closed-end funds frequently trade at a discount to their net asset value. There can be no assurance that the market discount on shares of any closed-end fund purchased by the Fund will ever decrease, and it is possible that the discount may increase.

LACK OF OPERATING HISTORY OF INVESTMENT FUNDS. Certain Investment Funds may be newly formed entities that have no operating histories. In such cases, the Investment Manager and Sub-Advisers may evaluate the past investment performance of the applicable Underlying Managers or of their personnel. However, this past investment performance may not be indicative of the future results of an investment in an Investment Fund. Although the Investment Manager and Sub-Advisers and their personnel have experience evaluating the performance of alternative asset managers and providing manager selection and asset allocation services to clients, the Fund's investment programs should be evaluated on the basis that there can be no assurance that the Investment Manager's and Sub-Advisers' assessments of Underlying Managers, and in turn their assessments of the short-term or long-term prospects of investments, will prove accurate. Thus, the Fund may not achieve its investment objective and its NAV may decrease.

MULTIPLE LEVELS OF FEES AND EXPENSES. Although in many cases investor access to the Investment Funds may be limited or unavailable, an investor who meets the conditions imposed by an Investment Fund may be able to invest directly with the Investment Fund. By investing in Investment Funds indirectly through the Fund, the investor bears asset-based fees and may indirectly bear performance-based fees and allocations. Moreover, investors in the Fund bear a proportionate share of the fees and expenses of the Fund (including organizational and offering expenses not paid by the Investment Manager, operating costs, sales charges, brokerage transaction expenses, and administrative fees) and, indirectly, similar expenses of the Investment Funds. Thus, an investor in the Fund may be subject to higher operating expenses than if he or she invested in an Investment Fund directly. Some Investment Funds may be subject to a performance-based fee or allocation, irrespective of the performance of other Investment Funds and the Fund generally. Accordingly, an Underlying Manager to certain Investment Funds with positive performance may receive performance-based compensation from the Investment Fund, and thus indirectly from the Fund and its Shareholders, even if the Fund's overall performance is negative. Generally, fees payable to Underlying Managers of the Investment Funds will range from 0.50% to 2% (annualized) of the average NAV of the Fund's investment. In addition, certain Underlying Managers charge an incentive allocation or fee generally ranging from 10% to 30% of an Investment Fund's net profits, although it is possible that such ranges may be exceeded for certain Underlying Managers. The performance-based compensation received by an Underlying Manager also may create an incentive for that Underlying Manager to make investments that are riskier or more speculative than those that it might have made in the absence of the performance-based allocation. Such compensation may be based on calculations of realized and unrealized gains made by the Underlying Manager without independent oversight.

UNDERLYING MANAGERS INVEST INDEPENDENTLY. The Underlying Managers generally invest wholly independently of one another and may at times hold economically offsetting positions. To the extent that the Investment Funds do, in fact, hold such positions, the Fund's portfolio, considered as a whole, may not achieve any gain or loss despite incurring fees and expenses in connection with such positions. Furthermore, it is possible that from time to time, various Investment Funds selected by the Investment Manager or Sub-Advisers may be competing with each other for the same positions in one or more markets. To the extent that the Investment Funds do, in fact, hold the same positions, the Fund's portfolio, considered as a whole, may experience magnified gain or loss corresponding with the same position held by each Investment Fund and incur additional fees and expenses in connection with the same position.

LIQUIDITY CONSTRAINTS OF INVESTMENT FUNDS. Since the Fund may make additional investments in or affect withdrawals from an Investment Fund only at certain times pursuant to limitations set forth in the governing documents of the Investment Fund, the Fund from time to time may have to invest a greater portion of its assets temporarily in money market securities than it otherwise might wish to invest and may have to borrow money to repurchase Shares. The redemption or withdrawal provisions regarding the Investment Funds vary from fund to fund. Therefore, the Fund may not be able to withdraw

its investment in an Investment Fund promptly after it has made a decision to do so. Some Investment Funds may impose early redemption fees while others may not. This may adversely affect the Fund's investment return or increase the Fund's expenses and limit the Fund's ability to make offers to repurchase Shares from Shareholders. Some Investment Funds may be permitted to redeem their interests in-kind. Thus, upon the Fund's withdrawal of all or a portion of its interest in such an Investment Fund, it may receive securities that are illiquid or difficult to value. In these circumstances, the Investment Manager or Sub-Advisers may choose to hold these securities or to seek to dispose of these securities in a manner that is in the best interests of the Fund. Limitations on the Fund's ability to withdraw its assets from Investment Funds may, as a result, limit the Fund's ability to repurchase Shares. For example, some Investment Funds may impose lock-up periods prior to allowing withdrawals, which can be for up to two years or longer from the date of the Fund's investment. After expiration of the lock-up period, withdrawals may be permitted only on a limited basis, such as semi-annually or annually. It is possible that, from time to time, a source of funds to repurchase Shares may be withdrawals from Investment Funds, the application of these lock-ups and other withdrawal limitations, such as gates or suspension provisions, may limit the Fund's ability to tender its Shares for repurchase.

VALUATION OF INVESTMENT FUNDS. The valuation of the Fund's investments in Investment Funds is ordinarily determined based upon valuations calculated by the Administrator, in accordance with valuation procedures approved by the Board and based on information provided by the Investment Funds or their respective administrators. Although the Investment Manager and/or Sub-Advisers, as part of their review of potential Investment Funds, review the valuation procedures used by all Underlying Managers, none the Investment Manager, Sub-Advisers or the Administrator can generally confirm or review the accuracy of valuations provided by Investment Funds or their administrators. An Underlying Manager to an Investment Fund may face a conflict of interest in valuing such securities since their values will affect the Underlying Manager's compensation. If an Underlying Manager's valuations are consistently delayed or inaccurate, the Investment Manager or Sub-Advisers generally will consider whether the Investment Fund continues to be an appropriate investment for the Fund. The Fund may be unable to sell interests in a private Investment Fund quickly, and could therefore be obligated to continue to hold such interests for an extended period of time. In such a case, such interests would continue to be valued without the benefit of the Underlying Manager's valuations, and the Investment Manager may determine to discount the value of the interests or value them at zero, if deemed to be the fair value of such holding. Revisions to the Fund's gain and loss calculations will be an ongoing process, and no appreciation or depreciation figure can be considered final until the annual audits of Investment Funds are completed. Promoting transparency and receiving necessary information from Investment Funds, especially private Investment Funds, may possibly be an impediment to monitoring the performance of such Investment Funds on a regular basis.

INDEMNIFICATION OF INVESTMENT FUNDS. The Underlying Managers often have broad indemnification rights and limitations on liability. The Fund may also agree to indemnify certain of the Investment Funds and, subject to certain limitations imposed by the Investment Company Act and the Securities Act of 1933, as amended, their Underlying Managers from any liability, damage, cost, or expense arising out of, among other things, certain acts or omissions relating to the offer or sale of the shares of the Investment Funds.

CONTROL OVER UNDERLYING MANAGERS. The Fund will invest in Investment Funds that it believes will generally, and in the aggregate, be managed in a manner consistent with the Fund's investment objective and strategy. The Investment Manager or Sub-Advisers will not have any control over the Underlying Managers, thus there can be no assurances that an Underlying Manager will manage its Investment Funds in a manner consistent with the Fund's investment objective.

NO REGISTRATION OF CERTAIN INVESTMENT FUNDS. Some Investment Funds may not be registered as investment companies under the Investment Company Act. Accordingly, the provisions of the Investment Company Act, which, among other things, require investment companies to have securities held in custody at all times in segregated accounts and regulate the relationship between the investment company and its asset management, might not apply to an investment in these Investment Funds. In addition, these Investment Funds may not be obligated to disclose the contents of their portfolios. This lack of transparency may make it difficult for the Investment Manager and Sub-Advisers to monitor whether holdings of these Investment Funds cause the Fund to be above specified levels of ownership in certain

investment strategies. Although the Fund expects to receive information from each Underlying Manager regarding its investment performance on a regular basis, in most cases there is little or no means of independently verifying this information. An Underlying Manager may use proprietary investment strategies that are not fully disclosed to its investors and may involve risks under some market conditions that are not anticipated by the Fund. In addition, while many of these Underlying Managers will register with the SEC and state agencies as a result of developments in certain laws, rules and regulations, some Underlying Managers may still be exempt from registration. In such cases, these Underlying Managers will not be subject to various disclosure requirements and rules that would apply to registered investment advisers. Similarly, while many of these Underlying Managers will register as commodity pool operators under the Commodity Exchange Act, other Underlying Managers will be exempt from registration and will not be subject to various disclosure requirements and rules that would apply to registered commodity pool operators.

ILLIQUID PORTFOLIO INVESTMENTS. The Fund may invest in securities that are subject to legal or other restrictions on transfer or for which no liquid market exists. The market prices, if any, for such securities tend to be volatile and the Fund may not be able to sell them when the Investment Manager or a Sub-Adviser desires to do so or to realize what the Investment Manager or a Sub-Adviser perceives to be their fair value in the event of a sale. The sale of restricted and illiquid securities often requires more time and results in higher brokerage charges or dealer discounts and other selling expenses than does the sale of securities eligible for trading on national securities exchanges or in the over the counter markets. Restricted securities may sell at prices that are lower than similar securities that are not subject to restrictions on resale.

REIT RISKS. Investing in REITs involves certain unique risks. Equity REITs may be affected by changes in the value of the underlying property owned by such REITs, while mortgage REITs may be affected by the quality of any credit extended. REITs are dependent upon management skills, are not diversified (except to the extent the Code requires), and are subject to the risks of financing projects. REITs are subject to heavy cash flow dependency, default by borrowers, self-liquidation, and the possibilities of failing to qualify for the exemption from tax for distributed income under the Code and failing to maintain their exemptions from the 1940 Act. REITs (especially mortgage REITs) are also subject to interest rate risks. Investing in REITs also involves risks similar to those associated with investing in small capitalization companies. That is, they may have limited financial resources, may trade less frequently and in a limited volume and may be subject to abrupt or erratic price movements in comparison to larger capitalization companies. To the extent that assets underlying a REIT are concentrated geographically, by property type or in certain other respects, these risks may be heightened. The Fund will indirectly bear its proportionate share of any expenses paid by REITs in which it invests in addition to the expenses paid by the Fund. Additionally, private REITs are not traded on a national securities exchange. As such, these products are generally illiquid. This may reduce the ability of the Fund to redeem its privately traded REIT investment at a time favorable to the Fund. Privately traded REITs are also generally harder to value and may bear higher fees than public REITs.

EXCHANGE-TRADED FUND RISK. The Fund's investments in exchange-traded funds ("ETFs") are subject to, among other risks, tracking risk and passive and, in some cases, active investment risk. The ETFs in which the Fund may invest that attempt to track an index may not be able to replicate exactly the performance of the indices they track, due to transactions costs and other expenses of the ETFs. Certain ETFs use a "passive" investment strategy and do not take defensive positions in volatile or declining markets. Other ETFs are actively managed ETFs (i.e., they do not track a particular benchmark), which are subject to active management risk and may trade below their NAV. An active secondary market in ETF shares may not develop or be maintained and may be halted or interrupted due to actions by its listing exchange, unusual market conditions or other reasons. There can be no assurance that an ETF's shares will continue to be listed on an active exchange. There is a risk that ETFs may terminate due to extraordinary events. For example, any of the service providers to ETFs, such as the sponsor, may close or otherwise fail to perform their obligations to the ETF, and the ETF may not be able to find a substitute service provider. Additionally, certain ETFs may be dependent upon licenses to use various indexes as a basis for determining their compositions and/or otherwise to use certain trade names. If these licenses are terminated, such ETFs may also terminate. In addition, an ETF may terminate if its net assets fall below a certain amount.

CLOSED-END FUND RISK. The Fund may invest in Investment Funds that are closed-end investment companies registered under the Investment Company Act. The shares of many closed-end funds, after their initial public offering, frequently trade at a price-per-share that is less than the NAV per share, the difference representing the “market discount” of such shares. A relative lack of secondary market purchasers for closed-end fund shares also may contribute to such shares trading at a discount to their net asset value.

VALUATION RISK. Unlike publicly traded common stock, which trades on national exchanges, there is no central place or exchange for some of the Fund’s investments, including bank loans and participations, privately traded REITs and private Investment Funds, to trade. Due to the lack of centralized information and trading, the valuation of loans or fixed-income instruments may carry more risk than that of common stock. Uncertainties in the conditions of the financial and real estate markets, unreliable reference data, lack of transparency and inconsistency of valuation models and processes may lead to inaccurate asset pricing. In addition, other market participants may value securities differently than the Fund. As a result, the Fund may be subject to the risk that when an instrument is sold in the market, the amount received by the Fund is less than the value of such instruments carried on the Fund’s books.

Shareholders should recognize that valuations of illiquid assets involve various judgments and consideration of factors that may be subjective. As a result, the NAV of the Fund, as determined based on the fair value of its investments, may vary from the amount ultimately received by the Fund from any sale of its investments.

MERGER ARBITRAGE AND SPECIAL SITUATIONS. Merger arbitrage and special situation strategies involve the purchase and sale of securities of companies involved in corporate reorganizations and business combinations, such as mergers, exchange offers, cash tender offers, spin-offs, leveraged buy-outs, restructurings and liquidations. Such strategies require an assessment of the likelihood of consummation of the proposed transaction, and an evaluation of the potential profits involved. If the event fails to occur or it does not have the effect foreseen, losses can result. For example, the adoption of new business strategies or completion of asset dispositions or debt reduction programs by a company may not be valued as highly by the market as the Investment Manager and/or Sub-Advisers had anticipated, resulting in losses. In addition, a company may announce a plan of restructuring which promises to enhance value and fail to implement it, resulting in losses to investors. In liquidations and other forms of corporate reorganization, the risk exists that the reorganization either will be unsuccessful, will be delayed or will result in a distribution of cash or a new security, the value of which will be less than the purchase price to the Fund of the security in respect of which such distribution was made. The consummation of mergers and tender and exchange offers can be prevented or delayed by a variety of factors, including: (i) opposition of the management or stockholders of the target company, which will often result in litigation to enjoin the proposed transaction; (ii) intervention of a federal or state regulatory agency; (iii) efforts by the target company to pursue a “defensive” strategy, including a merger with, or a friendly tender offer by, a company other than the offeror; (iv) in the case of a merger, failure to obtain the necessary stockholder approvals; (v) market conditions resulting in material changes in securities prices; (vi) compliance with any applicable federal or state securities laws; and (vii) inability to obtain adequate financing.

A major stock market correction may result in the widening of arbitrage spreads generally and in the termination of some merger and acquisition (“M&A”) transactions. In the event of such a correction, to the extent the portfolios contain stock-for-stock transactions, short positions held by the Fund in acquiring companies are anticipated to provide a significant but not complete offset to the potential losses on long positions held by the Fund in target companies. A major stock market correction may also adversely affect the number and frequency of publicly announced M&A transactions available for investment by the Fund.

EQUITY SECURITIES. The Fund’s investments may include long and short positions in common stocks, preferred stocks and convertible securities of U.S. and non-U.S. issuers. The Fund also may invest in depositary receipts relating to non-U.S. securities, which are subject to the risks affecting investments in foreign issuers discussed under “*NON-U.S. INVESTMENTS*” below. Issuers of unsponsored depositary receipts are not obligated to disclose material information in the United States, and therefore, there may be less information available regarding such issuers. Equity securities fluctuate in value, often based on factors unrelated to the value of the issuer of the securities, and such fluctuations can be pronounced.

BONDS AND OTHER FIXED INCOME SECURITIES. The Fund may invest in bonds and other fixed income securities, both U.S. and non-U.S., and may take short positions in these securities. The Fund will invest in these securities when they offer opportunities for capital appreciation (or capital depreciation in the case of short positions) and may also invest in these securities for temporary defensive purposes and to maintain liquidity. Fixed income securities include, among other securities: bonds, notes and debentures issued by U.S. and non-U.S. corporations; U.S. government securities or debt securities issued or guaranteed by a non-U.S. government; municipal securities; and mortgage-backed and asset backed securities. These securities may pay fixed, variable or floating rates of interest, and may include zero coupon obligations. Fixed income securities are subject to the risk of the issuer's inability to meet principal and interest payments on its obligations (i.e., credit risk) and are subject to price volatility resulting from, among other things, interest rate sensitivity, market perception of the creditworthiness of the issuer and general market liquidity (i.e., market risk).

LOW CREDIT QUALITY SECURITIES. The Fund is permitted to invest in particularly risky investments that also may offer the potential for correspondingly high returns. As a result, the Fund may lose all or substantially all of its investment in any particular instance. There is no minimum credit standard as a prerequisite to an investment in any security. Debt securities, including bank loans and participations, may be less than investment grade and may be considered to be "junk bonds" or be distressed or "special situations" with heightened risk of loss and/or liquidity. "Junk bonds" are considered by the rating agencies to be predominately speculative and may involve major risk exposures such as: (i) vulnerability to economic downturns and changes in interest rates; (ii) sensitivity to adverse economic changes and corporate developments; (iii) redemption or call provisions that may be exercised at inopportune times; and (iv) difficulty in accurately valuing or disposing of such securities. Such securities may rank junior to other outstanding securities and obligations of the issuer, all or a significant portion of whose debt securities may be secured by substantially all of the issuer's assets. Moreover, the Fund may invest in securities that are not protected by financial covenants or limitations on additional indebtedness.

BANK DEBT TRANSACTIONS. The Fund may invest in bank loans and participations, including first-lien, second-lien and unitranche loans. Bank loans are generally debt instruments that are secured by the assets of a borrower. Investing in bank loans involves risks that are additional to, and different from, those relating to investments in other types of debt and fixed-income securities. Special risks associated with investments in bank loans and participations include (i) the possible invalidation of an investment transaction as a fraudulent conveyance under relevant creditors' rights laws, (ii) so-called lender-liability claims by the issuer of the obligations, (iii) environmental liabilities that may arise with respect to collateral securing the obligations, and (iv) limitations on the ability of the Fund to directly enforce its rights with respect to participations. Successful claims in respect of such matters may reduce the cash flow and/or market value of the Fund's investment.

The bank loans in which the Fund may invest are generally illiquid. There is no active trading market for most bank loans and participations and the Fund may be unable to sell its bank loan investments quickly or at a fair price. Even where a secondary market for certain bank loans and loan participations exists, the market may be subject to irregular trading activity and wide bid/ask spreads, which may limit liquidity and pricing transparency. There is generally less readily available and reliable information about bank loans and participations than other types of debt instruments and the Fund might be unable to appraise the value of its bank loan investments quickly or accurately. In addition, bank loans and loan participations may be subject to restrictions on sales or assignment and generally are subject to extended settlement periods that may be longer than seven days.

Bank loans and participations are also subject to the risk that a borrower will default on a scheduled interest or principal payment. The risk of a borrower's default will increase with market downturns or substantial increases in interest rates. The value of bank loans and participations may be adversely affected by price volatility due to factors such as the market's perception of a borrower's creditworthiness or general market liquidity. If a borrower defaults and a bank loan is foreclosed, the Fund could become the owner, in whole or in part, of any collateral securing the loan, and may bear the costs of owning and disposing of such collateral. The Fund may invest in bank loans through assignments, whereby the Fund assumes the position of the lender to the borrower, or loan participations, whereby the Fund purchases all or a portion of the economic interest in a loan. If it invests in a loan participation, the Fund will generally have no direct

right to enforce compliance by the borrower with the terms of the loan agreement and may not benefit directly from the collateral securing the underlying debt obligation. In the event of the insolvency of the lender selling a loan participation, the Fund may be treated as a general creditor of the lender and may have limited rights to any collateral underlying the loan participation. As a consequence, the Fund may be exposed to the credit risk of both the borrower under the bank loan and the lender selling the participation. Bank loans may not be deemed to be “securities” for purposes of the federal securities laws, and bank loan investors may not have the protections of the anti-fraud provisions of the federal securities laws and must rely instead on contractual provisions in loan agreements and applicable common-law fraud protections. The Fund’s investments in bank loans of below investment grade companies also entail specific risks associated with investments in non-investment grade securities. Additionally, the bank loan market is currently facing unprecedented levels of illiquidity and volatility. There can be no assurance as to when or even if this current market illiquidity and volatility will abate or that future levels of supply and demand in bank loan trading will provide an adequate degree of liquidity, that the current period of illiquidity will not persist or worsen and that the market will not experience periods of significant illiquidity in the future.

“COVENANT-LITE” LOANS RISK. Although most of the Fund’s loan investments are expected to include both incurrence and maintenance-based covenants, there may be instances in which the Fund invests in covenant-lite loans, which means the obligation contains fewer maintenance covenants than other obligations, or no maintenance covenants, and may not include terms that allow the lender to monitor the performance of the borrower and declare a default if certain criteria are breached. An investment by the Fund in a covenant-lite loan may potentially hinder the Fund’s ability to reprice credit risk associated with the issuer and reduce the Fund’s ability to restructure a problematic loan and mitigate potential loss. As a result, the Fund’s exposure to losses may be increased, which could result in an adverse impact on the Fund’s revenues, net income and NAV.

DERIVATIVE INSTRUMENTS. The Fund may use options, swaps, futures contracts, forward agreements and other derivatives contracts. The Fund’s derivative investments have risks, including the imperfect correlation between the value of such instruments and the underlying asset, rate or index, which creates the possibility that the loss on such instruments may be greater than the gain in the value of the underlying asset, rate or index; the loss of principal; the possible default of the other party to the transaction; and illiquidity of the derivative investments. If a counterparty becomes bankrupt or otherwise fails to perform its obligations under a derivative contract due to financial difficulties, the Fund may experience significant delays in obtaining any recovery under the derivative contract in a bankruptcy or other reorganization proceeding or may not recover at all. In addition, in the event of the insolvency of a counterparty to a derivative transaction, the derivative contract would typically be terminated at its fair market value. If the Fund is owed this fair market value in the termination of the derivative contract and its claim is unsecured, the Fund will be treated as a general creditor of such counterparty and will not have any claim with respect to the underlying security. Certain of the derivative investments in which the Fund may invest may, in certain circumstances, give rise to a form of financial leverage, which may magnify the risk of owning such instruments. The ability to successfully use derivative investments depends on the ability of the Investment Manager and/or Sub-Advisers to predict pertinent market movements, which cannot be assured. In addition, amounts paid by the Fund as premiums and cash or other assets held in margin accounts with respect to the Fund’s derivative investments would not be available to the Fund for other investment purposes, which may result in lost opportunities for gain.

The derivative instruments and techniques that the Fund may principally use include:

- *Futures.* A futures contract is a standardized agreement to buy or sell a specific quantity of an underlying instrument at a specific price at a specific future time. The value of a futures contract tends to increase and decrease in tandem with the value of the underlying instrument. Depending on the terms of the particular contract, futures contracts are settled through either physical delivery of the underlying instrument on the settlement date or by payment of a cash settlement amount on the settlement date. A decision as to whether, when and how to use futures involves the exercise of skill and judgment and even a well-conceived futures transaction may be unsuccessful because of market behavior or unexpected events. In addition to the derivatives risks discussed above, the prices of futures can be highly volatile, using futures can lower total return, and the potential loss from futures can exceed the Fund’s initial investment in such contracts.

- *Options.* If the Fund buys an option, it buys a legal contract giving it the right to buy or sell a specific amount of the underlying instrument or futures contract on the underlying instrument at an agreed-upon price typically in exchange for a premium paid by the Fund. If the Fund sells an option, it sells to another person the right to buy from or sell to the Fund a specific amount of the underlying instrument or futures contract on the underlying instrument at an agreed-upon price typically in exchange for a premium received by the Fund. A decision as to whether, when and how to use options involves the exercise of skill and judgment and even a well-conceived option transaction may be unsuccessful because of market behavior or unexpected events. The prices of options can be highly volatile and the use of options can lower total returns.
- *Swaps.* A swap contract is an agreement between two parties pursuant to which the parties exchange payments at specified dates on the basis of a specified notional amount, with the payments calculated by reference to specified securities, indexes, reference rates, currencies or other instruments. Most swap agreements provide that when the period payment dates for both parties are the same, the payments are made on a net basis (i.e., the two payment streams are netted out, with only the net amount paid by one party to the other). The Fund's obligations or rights under a swap contract entered into on a net basis will generally be equal only to the net amount to be paid or received under the agreement, based on the relative values of the positions held by each counterparty. Swap agreements are particularly subject to counterparty credit, liquidity, valuation, correlation and leverage risk. Certain standardized swaps are now subject to mandatory central clearing requirements and others are now required to be exchange-traded. While central clearing and exchange-trading are intended to reduce counterparty and liquidity risk, they do not make swap transactions risk-free. Swaps could result in losses if interest rate or foreign currency exchange rates or credit quality changes are not correctly anticipated by the Fund or if the reference index, security or investments do not perform as expected. The Fund's use of swaps may include those based on the credit of an underlying security, commonly referred to as "credit default swaps." Where the Fund is the buyer of a credit default swap contract, it would be entitled to receive the par (or other agreed-upon) value of a referenced debt obligation from the counterparty to the contract only in the event of a default or similar event by a third party on the debt obligation. If no default occurs, the Fund would have paid to the counterparty a periodic stream of payments over the term of the contract and received no benefit from the contract. When the Fund is the seller of a credit default swap contract, it receives the stream of payments but is obligated to pay an amount equal to the par (or other agreed-upon) value of a referenced debt obligation upon the default or similar event of that obligation. The use of credit default swaps can result in losses if the Fund's assumptions regarding the creditworthiness of the underlying obligation prove to be incorrect. The Fund will "cover" its swap positions by segregating an amount of cash and/or liquid securities as required by the Investment Company Act and applicable SEC interpretations and guidance from time to time.

NON-U.S. INVESTMENTS. It is expected that the Fund will invest in securities of non-U.S. companies and countries. While the Fund invests primarily in equity securities of U.S. and Canadian issuers, the Fund may invest directly in other foreign markets, including emerging markets. The Fund may also invest in American Depositary Receipts ("ADRs"). ADRs are receipts that represent interests in foreign securities held on deposit by U.S. banks. Foreign obligations have risks not typically involved in domestic investments. Foreign investing can result in higher transaction and operating costs for the Fund. Foreign issuers are not subject to the same accounting and disclosure requirements to which U.S. issuers are subject and consequently, less information may be available to investors in companies located in such countries than is available to investors in companies located in the United States. The value of foreign investments may be affected by exchange control regulations; fluctuations in the rate of exchange between currencies and costs associated with currency conversions; the potential difficulty in repatriating funds; expropriation or nationalization of a company's assets; delays in settlement of transactions; changes in governmental economic or monetary policies in the United States or abroad; or other political and economic factors.

Securities of issuers in emerging and developing markets present risks not found in securities of issuers in more developed markets. Securities of issuers in emerging and developing markets may be more difficult to sell at acceptable prices and their prices may be more volatile than securities of issuers in more developed

markets. Settlements of securities trades in emerging and developing markets may be subject to greater delays than in other markets so that the Fund might not receive the proceeds of a sale of a security on a timely basis. Emerging markets generally have less developed trading markets and exchanges, and legal and accounting systems.

FOREIGN CURRENCY TRANSACTIONS. The Fund may engage in foreign currency transactions for a variety of purposes, including “locking in” the U.S. dollar price of a security between trade and settlement date, or hedging the U.S. dollar value of securities held in the Fund. The Fund may also engage in foreign currency transactions for non-hedging purposes to generate returns.

Foreign currency transactions may involve, for example, the purchase of foreign currencies for U.S. dollars or the maintenance of short positions in foreign currencies. Foreign currency transactions may involve the Fund agreeing to exchange an amount of a currency it does not currently own for another currency at a future date. The Fund would typically engage in such a transaction in anticipation of a decline in the value of the currency it sells relative to the currency that the Fund has contracted to receive in the exchange. The Investment Manager’s and/or Sub-Advisers’ success in these transactions will depend principally on their ability to predict accurately the future exchange rates between foreign currencies and the U.S. dollar.

The Fund may enter into forward contracts for hedging and non-hedging purposes in pursuing its investment objective. Forward contracts are transactions involving an obligation to purchase or sell a specific currency at a future date at a specified price. Forward contracts may be used for hedging purposes to protect against uncertainty in the level of future non-U.S. currency exchange rates, such as when the Investment Manager and/or Sub-Advisers anticipate purchasing or selling a non-U.S. security. This technique would allow the Investment Manager and/or Sub-Advisers to “lock in” the U.S. dollar price of the security. Forward contracts may also be used to attempt to protect the value of an existing holding of non-U.S. securities. Imperfect correlation may exist, however, between the non-U.S. securities holdings of the Fund, and the forward contracts entered into with respect to those holdings. In addition, forward contracts may be used for non-hedging purposes, such as when the Investment Manager or a Sub-Adviser anticipates that particular non-U.S. currencies will appreciate or depreciate in value, even though securities denominated in those currencies are not then held in the applicable investment portfolio. The Fund is not required to hedge all or any portion of their exposure to non-U.S. currency risks, and there can be no assurance that hedging techniques will be successful if used.

SMALL CAPITALIZATION ISSUERS. The Fund may invest in smaller capitalization companies, including micro-cap companies. Investments in smaller capitalization companies often involve significantly greater risks than the securities of larger, better-known companies because they may lack the management expertise, financial resources, product diversification and competitive strengths of larger companies. The prices of the securities of smaller companies may be subject to more abrupt or erratic market movements than larger, more established companies, as these securities typically are traded in lower volume and the issuers typically are more subject to changes in earnings and prospects. In addition, when selling large positions in small capitalization securities, the seller may have to sell holdings at discounts from quoted prices or may have to make a series of small sales over a period of time.

DISTRESSED SECURITIES. Certain of the companies in whose securities the Fund may invest may be in transition, out of favor, financially leveraged or troubled, or potentially troubled, and may be or have recently been involved in major strategic actions, restructurings, bankruptcy, reorganization or liquidation. These characteristics of these companies can cause their securities to be particularly risky, although they also may offer the potential for high returns. These companies’ securities may be considered speculative, and the ability of the companies to pay their debts on schedule could be affected by adverse interest rate movements, changes in the general economic factors affecting a particular industry or specific developments within the companies. Such investments can result in significant or even total losses. In addition, the markets for distressed investment assets are frequently illiquid.

In liquidation (both in and out of bankruptcy) and other forms of corporate reorganization, there exists the risk that the reorganization either will be unsuccessful (due to, for example, failure to obtain requisite approvals), will be delayed (for example, until various liabilities, actual or contingent, have been satisfied) or will result in a distribution of cash or a new security the value of which will be less than the purchase price to the Fund of the security in respect to which such distribution was made.

In certain transactions, the Fund may not be “hedged” against market fluctuations, or, in liquidation situations, may not accurately value the assets of the company being liquidated. This can result in losses, even if the proposed transaction is consummated.

PURCHASING INITIAL PUBLIC OFFERINGS. The Fund may purchase securities of companies in initial public offerings (“IPOs”) or shortly after those offerings are complete. Special risks associated with these securities may include a limited number of shares available for trading, lack of a trading history, lack of investor knowledge of the issuer, and limited operating history. These factors may contribute to substantial price volatility for the shares of these companies. The limited number of shares available for trading in some IPOs may make it more difficult for the Fund to buy or sell significant amounts of shares without an unfavorable effect on prevailing market prices. In addition, some companies in IPOs are involved in relatively new industries or lines of business, which may not be widely understood by investors. Some of these companies may be undercapitalized or regarded as developmental stage companies, without revenues or operating income, or near-term prospects of achieving revenues or operating income. Further, when the Fund’s asset base is small, a significant portion of the Fund’s performance could be attributable to investments in IPOs, because such investments would have a magnified impact on the Fund.

PAYMENT IN KIND FOR REPURCHASED SHARES. The Fund does not expect to distribute securities as payment for repurchased Shares except in unusual circumstances, such as in the unlikely event that making a cash payment would result in a material adverse effect on the Fund or on Shareholders not requesting that their Shares be repurchased. In the event that the Fund makes such a distribution of securities as payment for Shares, Shareholders will bear any risks of the distributed securities and may be required to pay a brokerage commission or other costs to dispose of such securities.

SECURITIES BELIEVED TO BE UNDERVALUED OR INCORRECTLY VALUED. Securities that the Investment Manager and/or Sub-Advisers believe are fundamentally undervalued or incorrectly valued may not ultimately be valued in the capital markets at prices and/or within the time frame the Investment Manager and/or Sub-Advisers anticipate. As a result, the Fund may lose all or substantially all of its investment in such a security.

INTEREST RATE RISK. The Fund is subject to the risks of changes in interest rates. A decline in interest rates could reduce the amount of current income the Fund is able to achieve from interest on fixed-income securities, investments in bank loans and participations, convertible debt and the proceeds of short sales. An increase in interest rates could reduce the value of any fixed income securities, convertible securities and REITs owned by the Fund. To the extent that the cash flow from a fixed income security is known in advance, the present value (*i.e.*, discounted value) of that cash flow decreases as interest rates increase; to the extent that the cash flow is contingent, the dollar value of the payment may be linked to then prevailing interest rates. Moreover, the value of many fixed income securities depends on the shape of the yield curve, not just on a single interest rate. Thus, for example, a callable cash flow, the coupons of which depend on a short rate such as three-month LIBOR, may shorten (*i.e.*, be called away) if the long rate decreases. In this way, such securities are exposed to the difference between long rates and short rates. The Fund may also invest in floating rate securities. The value of these investments is closely tied to the absolute levels of such rates, or the market’s perception of anticipated changes in those rates. This introduces additional risk factors related to the movements in specific interest rates that may be difficult or impossible to hedge, and that also interact in a complex fashion with prepayment risks.

EXTENSION RISK. Rising interest rates tend to extend the duration of securities, making them more sensitive to changes in interest rates. The value of longer-term securities generally changes more in response to changes in interest rates than shorter-term securities. As a result, in a period of rising interest rates, securities may exhibit additional volatility and may lose value.

PREPAYMENT RISK. When interest rates decline, fixed income securities and bank loans and participations with stated interest rates may have their principal paid earlier than expected. This may result in the Fund having to reinvest that money at lower prevailing interest rates, which can reduce the returns of the Fund.

RATING AGENCIES RISK. Rating agencies may fail to make timely changes in credit ratings and an issuer’s current financial condition may be better or worse than a rating indicates. In addition, rating agencies are subject to an inherent conflict of interest because they are often compensated by the same issuers whose securities they grade.

GENERAL CREDIT RISKS. The value of any underlying collateral, the creditworthiness of the borrower and the priority of the lien are each of great importance. Neither the Investment Manager nor the Sub-Advisers can guarantee the adequacy of the protection of the Fund's interests, including the validity or enforceability of the loan and the maintenance of the anticipated priority and perfection of the applicable security interests. Furthermore, neither the Investment Manager nor the Sub-Advisers can assure that claims may not be asserted that might interfere with enforcement of the rights of the holder(s) of the relevant debt. In the event of a foreclosure, the liquidation proceeds upon sale of such asset may not satisfy the entire outstanding balance of principal and interest on the loan, resulting in a loss to the Fund. Any costs or delays involved in the effectuation of a foreclosure of the loan or a liquidation of the underlying property will further reduce the proceeds and thus increase the loss. The strategies utilized by the Investment Manager and Sub-Advisers may require accurate and detailed credit analysis of issuers, and there can be no assurance that such analysis will be accurate or complete. Because the Fund may invest significantly in bank loans and participations, which may include covenant-lite loans, this risk will be substantial for the Fund. Credit risk is also greater to the extent that the Fund uses leverage or derivatives in connection with the management of the Fund.

CREDIT DEFAULT SWAPS. The Fund may enter into credit default swaps. Under these instruments, the Fund will usually have a contractual relationship only with the counterparty of such credit default swaps and not the issuer of the obligation (the "Reference Obligation") subject to the credit default swap (the "Reference Obligor"). The Fund will have no direct rights or recourse against the Reference Obligor with respect to the terms of the Reference Obligation nor any rights of set-off against the Reference Obligor, nor any voting rights with respect to the Reference Obligation. The Fund will not directly benefit from the collateral supporting the Reference Obligation and will not have the benefit of the remedies that would normally be available to a holder of such Reference Obligation. In addition, in the event of the insolvency of the credit default swap counterparty, the Fund will be treated as a general creditor of such counterparty and will not have any claim with respect to the Reference Obligation. Consequently, the Fund will be subject to the credit risk of the counterparty and in the event the Fund will be selling credit default swaps, the Fund will also be subject to the credit risk of the Reference Obligor. As a result, concentrations of credit default swaps in any one counterparty expose the Fund to risk with respect to defaults by such counterparty.

COLLATERALIZED LOAN OBLIGATIONS ("CLOS") AND COLLATERALIZED DEBT OBLIGATIONS ("CDOS"). CLOs and CDOs are typically privately offered and sold, and thus, are not registered under the securities laws, which means less information about the security may be available as compared to publicly offered securities and only certain institutions may buy and sell them. As a result, investments in CDOs may be characterized by the Fund as illiquid securities. An active dealer market may exist for CDOs that can be resold in Rule 144A transactions, but there can be no assurance that such a market will exist or will be active enough for the Fund to sell such securities. In addition to the typical risks associated with fixed-income securities and asset-backed securities, CDOs carry other risks including, but not limited to: (i) the possibility that distributions from collateral securities will not be adequate to make interest or other payments; (ii) the risk that the collateral may default, decline in value or quality, or be downgraded by a rating agency; (iii) the Fund may invest in tranches of CDOs that are subordinate to other tranches, diminishing the likelihood of payment; (iv) the structure and complexity of the transaction and the legal documents could lead to disputes among investors regarding the characterization of proceeds; (v) risk of forced "fire sale" liquidation due to technical defaults such as coverage test failures; and (vi) the CDO's manager may perform poorly.

STRUCTURED PRODUCTS. The CLOs and other CDOs in which the Fund may invest are structured products. Holders of structured products bear risks of the underlying assets and are subject to counterparty risk.

The Fund may have the right to receive payments only from the structured product, and generally does not have direct rights against the issuer or the entity that sold the assets to be securitized. While certain structured products enable the investor to acquire interests in a pool of securities without the brokerage and other expenses associated with directly holding the same securities, investors in structured products generally pay their share of the structured product's administrative and other expenses. Although it is difficult to predict whether the prices of assets underlying structured products will rise or fall, these prices

(and, therefore, the prices of structured products) will be influenced by the same types of political and economic events that affect issuers of securities and capital markets generally. If the issuer of a structured product uses shorter-term financing to purchase longer-term securities, the issuer may be forced to sell its securities at below-market prices if it experiences difficulty in obtaining short-term financing, which may adversely affect the value of the structured products owned by the Fund.

Certain structured products may be thinly traded or have a limited trading market. Structured products are typically privately offered and sold. As a result, investments in structured products may be characterized by the Fund as illiquid securities. In addition to the general risks associated with fixed-income securities discussed herein, structured products carry additional risks, including, but not limited to: (i) the possibility that distributions from collateral securities will not be adequate to make interest or other payments; (ii) the quality of the collateral may decline in value or default; (iii) the possibility that the investments in structured products are subordinate to other classes or tranches thereof; and (iv) the complex structure of the security may not be fully understood at the time of investment and may produce disputes with the issuer or unexpected investment results.

MORTGAGE-BACKED AND ASSET-BACKED SECURITIES RISKS. The price paid by the Fund for asset-backed securities, including CLOs, the yield the Fund expects to receive from such securities and the average life of such securities are based on a number of factors, including the anticipated rate of prepayment of the underlying assets. The value of these securities may be significantly affected by changes in interest rates, the market's perception of issuers, and the creditworthiness of the parties involved. The ability of the Fund to successfully utilize these instruments may depend on the ability of the Fund's Investment Manager or Sub-Advisers to forecast interest rates and other economic factors correctly. These securities may have a structure that makes their reaction to interest rate changes and other factors difficult to predict, making their value highly volatile.

In addition to the risks associated with other asset-backed securities as described above, mortgage-backed securities are subject to the general risks associated with investing in real estate securities; that is, they may lose value if the value of the underlying real estate to which a pool of mortgages relates declines. Mortgage-backed securities may be issued by governments or their agencies and instrumentalities, such as, in the United States, Ginnie Mae, Fannie Mae and Freddie Mac. They may also be issued by private issuers but represent an interest in or are collateralized by pass-through securities issued or guaranteed by a government or one of its agencies or instrumentalities. In addition, mortgage-backed securities may be issued by private issuers and be collateralized by securities without a government guarantee. Such securities usually have some form of private credit enhancement.

Pools created by private issuers generally offer a higher rate of interest than government and government-related pools because there are no direct or indirect government or agency guarantees of payments. Notwithstanding that such pools may be supported by various forms of private insurance or guarantees, there can be no assurance that the private insurers or guarantors will be able to meet their obligations under the insurance policies or guarantee arrangements. The Fund may invest in private mortgage pass-through securities without such insurance or guarantees. Any mortgage-backed securities that are issued by private issuers are likely to have some exposure to subprime loans as well as to the mortgage and credit markets generally. In addition, such securities are not subject to the underwriting requirements for the underlying mortgages that would generally apply to securities that have a government or government-sponsored entity guarantee, thereby increasing their credit risk. The risk of non-payment is greater for mortgage-related securities that are backed by mortgage pools that contain subprime loans, but a level of risk exists for all loans. Market factors adversely affecting mortgage loan repayments may include a general economic downturn, high unemployment, a general slowdown in the real estate market, a drop in the market prices of real estate, or an increase in interest rates resulting in higher mortgage payments by holders of adjustable rate mortgages.

ADDITIONAL RISKS OF ASSET-BACKED SECURITIES, CDOS AND CLOS. Asset-backed securities and CDOs are created by the grouping of certain governmental, government related and private loans, receivables and other non-mortgage lender assets/collateral into pools. A sponsoring organization establishes a special purpose vehicle to hold the assets/collateral and issue securities. Interests in these pools are sold as individual securities. Payments of principal and interest are passed through to investors and are

typically supported by some form of credit enhancement, such as a letter of credit, surety bond, limited guaranty or senior/subordination. Payments from the asset pools may be divided into several different tranches of debt securities, offering investors various maturity and credit risk characteristics. Some tranches entitled to receive regular installments of principal and interest, other tranches entitled to receive regular installments of interest, with principal payable at maturity or upon specified call dates, and other tranches only entitled to receive payments of principal and accrued interest at maturity or upon specified call dates. Different tranches of securities will bear different interest rates, which may be fixed or floating.

Investors in asset-backed securities and CDOs bear the credit risk of the assets/collateral. Tranches are categorized as senior, mezzanine, and subordinated/equity, according to their degree of credit risk. If there are defaults or the CDO's collateral otherwise underperforms, scheduled payments to senior tranches take precedence over those of mezzanine tranches, and scheduled payments to mezzanine tranches take precedence over those to subordinated/equity tranches. Senior and mezzanine tranches are typically rated, with the former receiving S&P Global Ratings ("S&P") ratings of A to AAA and the latter receiving ratings of B to BBB. The ratings reflect both the credit quality of underlying collateral as well as how much protection a given tranche is afforded by tranches that are subordinate to it.

Because the loans held in the pool often may be prepaid without penalty or premium, asset-backed securities and CDOs can be subject to higher prepayment risks than most other types of debt instruments.

Prepayments may result in a capital loss to the Fund to the extent that the prepaid securities purchased at a market discount from their stated principal amount will accelerate the recognition of interest income by the Fund, which would be taxed as ordinary income when distributed to the shareholders.

The credit characteristics of asset-backed securities and CDOs also differ in a number of respects from those of traditional debt securities. The credit quality of most asset-backed securities and CDOs depends primarily upon the credit quality of the assets/collateral underlying such securities, how well the entity issuing the securities is insulated from the credit risk of the originator or any other affiliated entities, and the amount and quality of any credit enhancement to such securities.

SHORT POSITIONS. Short positions may comprise a significant portion of the Fund's overall portfolio. In short selling, the Fund will sell securities it does not own by borrowing such securities from a third party, such as a broker-dealer. The Fund is required to pay to the lender amounts equal to any dividend which accrues during the period of the loan. To borrow a security, the Fund also may be required to pay a premium, which would increase the cost of the security sold. Short positions may be held for both profit opportunities and for hedging purposes. The Investment Manager and/or the Sub-Advisers may from time to time engage in short sales for the Fund in an approach known as "pairs trading," where the Fund combines a long position in a particular security with a short position in a similar security in the same or related industry or sector. Pairs trading may be undertaken for speculative and/or hedging purposes and may be weighted toward either the long or short side of the position. The Investment Manager and/or the Sub-Advisers may from time to time also make short sales "against the box", where the Fund retains a long position in the same security. Short sales that are not "against the box" involve a form of investment leverage, and the amount of the Fund's loss on a short sale is potentially unlimited. At any particular time, the Fund's portfolio overall may be "net long" (i.e., the value of long positions, at cost, will be greater than the net exposure on short positions) or "net short" (net exposure on short positions will be greater than the value of long positions).

REPURCHASE AND REVERSE REPURCHASE AGREEMENTS. The Fund may enter into repurchase and reverse repurchase agreements. When the Fund enters into a repurchase agreement, it "sells" securities to a broker-dealer or financial institution, and agrees to repurchase such securities on a mutually agreed date for the price paid by the broker-dealer or financial institution, plus interest at a negotiated rate. In a reverse repurchase transaction, the Fund "buys" securities issued from a broker-dealer or financial institution, subject to the obligation of the broker-dealer or financial institution to repurchase such securities at the price paid by the Fund, plus interest at a negotiated rate. The use of repurchase and reverse repurchase agreements by the Fund involves certain risks. For example, if the seller of securities to the Fund under a reverse repurchase agreement defaults on its obligation to repurchase the underlying securities, as a result of its bankruptcy or otherwise, the Fund will seek to dispose of such securities, which action could involve costs or delays. If the seller becomes insolvent and subject to liquidation or

reorganization under applicable bankruptcy or other laws, the Fund's ability to dispose of the underlying securities may be restricted. It is possible, in a bankruptcy or liquidation scenario, that the Fund may not be able to substantiate its interest in the underlying securities. Finally, if a seller defaults on its obligation to repurchase securities under a reverse repurchase agreement, the Fund may suffer a loss to the extent that it is forced to liquidate its position in the market, and proceeds from the sale of the underlying securities are less than the repurchase price agreed to by the defaulting seller. Similar elements of risk arise in the event of the bankruptcy or insolvency of the buyer.

SECURED AND FIRST-LIEN LOAN RISK. The Fund may invest in secured bank loans and participations, which include first-lien instruments. Secured debt in many instances is fully collateralized by assets of the borrower. Thus, it is generally repaid before unsecured bank loans, corporate bonds, subordinated debt, trader creditors, and preferred or common stockholders. However, there is a risk that the collateral securing the Fund's loans may decrease in value over time, may be difficult to sell in a timely manner, may be difficult to appraise, and may fluctuate in value based upon market conditions. Additionally, substantial increases in interest rates may cause an increase in loan defaults as borrowers may lack resources to meet higher debt service requirements. In some circumstances, the Fund's security interest could be subordinated to claims of other creditors. In addition, any deterioration in a borrower's financial condition and prospects may result in the deterioration in the value of the related collateral. Consequently, the fact that debt is secured does not guarantee that the Fund will receive principal and interest payments according to the investment terms or at all, or that the Fund will be able to collect on the investment should the Fund be forced to enforce its remedies.

SUBORDINATED AND SECOND-LIEN LOANS. The Fund may invest in secured subordinated loans, including second-lien loans. Second-lien loans are generally second in line in terms of repayment priority. A second-lien loan may have a claim on the same collateral pool as the first-lien or it may be secured by a separate set of assets. Second-lien loans generally give investors priority over general unsecured creditors in the event of an asset sale. The priority of the collateral claims of third- or lower lien loans ranks below holders of second lien loans and so on. Such junior loans are subject to the same general risks inherent to any loan investment, including credit risk, market, liquidity, and interest rate risk. Due to their lower place in the borrower's capital structure and possible unsecured or partially secured status, such loans involve a higher degree of overall risk than senior loans of the same borrower.

UNITRANCHE LOANS RISK. The Fund may invest in unitranche loans, which are loans that combine both senior and subordinated debt, generally in a first-lien position. Because unitranche loans combine characteristics of senior and subordinated debt, they have risks similar to the risks associated with secured debt and subordinated debt according to the combination of loan characteristics of the unitranche loan. Unitranche loans generally allow the borrower to make a large lump sum payment of principal at the end of the loan term and there is a heightened risk of loss if the borrower is unable to pay the lump sum or refinance the amount owed at maturity.

DEFAULT RISK. The ability of the Fund to generate income through its loan investments is dependent upon payments being made by the borrowers underlying such loan investments. If a borrower is unable to make its payments on a loan, the Fund may be greatly limited in its ability to recover any outstanding principal and interest under such loan.

A portion of the loans in which the Fund may invest may not be guaranteed or insured by a third party and may not be backed by any governmental authority. The Fund may need to rely on the collection efforts of third parties, which also may be limited in their ability to collect on defaulted loans. The Fund may not have direct recourse against borrowers, may not be able to contact a borrower about a loan, and may not be able to pursue borrowers to collect payment under loans. To the extent a loan is secured, there can be no assurance as to the amount of any funds that may be realized from recovering and liquidating any collateral or the timing of such recovery and liquidation and hence there is no assurance that sufficient funds (or, possibly, any funds) will be available to offset any payment defaults that occur under the loans. Loans are credit obligations of the borrowers and the terms of certain loans may not restrict the borrowers from incurring additional debt. If a borrower incurs additional debt after obtaining a loan through a platform, the additional debt may adversely affect the borrower's creditworthiness generally, and could result in the financial distress, insolvency or bankruptcy of the borrower. This circumstance would

ultimately impair the ability of that borrower to make payments on its loans and the Fund's ability to receive the principal and interest payments that it expects to receive on such loan. To the extent borrowers incur other indebtedness that is secured, the ability of the secured creditors to exercise remedies against the assets of that borrower may impair the borrower's ability to repay its loans or it may impair a third party's ability to collect, on behalf of the Fund, on the loan upon default. To the extent that a loan is unsecured, borrowers may choose to repay obligations under other indebtedness (such as loans obtained from traditional lending sources) before repaying a loan facilitated through a direct lending platform because the borrowers have no collateral at risk. The Fund will generally not be made aware of any additional debt incurred by a borrower or whether such debt is secured.

If a borrower files for bankruptcy, any pending collection actions will automatically be put on hold and further collection action will not be permitted absent court approval. It is possible that a borrower's liability on its loan will be discharged in bankruptcy. In most cases involving the bankruptcy of a borrower with an unsecured loan, unsecured creditors will receive only a fraction of any amount outstanding on the loan, if anything.

RIGHTS AND WARRANTS. The Fund may invest in rights and warrants. Rights (sometimes referred to as "subscription rights") and warrants may be purchased separately or may be received as part of a distribution in respect of, or may be attached to, other securities that the Fund has purchased. Rights and warrants are securities that give the holder the right, but not the obligation, to purchase equity securities of the company issuing the rights or warrants, or a related company, at a fixed price either on a date certain or during a set period. Typically, rights have a relatively short term (e.g., two to four weeks), whereas warrants can have much longer terms. At the time of issue, the cost of a right or warrant is substantially less than the cost of the underlying security itself.

Particularly in the case of warrants, price movements in the underlying security are generally magnified in the price movements of the warrant. This effect would enable the Fund to gain exposure to the underlying security with a relatively low capital investment but increases the Fund's risk in the event of a decline in the value of the underlying security and can result in a complete loss of the amount invested in the warrant. In addition, the price of a warrant tends to be more volatile than, and may not correlate exactly to, the price of the underlying security. If the market price of the underlying security is below the exercise price of the warrant on its expiration date, the warrant will generally expire without value. The equity security underlying a warrant is authorized at the time the warrant is issued or is issued together with the warrant, which may result in losses to the Fund. Investing in warrants can provide a greater potential for profit or loss than an equivalent investment in the underlying security, and, thus, can be a speculative investment. The value of a warrant may decline because of a decline in the value of the underlying security, the passage of time, changes in interest rates or in the dividend or other policies of the company whose equity underlies the warrant or a change in the perception as to the future price of the underlying security, or any combination thereof. Warrants and rights do not carry with them the right to dividends or voting rights with respect to the securities that they entitle the holder to purchase, and they do not represent any rights in the assets of the issuer.

CONVERTIBLE SECURITIES RISK. Convertible securities have characteristics of both equity and fixed-income securities. The value of a convertible security tends to move with the market value of the underlying stock, but may also be affected by interest rates, credit quality of the issuer and any call provisions. In particular, when interest rates rise, fixed-income securities will decline in value. Convertible securities frequently have speculative characteristics and may be acquired without regard to minimum quality ratings. Lower quality convertible securities, also known as "junk bonds," involve greater risk of default or price changes due to the issuer's creditworthiness. The market prices of these securities may fluctuate more than those of higher quality securities and may decline significantly in periods of general economic difficulty, which may follow periods of rising interest rates. Securities in the lowest quality category may present the risk of default, or may be in default.

U.S. GOVERNMENT SECURITIES. Some obligations issued or guaranteed by U.S. government agencies, instrumentalities or U.S. government sponsored enterprises ("GSEs"), including, for example, pass-through certificates issued by Ginnie Mae, are supported by the full faith and credit of the U.S. Treasury. Other obligations issued by or guaranteed by federal agencies or GSEs, such as securities

issued by Fannie Mae or Freddie Mac, are supported by the discretionary authority of the U.S. government to purchase certain obligations of the federal agency or GSE, while other obligations issued by or guaranteed by federal agencies or GSEs, such as those of the Federal Home Loan Banks, are supported by the right of the issuer to borrow from the U.S. Treasury. The maximum potential liability of the issuers of some U.S. Government securities held by the Fund may greatly exceed their current resources, including their legal right to support from the U.S. Treasury. It is possible that these issuers will not have the funds to meet their payment obligations in the future.

COMPLEXITY OF QUANTITATIVE TRADING STRATEGIES; RELIANCE ON TECHNOLOGY. Many of the investments that the Investment Manager and/or Sub-Advisers are expected to trade on behalf of the Fund, and many of the trading strategies that the Investment Manager and/or Sub-Advisers are expected to execute on behalf of the Fund, are highly complex. In certain cases, the successful application of a particular trading strategy may require relatively sophisticated mathematical calculations and relatively complex computer programs.

SPECIAL PURPOSE ACQUISITION COMPANIES RISKS. The Fund may invest in special purpose acquisition companies (“SPACs”). SPACs are collective investment structures that pool funds in order to seek potential acquisition opportunities. Unless and until an acquisition is completed, a SPAC generally invests its assets (less an amount to cover expenses) in U.S. Government securities, money market fund securities and cash. SPACs and similar entities may be blank check companies with no operating history or ongoing business other than to seek a potential acquisition. Accordingly, the value of their securities is particularly dependent on the ability of the entity’s management to identify and complete a profitable acquisition. Certain SPACs may seek acquisitions only in limited industries or regions, which may increase the volatility of their prices. If an acquisition that meets the requirements for the SPAC is not completed within a predetermined period of time, the invested funds are returned to the entity’s shareholders. Investments in SPACs may be illiquid and/or be subject to restrictions on resale. To the extent the SPAC is invested in cash or similar securities, this may impact a Fund’s ability to meet its investment objective.

* * *

LIMITS OF RISK DISCLOSURES. The above discussions of the various risks that are associated with the Fund and its Shares and the related discussion of risks in the SAI include the material risks involved with an investment in the Fund of which the Fund is currently aware. Prospective investors should read this entire Prospectus and consult with their own advisers before deciding whether to invest in the Fund. In addition, as the Fund’s investment program changes or develops over time, an investment in the Fund may be subject to risk factors not currently contemplated or described in this Prospectus.

In view of the risks noted above, the Fund should be considered a speculative investment and prospective investors should invest in the Fund only if they can sustain a complete loss of their investment.

No guarantee or representation is made that the investment program of the Fund will be successful or that the Fund will achieve its investment objective.

FUND PERFORMANCE

The tables below illustrate the performance of the Fund. Past performance is no indication of future returns. The Fund commenced operations on June 12, 2017. The performance history is net of all fees and reflects the impact of the Expense Limitation and Reimbursement Agreement. If the Expense Limitation and Reimbursement Agreement were not in place, the Fund's performance would be reduced.

MANAGEMENT OF THE FUND

THE BOARD OF TRUSTEES. The Board has overall responsibility for the management and supervision of the business operations of the Fund on behalf of the Shareholders. A majority of the Board is and will be persons who are not "interested persons," as defined in Section 2(a)(19) of the Investment Company Act (the "Independent Trustees"). To the extent permitted by the Investment Company Act and other applicable law, the Board may delegate any of its rights, powers and authority to, among others, the officers of the applicable fund, any committee of such board, or service providers. See "**BOARD OF TRUSTEES AND OFFICERS**" in the Fund's SAI for the identities of the Trustees and executive officers of the Fund, brief biographical information regarding each of them, and other information regarding the election and membership of the Board.

THE INVESTMENT MANAGER AND SUB-ADVISERS. Vivaldi Asset Management, LLC serves as the investment adviser (the "Investment Manager") of the Fund and will be responsible for determining and implementing the Fund's overall investment strategy, including selecting each Sub-Adviser and determining the amount of the Fund's assets to allocate to each Sub-Adviser. The Investment Manager is an investment adviser registered with the SEC under the Investment Advisers Act of 1940, as amended. As of May 31, 2018, the Investment Manager and its affiliates had assets under management of approximately \$2.4 billion.

Each Sub-Adviser selected by the Investment Manager, subject to Shareholder approval, will be primarily responsible for its investment strategy and the day-to-day management of the Fund's assets allocated to it by the Investment Manager. Founded in 2000, RiverNorth Capital Management, LLC ("RiverNorth") is located at 325 N. LaSalle Street, Suite 645, Chicago, Illinois 60654. RiverNorth is registered with the SEC as an investment adviser and manages, as of May 31, 2018, approximately \$3.47 billion for individuals and institutions, including limited partnerships, mutual funds and employee benefit plans. Founded in 2009, Angel Oak Capital Advisors, LLC ("Angel Oak") is located at 3060 Peachtree Road NW, Suite 500, Atlanta, Georgia 30305. Angel Oak is registered with the SEC as an investment adviser and manages, as of May 31, 2018, approximately \$8.9 billion for pooled investment vehicles, investment companies, high net worth individuals and institutions.

The Investment Manager, the Sub-Advisers and their affiliates may serve as investment managers to other funds that have investment programs which are similar to the investment program of the Fund, and the Investment Manager and/or a Sub-Adviser or one of their affiliates may in the future serve as the investment manager or otherwise manage or direct the investment activities of other registered and/or private investment companies with investment programs similar to the investment program of the Fund. See "**CONFLICTS OF INTEREST.**"

PORTFOLIO MANAGERS. The personnel of the Investment Manager and Sub-Advisers who currently have primary responsibility for management of the Fund (the “Portfolio Managers”) are as follows:

MICHAEL PECK — Portfolio Manager — Mr. Peck, CFA, joined Vivaldi in February 2012 and is currently President and Co-Chief Investment Officer. Prior to Vivaldi, Mr. Peck was a Portfolio Manager at Coe Capital, LLC, a Chicago-based registered investment adviser, from March 2010 to December 2011. From June 2007 through March 2009, Mr. Peck was a paid consultant at various real estate and investment companies. From 2006 to 2008, Mr. Peck was a Senior Financial Analyst/Risk Manager at The Bond Companies. Mr. Peck graduated from Lehigh University with a Bachelor of Science in Accounting. Mr. Peck also holds a Master of Arts in Finance and a Masters in Business Administration (Real Estate Analysis and Financial Analysis) from DePaul University and is a Chartered Financial Analyst (“CFA”).

SCOTT HERGOT — Portfolio Manager — Mr. Hergot joined Vivaldi in January 2013 and currently serves as both the Director of Research and Co-Chief Investment Officer. From 2010 to 2012, Mr. Hergott held both risk management and business development roles at Citadel — specifically the Pioneer Path platform of portfolio managers. Prior to Citadel, from 2003 to 2010, Mr. Hergott was a Portfolio Manager at Iron Partners, LLC, a fund of hedge funds, where he was responsible for sourcing managers and performing investment due-diligence. Mr. Hergott has a Bachelor of Arts degree in Business from Northeastern Illinois University.

BRIAN MURPHY — Portfolio Manager — Mr. Murphy joined Vivaldi in March 2014 as a Senior Research Analyst and currently serves as portfolio manager to the Fund. Mr. Murphy was previously a Director at Voyager Management, LLC (“Voyager Management”), a fund of hedge fund firm, from 2010 to 2014. Prior to Voyager Management, from 2009 to 2010, Mr. Murphy was Derivatives Product Specialist at Analytic Investors, specializing in quantitative derivative hedge fund strategies. Mr. Murphy was also an Analyst at Iron Partners, LLC, a fund of hedge fund firm, from 2007 to 2009, where he was primarily responsible for covering hedged equity, equity trading, derivative and structured product services. Mr. Murphy graduated from Miami University with a Bachelor of Science in Finance.

KYLE MOWERY — Portfolio Manager — Mr. Mowery joined Vivaldi in February 2015 and currently serves as portfolio manager to the Fund. Mr. Mowery is also Managing Partner of GrizzlyRock Capital, LLC (“GrizzlyRock”). Mr. Mowery graduated from the University of Chicago Booth School of Business with a Master of Business Administration degree and from the University of California, Los Angeles with a Bachelor of Arts in Economics. Prior to founding GrizzlyRock in 2012, Mr. Mowery served in Leveraged Finance at BMO. Before joining BMO in 2010, Mr. Mowery was an Analyst at McDonnell Investment Management, LLC. Before joining McDonnell Investment Management in 2007, Mr. Mowery was an Analyst at Pacific Alternative Asset Management Company.

JEFF O’BRIEN — Portfolio Manager — Mr. O’Brien joined Vivaldi in 2014 and currently serves as portfolio manager to the Fund in addition to two hedge funds and several separately managed accounts. Prior to joining Vivaldi, Mr. O’Brien was the Founder and Managing Member of Glenfinnen Capital, LLC (“Glenfinnen”) which served as the investment advisor for two merger arbitrage hedge funds. Prior to founding Glenfinnen in April 2000, Mr. O’Brien served as a portfolio manager and research analyst on the risk arbitrage desk at First Capital Alliance for five years and before that as a credit analyst at NationsBank. Mr. O’Brien earned a B.S. in Finance from Indiana University.

DANIEL LAN CZ — Portfolio Manager — Mr. Lancz has been a Portfolio Manager with Vivaldi since December 2014. Prior to joining Vivaldi, Mr. Lancz served as Director of Research for Glenfinnen and oversees the investment research for two merger arbitrage hedge funds. Prior to joining Glenfinnen in 2003, Mr. Lancz was the Director of Research of a merger arbitrage hedge fund, Augusta Capital Management. Mr. Lancz earned a B.S. from Miami University, located in Oxford, Ohio.

PATRICK W. GALLEY — Portfolio Manager — Mr. Galley joined RiverNorth in 2004 and serves as Chief Investment Officer and Portfolio Manager. Mr. Galley heads the firm’s research and investment teams and oversees all portfolio management activities at RiverNorth. Mr. Galley also serves as the President and Chairman of RiverNorth’s proprietary funds. Prior to joining RiverNorth, Mr. Galley was Vice President at Bank of America in the Global Investment Bank’s Portfolio Management group. At Bank

of America, he specialized in analyzing and structuring corporate transactions for investment management firms in addition to closed-end and open-end funds, hedge funds, funds of funds, structured investment vehicles and insurance/reinsurance companies. Mr. Galley graduated with honors from Rochester Institute of Technology with a B.S. in Finance. He has received the Chartered Financial Analyst (CFA) designation and is a member of both the CFA Institute and the CFA Society of Chicago.

STEPHEN O'NEILL — Portfolio Manager — Mr. O'Neill joined RiverNorth in 2007 and serves as Portfolio Manager. He co-manages the firm's closed-end fund trading strategies. Mr. O'Neill is also a member of the asset allocation team and helps to oversee the firm's research analysts. Prior to joining RiverNorth, Mr. O'Neill was Assistant Vice President at Bank of America in the Global Investment Bank's Portfolio Management group. At Bank of America he specialized in the corporate real estate, asset management and structured finance industries. Mr. O'Neill graduated Magna Cum Laude from Miami University of Ohio with a B.S. in Finance and a minor in Economics. He has received the Chartered Financial Analyst (CFA) designation and is a member of both the CFA Institute and the CFA Society of Chicago.

SAM DUNLAP — Portfolio Manager — Mr. Dunlap joined Angel Oak Capital Advisors in 2009 and is a Managing Director and Senior Portfolio Manager at the firm. Mr. Dunlap serves as a Portfolio Manager of the Angel Oak Multi-Strategy Income Fund and the Angel Oak Flexible Income Fund, and is also responsible for managing the separately managed accounts for Angel Oak clients, primarily depository institutions. He also focuses on building and managing strategies within the RMBS market as well as managing the interest rate risk exposure across the Angel Oak funds and managed accounts.

Mr. Dunlap began his capital markets career in 2002 and has investment experience across multiple sectors of the fixed income markets. Prior to joining Angel Oak in 2009, Mr. Dunlap spent six years marketing and structuring interest rate derivatives with SunTrust Robinson Humphrey where he focused on both interest rate hedging products and interest rate linked structured notes. Mr. Dunlap's previous experience included two years at Wachovia in Charlotte, NC supporting the agency mortgage pass-through trading desk. Mr. Dunlap received a B.A. in Economics from the University of Georgia.

BERKIN KOLOGLU — Portfolio Manager — Mr. Kologlu joined Angel Oak Capital Advisors in 2013 and is a Managing Director and Senior Portfolio Manager at the firm. Mr. Kologlu serves as a Portfolio Manager of the Angel Oak Multi-Strategy Income Fund and the Angel Oak High Yield Opportunities Fund. Mr. Kologlu has 14 years' experience in fixed income products and focuses on building and managing strategies within the collateralized loan obligation ("CLO") market.

Mr. Kologlu spent the previous six years as an Executive Director at UBS, covering structured products and client solutions. Prior to UBS, Mr. Kologlu worked at Bank of America, where he focused on the structuring and marketing of CLOs and synthetic collateralized debt obligations ("CDOs") backed by corporate credit. Before Bank of America, Mr. Kologlu worked in Turkey as a commercial banker, where he was responsible for lending to large cap corporations. Mr. Kologlu received his M.B.A. from Duke University's Fuqua School of Business and his B.S. in Civil Engineering from Bogazici University in Istanbul, Turkey.

SREENIWAS (Sreeni) V. PRABHU — Portfolio Manager — Mr. Prabhu is Chief Investment Officer of Angel Oak Capital Advisors and a Portfolio Manager of the Fund. Prior to co-founding Angel Oak in 2009, Mr. Prabhu was the Chief Investment Officer of the \$25 billion investment portfolio at Washington Mutual Bank for three years and was also part of the macro asset strategy team at the bank. Prior to joining Washington Mutual Bank, Mr. Prabhu worked for six years at SunTrust Bank in Atlanta, where he was responsible for investment strategies and served as head portfolio manager for the \$3 billion commercial mortgage backed securities portfolio. He began his career at SunTrust in 1998 as a bank analyst focused on asset/liability management and liquidity strategies. Mr. Prabhu holds a B.B.A. in Economics from Georgia College and State University and an M.B.A. in Finance from Georgia State University.

THE INVESTMENT MANAGEMENT AGREEMENT. The Amended and Restated Investment Management Agreement (the "Investment Management Agreement") between the Investment Manager and the Fund became effective as of March 9, 2019 and will continue in effect for an initial two-year term. Thereafter, the Investment Management Agreement will continue in effect from year to year provided such

continuance is specifically approved at least annually by (i) the vote of a majority of the outstanding voting securities of the Fund, or a majority of the Board, and (ii) the vote of a majority of the Independent Trustees of the Fund, cast in person at a meeting called for the purpose of voting on such approval. See “*VOTING*.” The Investment Management Agreement will terminate automatically if assigned (as defined in the Investment Company Act) and is terminable at any time without penalty upon sixty (60) days’ written notice to the Fund by either the Board or the Investment Manager. A discussion regarding the basis for the Board’s approval of the Investment Management Agreement will be available in the Fund’s annual report to Shareholders for the period ended March 31, 2019.

The Investment Management Agreement provides that, in the absence of willful misfeasance, bad faith, gross negligence or reckless disregard of its obligations to the Fund, the Investment Manager and any partner, director, officer or employee of the Investment Manager, or any of their affiliates, executors, heirs, assigns, successors or other legal representatives, will not be liable to the Fund for any error of judgment, for any mistake of law or for any act or omission by the person in connection with the performance of services to the Fund. The Investment Management Agreement also provides for indemnification, to the fullest extent permitted by law, by the Fund, of the Investment Manager or any partner, director, officer or employee of the Investment Manager, and any of their affiliates, executors, heirs, assigns, successors or other legal representatives, against any liability or expense to which the person may be liable that arises in connection with the performance of services to the Fund, so long as the liability or expense is not incurred by reason of the person’s willful misfeasance, bad faith, gross negligence or reckless disregard of its obligations to the Fund.

See “*INVESTMENT MANAGEMENT AND OTHER SERVICES — The Sub-Advisers*” in the SAI for a discussion of the sub-advisory agreements among the Fund, the Investment Manager and each Sub-Adviser.

INVESTMENT MANAGEMENT FEE

The Fund pays to the Investment Manager an investment management fee (the “Investment Management Fee”) in consideration of the advisory and other services provided by the Investment Manager to the Fund. Pursuant to the Investment Management Agreement, the Fund pays the Investment Manager a monthly Investment Management Fee equal to 0.50% on an annualized basis of the Fund’s NAV as of each month-end, subject to certain adjustments. The Investment Management Fee will be paid to the Investment Manager before giving effect to any repurchase of Shares in the Fund effective as of that date and will decrease the net profits or increase the net losses of the Fund that are credited to its Shareholders. NAV means the total value of all assets of the Fund, less an amount equal to all accrued debts, liabilities and obligations of the Fund; provided that for purposes of determining the Investment Management Fee payable to the Investment Manager for any month, NAV will be calculated prior to any reduction for any fees and expenses of the Fund for that month, including, without limitation, the Investment Management Fee payable to the Investment Manager for that month. The Investment Management Fee will be computed as of the last business day of each month, and will be due and payable in arrears within thirty-five (35) business days after the end of the month.

Pursuant to a separate sub-advisory agreement among the Fund, the Investment Manager and RiverNorth, RiverNorth receives a portfolio management fee equal to 1.00% on an annualized basis of the Fund’s NAV as of each month-end, subject to certain adjustments. Pursuant to a separate sub-advisory agreement among the Fund, the Investment Manager and Angel Oak, Angel Oak receives a portfolio management fee equal to 0.80% on an annualized basis of the Fund’s NAV as of each month-end, subject to certain adjustments. Each Sub-Adviser’s fee is paid by the Investment Manager out of the Investment Management Fee.

DISTRIBUTOR

Foreside Fund Services, LLC (the “Distributor”) is the distributor (also known as principal underwriter) of the Shares of the Fund and is located at Three Canal Plaza, Suite 100, Portland, Maine 04101. The Distributor is a registered broker-dealer and is a member of the Financial Industry Regulatory Authority, Inc. (“FINRA”).

Under a Distribution Agreement with the Fund, the Distributor acts as the agent of the Fund in connection with the continuous offering of shares of the Fund. The Distributor continually distributes shares of the Fund on a best efforts basis. The Distributor has no obligation to sell any specific quantity of Fund shares. The Distributor and its officers have no role in determining the investment policies or which securities are to be purchased or sold by the Fund.

The Distributor may enter into agreements with selected broker-dealers, banks or other financial intermediaries for distribution of shares of the Fund. With respect to certain financial intermediaries and related fund “supermarket” platform arrangements, the Fund and/or the Adviser, rather than the Distributor, typically enter into such agreements. These financial intermediaries may charge a fee for their services and may receive shareholder service or other fees from parties other than the Distributor. These financial intermediaries may otherwise act as processing agents and are responsible for promptly transmitting purchase, redemption and other requests to the Fund.

Investors who purchase shares through financial intermediaries will be subject to the procedures of those intermediaries through which they purchase shares, which may include charges, investment minimums, cutoff times and other restrictions in addition to, or different from, those listed herein. Information concerning any charges or services will be provided to customers by the financial intermediary through which they purchase shares. Investors purchasing shares of the Fund through financial intermediaries should acquaint themselves with their financial intermediary’s procedures and should read the Prospectus in conjunction with any materials and information provided by their financial intermediary. The financial intermediary, and not its customers, will be the shareholder of record, although customers may have the right to vote shares depending upon their arrangement with the intermediary. The Distributor does not receive compensation from the Fund for its distribution services. The Investment Manager pays the Distributor a fee for certain distribution-related services. The maximum amount of compensation to be received by the participating members from any source will not exceed 8% of the proceeds raised in the offering.

Pursuant to the Distribution Agreement, the Distributor is solely responsible for its costs and expenses incurred in connection with its qualification as a broker-dealer under state or federal laws. The Distribution Agreement also provides that the Fund will indemnify the Distributor and its affiliates and certain other persons against certain liabilities. Specifically, the Distribution Agreement provides that the Fund and the Investment Manager will indemnify, defend and hold the Distributor, its employees, agents, directors and officers and any person who controls the Distributor free and harmless from and against any and all claims arising out of or based upon (i) any material action (or omission to act) of the Distributor or its agents taken in connection with the Distribution Agreement; provided that such action (or omission to act) is taken without willful misfeasance, gross negligence or reckless disregard by the Distributor of its duties and obligations under the Distribution Agreement; (ii) any untrue or alleged untrue statement of a material fact contained in the Prospectus or related offering materials or any omission or alleged omission to state a material fact required to be stated in the Prospectus or related offering materials or necessary to make the statements in any Prospectus or related offering materials not misleading, unless such statement or omission was made in reliance upon, and in conformity with, information furnished in writing to the Fund or the Investment Manager in connection with the preparation of the Fund’s Prospectus or related offering materials by or on behalf of the Distributor; (iii) any material breach of the agreements, representations, warranties and covenants by the Fund and the Investment Manager in the Distribution Agreement; or (iv) the reliance on or use by the Distributor or its agents or subcontractors of information, records, documents or services which have been prepared, maintained or performed by the Fund or the Investment Manager.

Advisor Class Shares in the Fund are offered with a maximum sales charge of 5.75% of the subscription amount. The Fund or Investment Manager may elect to reduce, otherwise modify or waive the sales charge with respect to any Shareholder. No sales charge is expected to be charged with respect to investments by the Investment Manager, the Sub-Advisers and their respective affiliates, directors, principals, officers and employees and others in the Fund’s sole discretion. There is no minimum aggregate amount of Shares required to be purchased in any offering.

The Investment Manager and/or its affiliates may make payments to selected affiliated or unaffiliated third parties (including the parties that have entered into selling agreements with the Distributor) from time

to time in connection with the distribution of Shares and/or the servicing of Shareholders and/or the Fund. These payments will be made out of the Investment Manager’s and/or affiliates’ own assets and will not represent an additional charge to the Fund. The amount of such payments may be significant in amount and the prospect of receiving any such payments may provide such third parties or their employees with an incentive to favor sales of Shares of the Fund over other investment options. Contact your financial intermediary for details about revenue sharing payments it receives or may receive.

DISTRIBUTION AND SERVICE PLAN

The Fund has adopted a Distribution and Service Plan with respect to Advisor Class Shares in compliance with Rule 12b-1 under the Investment Company Act. The Distribution and Service Plan allows the Fund to pay distribution and servicing fees for the sale and servicing of its Advisor Class Shares. Under the Distribution and Service Plan, the Fund is permitted to pay as compensation up to 1.00% on an annualized basis of the aggregate net assets of the Fund attributable to Advisor Class Shares (the “Distribution and Servicing Fee”) to the Fund’s Distributor and/or other qualified recipients. The Distribution and Servicing Fee is paid out of the Fund’s assets and decreases the net profits or increases the net losses of the Fund. CIA Class Shares are not subject to the Distribution and Servicing Fee.

The Distribution and Servicing Fee to be paid to the Distributor for distribution of each class of Shares under the Distribution and Service Plan is as follows:

Class	Distribution and Service Fee
Advisor Class	1.00%
CIA Class	None

ADMINISTRATION

The Fund has retained the Administrator, UMB Fund Services, Inc., whose principal business address is 235 West Galena Street, Milwaukee, WI 53212, to provide administrative services, and to assist with operational needs. The Administrator provides such services to the Fund pursuant to an administration agreement between the Fund and the Administrator (the “Administration Agreement”). The Administrator is responsible directly or through its agents for, among other things, providing the following services to each of the Fund; (1) maintaining a list of Shareholders and generally performing all actions related to the issuance and repurchase of Shares of the Fund, if any, including delivery of trade confirmations and capital statements; (2) providing certain administrative, clerical and bookkeeping services; (3) providing transfer agency services, services related to the payment of distributions, and accounting services; (4) computing the NAV of the Fund in accordance with U.S. generally accepted accounting principles (“GAAP”) and procedures defined in consultation with the Investment Manager; (5) overseeing the preparation of semi-annual and annual financial statements of the Fund in accordance with GAAP, quarterly reports of the operations of the Fund and information required for tax returns; (6) supervising regulatory compliance matters and preparing certain regulatory filings; and (7) performing additional services, as agreed upon, in connection with the administration of the Fund. The Administrator may from time to time delegate its responsibilities under the Administration Agreement to one or more parties selected by the Administrator, including its affiliates or affiliates of the Investment Manager.

The Fund pays the Administrator an annual fee of 0.06% of the Fund’s net assets. In addition, the Fund pays the Administrator its pro-rata share, based on combined assets under management, of an annual relationship-level base fee of \$75,000 paid by all registered investment companies advised by the Investment Manager and serviced by the Administrator (together with the asset-based fee, the “Administration Fee”). The Administration Fee is paid to the Administrator out of the assets of the Fund and therefore decreases the net profits or increases the net losses of the Fund. The Administrator is also reimbursed by the Fund for out-of-pocket expenses relating to services provided to the Fund. The Administration Fee and the other terms of the Administration Agreement may change from time to time as may be agreed to by the Fund and the Administrator.

The Administration Agreement provides that, in the absence of willful misfeasance, bad faith, gross negligence or reckless disregard of its obligations to the Fund, the Administrator and any partner, director, officer or employee of the Administrator, or any of their affiliates, executors, heirs, assigns, successors or

other legal representatives, will not be liable to the Fund for any error of judgment, for any mistake of law or for any act or omission by the person in connection with the performance of administration services for the Fund. The Administration Agreement also provides for indemnification, to the fullest extent permitted by law, by the Fund or the Administrator, or any partner, director, officer or employee of the Administrator, and any of their affiliates, executors, heirs, assigns, successors or other legal representatives, against any liability or expense to which the person may be liable that arises in connection with the performance of services to such fund, so long as the liability or expense is not incurred by reason of the person's willful misfeasance, bad faith, gross negligence or reckless disregard of its obligations to such fund.

CUSTODIAN

UMB Bank, N.A. (the "Custodian"), an affiliate of the Administrator, serves as the primary custodian of the assets of the Fund and may maintain custody of such assets with U.S. and non-U.S. subcustodians (which may be banks and trust companies), securities depositories and clearing agencies in accordance with the requirements of Section 17(f) of the Investment Company Act and the rules thereunder. Assets of the Fund are not held by the Investment Manager or the Sub-Advisers or commingled with the assets of other accounts other than to the extent that securities are held in the name of the Custodian or U.S. or non-U.S. subcustodians in a securities depository, clearing agency or omnibus customer account of such custodian. The Custodian's principal business address is 1010 Grand Blvd., Kansas City, MO 64106.

FUND EXPENSES

The Fund will pay all of its expenses, or reimburse the Investment Manager or its affiliates to the extent they have previously paid such expenses on behalf of the Fund. The expenses of the Fund include, but are not limited to, any fees and expenses in connection with the offering and issuance of Shares; all fees and expenses reasonably incurred in connection with the operation of the Fund; all fees and expenses directly related to portfolio transactions and positions for the Fund's account such as direct and indirect expenses associated with the Fund's investments, and enforcing the Fund's rights in respect of such investments; quotation or valuation expenses; the Investment Management Fee and the Administration Fee; Distribution and Servicing Fee (for Advisor Class Shares); brokerage commissions; interest and fees on any borrowings by the Fund; professional fees; research expenses (including, without limitation, expenses of consultants who perform fund manager due diligence research); fees and expenses of outside legal counsel (including fees and expenses associated with the review of documentation for prospective investments by the Fund), including foreign legal counsel; accounting, auditing and tax preparation expenses; fees and expenses in connection with repurchase offers and any repurchases or redemptions of Shares; taxes and governmental fees (including tax preparation fees); fees and expenses of any custodian, subcustodian, transfer agent, and registrar, and any other agent of the Fund; all costs and charges for equipment or services used in communicating information regarding the Fund's transactions with any custodian or other agent engaged by the Fund; bank services fees; costs and expenses relating to any amendment of the Agreement and Declaration of Trust or other organizational documents of the Fund; expenses of preparing, amending, printing, and distributing the Prospectus and any other sales material (and any supplements or amendments thereto), reports, notices, other communications to Shareholders, and proxy materials; expenses of preparing, printing, and filing reports and other documents with government agencies; expenses of Shareholders' meetings, including the solicitation of proxies in connection therewith; expenses of corporate data processing and related services; shareholder recordkeeping and account services, fees, and disbursements; expenses relating to investor and public relations; fees and expenses of the members of the Board who are not employees of the Investment Manager or its affiliates; insurance premiums; Extraordinary Expenses (as defined below); and all costs and expenses incurred as a result of dissolution, winding-up and termination of the Fund. The Fund may need to sell portfolio securities to pay fees and expenses, which could cause the Fund to realize taxable gains.

"Extraordinary Expenses" means all expenses incurred by the Fund outside of the ordinary course of its business, including, without limitation, costs incurred in connection with any claim, litigation, arbitration, mediation, government investigation or dispute and the amount of any judgment or settlement paid in connection therewith, or the enforcement of the rights against any person or entity; costs and expenses for indemnification or contribution payable to any person or entity; expenses of a reorganization,

restructuring or merger, as applicable; expenses of holding, or soliciting proxies for, a meeting of shareholders (except to the extent relating to items customarily addressed at an annual meeting of a registered closed-end management investment company); and the expenses of engaging a new administrator, custodian or transfer agent.

The Investment Manager will bear all of its expenses and costs incurred in providing investment advisory services to the Fund, including Sub-Advisers' fees as well as travel and other expenses related to the selection and monitoring of investments. In addition, the Investment Manager is responsible for the payment of the compensation and expenses of those officers of the Fund affiliated with the Investment Manager, and making available, without expense to the Fund, the services of such individuals, subject to their individual consent to serve and to any limitations imposed by law.

The Fund will bear directly certain ongoing offering costs associated with any periodic offers of Shares which will be expensed as they are incurred. Offering costs cannot be deducted by the Fund or the Shareholders.

The Investment Manager has entered into an amended and restated expense limitation and reimbursement agreement (the "Expense Limitation and Reimbursement Agreement") with the Fund, whereby the Investment Manager has agreed to waive fees that it would otherwise have been paid, and/or to assume expenses of the Fund (a "Waiver"), if required to ensure the Total Annual Expenses (excluding any taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses (as determined in accordance with SEC Form N-2), expenses incurred in connection with any merger or reorganization, and extraordinary expenses, such as litigation expenses) do not exceed 1.95% and 0.95% of the average daily net assets of Advisor Class Shares and CIA Class Shares, respectively (the "Expense Limit"). Because taxes, leverage interest, brokerage commissions, dividend and interest expenses on short sales, acquired fund fees and expenses, expenses incurred in connection with any merger or reorganization, and extraordinary expenses are excluded from the Expense Limit, Total Annual Expenses (after fee waivers and expense reimbursements) are expected to exceed 1.95% and 0.95% for the Advisor Class Shares and CIA Class Shares, respectively. For a period not to exceed three years from the date on which a Waiver is made, the Investment Manager may recoup amounts waived or assumed, provided it is able to effect such recoupment and remain in compliance with the Expense Limit. The Expense Limitation and Reimbursement Agreement has a term which ends on August 1, 2020. The Expense Limitation and Reimbursement Agreement will automatically renew for consecutive one-year terms thereafter. None of the Fund, the Investment Manager may terminate the Expense Limitation and Reimbursement Agreement during the current term. After August 1, 2020, either the Fund or the Investment Manager may terminate the Expense Limitation and Reimbursement Agreement upon 30 days' written notice. For the year ended March 31, 2018, the Investment Manager waived fees and reimbursed expenses of \$375,201, which is subject to recoupment through March 31, 2021.

The Fund's fees and expenses will decrease the net profits or increase the net losses of the Fund that are credited to Shareholders.

VOTING

Each Shareholder will have the right to cast a number of votes, based on the number of such Shareholder's Shares, at any meeting of Shareholders called by the Board. Except for the exercise of such voting privileges, Shareholders will not be entitled to participate in the management or control of the Fund's business and may not act for or bind the Fund.

CONFLICTS OF INTEREST

The Fund may be subject to a number of actual and potential conflicts of interest.

The Investment Manager, the Sub-Advisers and their affiliates engage in financial advisory activities that are independent from, and may from time to time conflict with, those of the Fund. In the future, there might arise instances where the interests of such affiliates conflict with the interests of the Fund. The Investment Manager, the Sub-Advisers and their affiliates may provide services to, invest in, advise, sponsor and/or act as investment manager to investment vehicles and other persons or entities (including prospective investors in the Fund) which may have structures, investment objectives and/or policies that are similar to

(or different than) those of the Fund; which may compete with the Fund for investment opportunities; and which may, subject to applicable law, co-invest with the Fund in certain transactions. In addition, the Investment Manager, the Sub-Advisers and their affiliates and respective clients may themselves invest in securities that would be appropriate for the Fund. By acquiring Shares, each Shareholder will be deemed to have acknowledged the existence of any such actual and potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

Although the Investment Manager, the Sub-Advisers and their affiliates will seek to allocate investment opportunities among the Fund and their other clients in a fair and reasonable manner, there can be no assurance that an investment opportunity which comes to the attention of the Investment Manager, the Sub-Advisers or their affiliates will be appropriate for the Fund or will be referred to the Fund. The Investment Manager, the Sub-Advisers and their affiliates are not obligated to refer any investment opportunity to the Fund.

The directors, partners, trustees, managers, members, officers and employees of the Investment Manager, the Sub-Advisers and their affiliates may buy and sell securities or other investments for their own accounts (including through funds managed by the Investment Manager, the Sub-Advisers or their affiliates). As a result of differing trading and investment strategies or constraints, investments may be made by directors, partners, trustees, managers, members, officers and employees that are the same, different from or made at different times than investments made for the Fund. To reduce the possibility that the Fund will be materially adversely affected by the personal trading described above, the Fund, the Investment Manager and each Sub-Adviser have individually adopted codes of ethics (collectively, the “Codes of Ethics”) in compliance with Section 17(j) of the Investment Company Act that restricts securities trading in the personal accounts of investment professionals and others who normally come into possession of information regarding the portfolio transactions of the Fund. The Codes of Ethics can be reviewed and copied at the SEC’s Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling the SEC at 1-202-551-8090. The Codes of Ethics are also available on the EDGAR Database on the SEC’s Internet site at <https://www.sec.gov>, and copies may be obtained, after paying a duplicating fee, by email at publicinfo@sec.gov or by writing the SEC’s Public Reference Section, Washington, DC 20549-0102.

TENDER OFFERS/OFFERS TO REPURCHASE

A substantial portion of the Fund’s investments are illiquid. For this reason, the Fund is structured as a closed-end interval fund which means that the Shareholders will not have the right to redeem their Shares on a daily basis. In addition, the Fund does not expect any trading market to develop for the Shares. As a result, if investors decide to invest in the Fund, they will have very limited opportunity to sell their Shares.

The Fund intends to provide a limited degree of liquidity to the Shareholders by conducting repurchase offers quarterly with a Valuation Date (as defined below) on or about March 31, June 30, September 30 and December 31 of each year.

For each repurchase offer the Board will set an amount between 5% and 10% of the Fund’s Shares based on relevant factors, including the liquidity of the Fund’s positions and the Shareholders’ desire for liquidity. A Shareholder whose Shares (or a portion thereof) are repurchased by the Fund will not be entitled to a return of any sales charge that was charged in connection with the Shareholder’s purchase of the Shares.

Shares will be repurchased at their NAV determined as of approximately March 31, June 30, September 30 and December 31, as applicable (each such date, a “Valuation Date”). Shareholders tendering Shares for repurchase will be asked to give written notice of their intent to do so by the date specified in the notice describing the terms of the applicable repurchase offer, which date will be approximately fourteen (14) days prior to the Valuation Date. Shareholders who tender may not have all of the tendered Shares repurchased by the Fund. If over-subscriptions occur, the Fund may elect to repurchase less than the full amount that a Shareholder requests to be repurchased. In such an event, the Fund may repurchase only a pro rata portion of the amount tendered by each Shareholder.

In certain circumstances, the Board may require a Shareholder to tender its Shares.

A Shareholder who tenders for repurchase only a portion of his Shares in the Fund will be required to maintain a minimum account balance of \$1,000. If a Shareholder tenders a portion of his Shares and the repurchase of that portion would cause the Shareholder’s account balance to fall below this required minimum of \$1,000, the Fund reserves the right to repurchase all of such Shareholder’s outstanding Shares. Such minimum capital account balance requirement may also be waived by the Board in its sole discretion, subject to applicable federal securities laws.

TENDER/REPURCHASE PROCEDURES

Once each quarter, the Fund will offer to repurchase at per-class NAV per Share no less than 5% of the outstanding Shares of the Fund, unless such offer is suspended or postponed in accordance with regulatory requirements (as discussed below). For each repurchase offer the Board will set an amount between 5% and 10% of the Fund’s Shares based on relevant factors, including the liquidity of the Fund’s positions and the Shareholders’ desire for liquidity. The offer to purchase shares is a fundamental policy that may not be changed without the vote of the holders of a majority of the Fund’s outstanding voting securities (as defined in the Investment Company Act). Shareholders will be notified in writing of each quarterly repurchase offer and the date the repurchase offer ends (the “Repurchase Request Deadline”). Shares will be repurchased at the per-class NAV per Share determined as of the close of business no later than the fourteenth day after the Repurchase Request Deadline, or the next business day if the fourteenth day is not a business day (each a “Repurchase Pricing Date”).

Shareholders will be notified in writing about each quarterly repurchase offer, how they may request that the Fund repurchase their Shares, and the “Repurchase Request Deadline,” which is the date the repurchase offer ends. Shares tendered for repurchase by shareholders prior to any Repurchase Request Deadline will be repurchased subject to the aggregate repurchase amounts established for that Repurchase Request Deadline. The time between the notification to Shareholders and the Repurchase Request Deadline is generally thirty (30) days, but may vary from no more than forty-two (42) days to no less than twenty-one (21) days. The Shareholder Notification will contain information Shareholders should consider in deciding whether to tender their Shares for repurchase. The Shareholder Notification also will include detailed instructions on how to tender Shares for repurchase, state the Repurchase Offer Amount and identify the dates of the Repurchase Request Deadline, the scheduled Repurchase Pricing Date, and the date the repurchase proceeds are scheduled for payment (the “Repurchase Payment Deadline”). The Shareholder Notification also will set forth the NAV per Share that has been computed no more than seven (7) days before the date of such notification, and how Shareholders may ascertain the NAV per Share after the notification date. Payment pursuant to the repurchase will be made by checks to the Shareholder’s address of record, or credited directly to a predetermined bank account on the Purchase Payment Date, which will be no more than seven (7) days after the Repurchase Pricing Date. The Board may establish other policies for repurchases of Shares that are consistent with the Investment Company Act, regulations thereunder and other pertinent laws.

If Shareholders tender for repurchase more than the Repurchase Offer Amount for a given repurchase offer, the Fund may, but is not required to, repurchase an additional amount of Shares not to exceed 2% of the outstanding Shares of the Fund on the Repurchase Request Deadline. If the Fund determines not to repurchase more than the Repurchase Offer Amount, or if Shareholders tender Shares in an amount exceeding the Repurchase Offer Amount plus 2% of the outstanding Shares on the Repurchase Request Deadline, the Fund will repurchase the Shares on a pro rata basis. However, the Fund may accept all shares tendered for repurchase by Shareholders who own less than \$1,000 worth of Shares and who tender all of

their Shares, before prorating other amounts tendered. In addition, the Fund will accept the total number of Shares tendered in connection with required minimum distributions from an IRA or other qualified retirement plan. It is the Shareholder's obligation to both notify and provide the Fund supporting documentation of a required minimum distribution from an IRA or other qualified retirement plan.

The Fund may suspend or postpone a repurchase offer only: (a) if making or effecting the repurchase offer would cause the Fund to lose its status as a regulated investment company under the Code; (b) for any period during which the New York Stock Exchange or any market on which the securities owned by the Fund are principally traded is closed, other than customary weekend and holiday closings, or during which trading in such market is restricted; (c) for any period during which an emergency exists as a result of which disposal by the Fund of securities owned by it is not reasonably practicable, or during which it is not reasonably practicable for the Fund fairly to determine the value of its net assets; or (d) for such other periods as the SEC may by order permit for the protection of Shareholders of the Fund.

The Fund must maintain liquid assets equal to the Repurchase Offer Amount from the time that the Shareholder Notification is sent to Shareholders until the Repurchase Pricing Date. The Fund will ensure that a percentage of its net assets equal to at least 100% of the Repurchase Offer Amount consists of assets that can be sold or disposed of in the ordinary course of business at approximately the price at which the Fund has valued the investment within the time period between the Repurchase Request Deadline and the Repurchase Payment Deadline. The Board has adopted procedures that are reasonably designed to ensure that the Fund's assets are sufficiently liquid so that the Fund can comply with the repurchase offer and the liquidity requirements described in the previous paragraph. If, at any time, the Fund falls out of compliance with these liquidity requirements, the Board will take whatever action it deems appropriate to ensure compliance.

The Fund may cause a mandatory repurchase or redemption of all or some of the Shares of a Shareholder, or any person acquiring Shares from or through a Shareholder, at net asset value in accordance with the Declaration of Trust and Section 23 of the Investment Company Act and Rule 23c-2 thereunder.

TRANSFERS OF SHARES

No person shall become a substituted Shareholder of the Fund without the consent of the Fund, which consent may be withheld in its sole discretion. Shares held by Shareholders may be transferred only: (i) by operation of law in connection with the death, divorce, bankruptcy, insolvency, or adjudicated incompetence of the Shareholder; or (ii) under other limited circumstances, with the consent of the Board (which may be withheld in its sole discretion and is expected to be granted, if at all, only under extenuating circumstances).

Notice to the Fund of any proposed transfer must include evidence satisfactory to the Board that the proposed transferee, at the time of transfer, meets any requirements imposed by the Fund with respect to investor eligibility and suitability. Notice of a proposed transfer of a Share must also be accompanied by a properly completed investor application in respect of the proposed transferee. In connection with any request to transfer Shares, the Fund may require the Shareholder requesting the transfer to obtain, at the Shareholder's expense, an opinion of counsel selected by the Fund as to such matters as the Fund may reasonably request. The Board generally will not consent to a transfer of Shares by a Shareholder (i) unless such transfer is to a single transferee, or (ii) if, after the transfer of the Shares, the balance of the account of each of the transferee and transferor is less than \$1,000. Each transferring Shareholder and transferee may be charged reasonable expenses, including, but not limited to, attorneys' and accountants' fees, incurred by the Fund in connection with the transfer.

Any transferee acquiring Shares by operation of law in connection with the death, divorce, bankruptcy, insolvency, or adjudicated incompetence of the Shareholder, will be entitled to the distributions allocable to the Shares so acquired, to transfer the Shares in accordance with the terms of the Agreement and Declaration of Trust and to tender the Shares for repurchase by the Fund, but will not be entitled to the other rights of a Shareholder unless and until the transferee becomes a substituted Shareholder as specified in the Agreement and Declaration of Trust. If a Shareholder transfers Shares with the approval of the Board, the Fund shall as promptly as practicable take all necessary actions so that each transferee or successor to whom the Shares are transferred is admitted to the Fund as a Shareholder.

By subscribing for Shares, each Shareholder agrees to indemnify and hold harmless the Fund, the Board, the Investment Manager, and each other Shareholder, and any affiliate of the foregoing against all losses, claims, damages, liabilities, costs, and expenses (including legal or other expenses incurred in investigating or defending against any losses, claims, damages, liabilities, costs, and expenses or any judgments, fines, and amounts paid in settlement), joint or several, to which such persons may become subject by reason of or arising from any transfer made by that Shareholder in violation of the Agreement and Declaration of Trust or any misrepresentation made by that Shareholder in connection with any such transfer.

ANTI-MONEY LAUNDERING

If the Fund, the Investment Manager or any governmental agency believes that the Fund has sold Shares to, or is otherwise holding assets of, any person or entity that is acting, directly or indirectly, in violation of U.S., international or other anti-money laundering laws, rules, regulations, treaties or other restrictions, or on behalf of any suspected terrorist or terrorist organization, suspected drug trafficker, or senior foreign political figure(s) suspected of engaging in corruption, the Fund, the Investment Manager or such governmental agency may freeze the assets of such person or entity invested in the Fund or suspend the repurchase of Shares. The Fund may also be required to, or deem it necessary or advisable to, remit or transfer those assets to a governmental agency, in some cases without prior notice to the investor.

CREDIT FACILITY

The Fund may enter into one or more credit agreements or other similar agreements negotiated on market terms (each, a “Borrowing Transaction”) with one or more banks or other financial institutions which may or may not be affiliated with the Investment Manager (each, a “Financial Institution”) as chosen by the Investment Manager and approved by the Board. The Fund may borrow under a credit facility for a number of reasons, including without limitation, to pay fees and expenses, to make annual income distributions and to satisfy certain repurchase offers in a timely manner to ensure liquidity for the investors. To facilitate such Borrowing Transactions, the Fund may pledge its assets to the Financial Institution.

CALCULATION OF NET ASSET VALUE

GENERAL

The Administrator calculates the Fund’s NAV as of the close of business on each business day and at such other times as the Board may determine, including in connection with repurchases of Shares, in accordance with the procedures described below or as may be determined from time to time in accordance with policies established by the Board (each, a “Determination Date”).

The Fund’s Valuation Committee will oversee the valuation of the Fund’s investments on behalf of the Fund. The Board has approved valuation procedures for the Fund (the “Valuation Procedures”). Securities traded on one or more of the U.S. national securities exchanges, the Nasdaq Stock Market or any foreign stock exchange will be valued at the last sale price or the official closing price on the exchange or system where such securities are principally traded for the business day as of the relevant Determination Date. If no sale or official closing price of particular securities are reported on a particular day, the securities will be valued at the closing bid price for securities held long, or the closing ask price for securities held short, or if a closing bid or ask price, as applicable, is not available, at either the exchange or system-defined closing price on the exchange or system in which such securities are principally traded. Over-the-counter securities not quoted on the Nasdaq Stock Market will be valued at the last sale price on the relevant Determination Date or, if no sale occurs, at the last bid price, in the case of securities held long, or the last ask price, in the case of securities held short, at the time net asset value is determined. Equity securities for which no prices are obtained under the foregoing procedures, including those for which a pricing service supplies no exchange quotation or a quotation that is believed by the Investment Manager or a Sub-Adviser not to reflect the market value, will be valued at the bid price, in the case of securities held long, or the ask price, in the case of securities held short, supplied by one or more dealers making a market in those securities or one or more brokers, in accordance with the Valuation Procedures. Futures index options will be valued at the mid-point between the last bid price and the last ask price on the relevant Determination Date at the time net asset value is determined. The mid-point of the last bid and the last ask is also known as the ‘mark’.

Fixed-income securities with a remaining maturity of sixty (60) days or more for which accurate market quotations are readily available will normally be valued according to dealer-supplied bid quotations or bid quotations from a recognized pricing service. Fixed-income securities for which market quotations are not readily available or are believed by the Investment Manager or a Sub-Adviser not to reflect market value will be valued based upon broker-supplied quotations in accordance with the Valuation Procedures, provided that if such quotations are unavailable or are believed by the Investment Manager or a Sub-Adviser not to reflect market value, such fixed-income securities will be valued at fair value in accordance with the Valuation Procedures, which may include the utilization of valuation models that take into account spread and daily yield changes on government securities in the appropriate market (e.g., matrix pricing). High quality investment grade debt securities (e.g., treasuries, commercial paper, etc.) with a remaining maturity of sixty (60) days or less are valued by the Investment Manager or a Sub-Adviser at amortized cost, which the Board has determined to approximate fair value. All other instruments held by the Fund will be valued in accordance with the Valuation Procedures.

If no price is obtained for a security in accordance with the foregoing, because either an external price is not readily available or such external price is believed by the Investment Manager or a Sub-Adviser not to reflect the market value, the Valuation Committee will make a determination in good faith of the fair value of the security in accordance with the Valuation Procedures. In general, fair value represents a good faith approximation of the current value of an asset and will be used when there is no public market or possibly no market at all for the asset. The fair values of one or more assets may not be the prices at which those assets are ultimately sold and the differences may be significant.

Assets and liabilities initially expressed in foreign currencies will be converted into U.S. dollars using foreign exchange rates provided by a pricing service. Trading in foreign securities generally is completed, and the values of such securities are determined, prior to the close of securities markets in the United States. Foreign exchange rates are also determined prior to such close. On occasion, the values of securities and exchange rates may be affected by events occurring between the time as of which determination of such values or exchange rates are made and the time as of which the NAV of the Fund is determined. When such events materially affect the values of securities held by the Fund or its liabilities, such securities and liabilities may be valued at fair value as determined in good faith in accordance with procedures approved by the Board.

The Fund will generally value shares of ETFs at the last sale price on the exchange on which the ETF is principally traded. The Fund will generally value shares of open-end investment companies and closed-end investment companies that do not trade on one or more of the U.S. national securities exchanges at their respective NAVs.

To the extent that the Fund invests in private Investment Funds, the Fund will generally value those assets, in accordance with the value determined as of such date by each private Investment Fund in accordance with the private Investment Fund's valuation policies and reported at the time of the Fund's valuation. As a general matter, the fair value of the Fund's interest in a private Investment Fund will represent the amount that the Fund could reasonably expect to receive from the private Investment Fund if the Fund's interest was redeemed at the time of valuation, based on information reasonably available at the time the valuation is made and that the Fund believes to be reliable. In the event that the private Investment Fund does not report a value to the Fund on a timely basis, the Fund will determine the fair value of such private Investment Fund based on the most recent final or estimated value reported by the private Investment Fund, as well as any other relevant information available at the time the Fund values its portfolio. Using the nomenclature of the hedge fund industry, any values reported as "estimated" or "final" values are expected to reasonably reflect market values of securities when available or fair value as of the Fund's valuation date. A substantial amount of time may elapse between the occurrence of an event necessitating the pricing of Fund assets and the receipt of valuation information from the Underlying Manager of a private Investment Fund.

Prior to the Fund investing in any private Investment Fund, the Investment Manager or Sub-Advisers will conduct a due diligence review of the valuation methodologies utilized by the private Investment Fund, which as a general matter will utilize market values when available, and otherwise will utilize principles of fair value that the Investment Manager or Sub-Advisers reasonably believe to be consistent, in all material

respects, with those used by the Fund in valuing its own investments. Although the Valuation Procedures provide that the Investment Manager or Sub-Advisers will review the valuations provided by the Underlying Managers to the private Investment Funds, none of the Board or the Investment Manager or Sub-Advisers will be able to confirm independently the accuracy of valuations provided by such Underlying Managers, which may be unaudited.

The Fund's Valuation Procedures require the Investment Manager or Sub-Advisers to take reasonable steps in light of all relevant circumstances to value the Fund's portfolio. The Investment Manager or Sub-Advisers will consider such information and may conclude in certain circumstances that the information provided by an Underlying Manager does not represent the fair value of the Fund's interests in the private Investment Fund. Although redemptions of interests in private Investment Funds are subject to advance notice requirements, private Investment Funds will typically make available NAV information to holders which will represent the price at which, even in the absence of redemption activity, the private Investment Fund would have effected a redemption if any such requests had been timely made or if, in accordance with the terms of the private Investment Fund's governing documents, it would be necessary to effect a mandatory redemption. Following procedures adopted by the Board, the Investment Manager or Sub-Advisers will consider whether it is appropriate, in light of all relevant circumstances, to value such interests at the NAV as reported by the Underlying Manager at the time of valuation, or whether to adjust such value to reflect a premium or discount to NAV. In accordance with U.S. generally accepted accounting principles and industry practice, the Fund may not always apply a discount in cases where there is no contemporaneous redemption activity in a particular private Investment Fund. In other cases, as when a private Investment Fund imposes extraordinary restrictions on redemptions, when other extraordinary circumstances exist, or when there have been no recent transactions in private Investment Fund interests, the Fund may determine that it is appropriate to apply a discount to the NAV of the private Investment Fund. Any such decision will be made in good faith, and subject to the review and supervision of the Board.

The valuations reported by the Underlying Managers, upon which the Fund calculates its NAV may be subject to later adjustment or revision, based on information reasonably available at that time. For example, any "estimated" values from private Investment Funds may be revised and fiscal year-end NAV calculations of the private Investment Funds may be audited by their independent auditors and may be revised as a result of such audits. Other adjustments may occur from time to time.

The Valuation Procedures provide that, where deemed appropriate by the Investment Manager or Sub-Advisers and consistent with the Investment Company Act, investments in private Investment Funds may be valued at cost. Cost will be used only when cost is determined to best approximate the fair value of the particular security under consideration. For example, cost may not be appropriate when the Fund is aware of sales of similar securities to third parties at materially different prices or in other circumstances where cost may not approximate fair value (which could include situations where there are no sales to third parties). In such a situation, the Fund's investment will be revalued in a manner that the Investment Manager or Sub-Advisers, in accordance with the Valuation Procedures, determines in good faith best reflects approximate market value. The Board will be responsible for ensuring that the Valuation Procedures utilized by the Investment Manager or Sub-Advisers are fair to the Fund and consistent with applicable regulatory guidelines.

The Investment Manager and/or the Sub-Advisers act as investment adviser to other clients that may invest in securities for which no public market price exists. Valuation determinations by the Investment Manager and/or the Sub-Advisers or their affiliates for other clients may result in different values than those ascribed to the same security owned by the Fund. Consequently, the fees charged to the Fund may be different than those charged to other clients, given that the method of calculating the fees takes the value of all assets, including assets carried at different valuations, into consideration.

Prospective investors should be aware that situations involving uncertainties as to the value of portfolio positions could have an adverse effect on the Fund's net asset value if the judgments of the Board or the Valuation Committee regarding appropriate valuations should prove incorrect.

SUSPENSION OF CALCULATION OF NET ASSET VALUE

As noted above, the Administrator calculates the Fund's NAV as of the close of business on each business day. However, there may be circumstances where it may not be practicable to determine an NAV, such as during any period when the principal stock exchanges for securities in which the Fund has invested its assets are closed other than for weekends and customary holidays (or when trading on such exchanges is restricted or suspended). In such circumstances, the Board (after consultation with the Investment Manager) may suspend the calculation of NAV. The Fund will not accept subscriptions for Shares if the calculation of NAV is suspended, and the suspension may require the termination of a pending repurchase offer by the Fund (or the postponement of the Valuation Date for a repurchase offer). Notwithstanding a suspension of the calculation of NAV, the Fund will be required to determine the value of its assets and report NAV in its semi-annual and annual reports to Shareholders, and in its reports on Form N-Q filed with the SEC after the end of the first and third quarters of the Fund's fiscal year. The Administrator will resume calculation of the Fund's NAV after the Board (in consultation with the Investment Manager) determines that conditions no longer require suspension of the calculation of NAV.

TAXES

INTRODUCTION

The following is a summary of certain material federal income tax consequences of acquiring, holding and disposing of Shares. Because the federal income tax consequences of investing in the Fund may vary from Shareholder to Shareholder depending on each Shareholder's unique federal income tax circumstances, this summary does not attempt to discuss all of the federal income tax consequences of such an investment. Among other things, except in certain limited cases, this summary does not purport to deal with persons in special situations (such as financial institutions, non-U.S. persons, insurance companies, entities exempt from federal income tax, regulated investment companies, dealers in commodities and securities and pass through entities). Further, to the limited extent this summary discusses possible foreign, state and local income tax consequences, it does so in a very general manner. Finally, this summary does not purport to discuss federal tax consequences (such as estate and gift tax consequences) other than those arising under the federal income tax laws. ***You are therefore urged to consult your tax advisers to determine the federal, state, local and foreign tax consequences of acquiring, holding and disposing of Shares.***

The following summary is based upon the Code as well as administrative regulations and rulings and judicial decisions thereunder, as of the date hereof, all of which are subject to change at any time (possibly on a retroactive basis). Accordingly, no assurance can be given that the tax consequences to the Fund or its shareholder will continue to be as described herein.

The Fund has not sought or obtained a ruling from the Internal Revenue Service (the "IRS") (or any other federal, state, local or foreign governmental agency) or an opinion of legal counsel as to any specific federal, state, local or foreign tax matter that may affect it. Accordingly, although this summary is considered to be a correct interpretation of applicable law, no assurance can be given that a court or taxing authority will agree with such interpretation or with the tax positions taken by the Fund.

Except where specifically noted, this summary relates solely to U.S. Shareholders. A U.S. Shareholder for purposes of this discussion is a person who is a citizen or a resident alien of the U.S., a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) organized under the laws of the U.S. or any political subdivision thereof, an estate whose income is subject to U.S. federal income tax regardless of its source or a trust if: (i) a U.S. court can exercise primary supervision over the trust's administration and one or more U.S. persons are authorized to control all substantial decisions of the trust or (ii) the trust has a valid election in effect under applicable Treasury Regulations to be treated as a U.S. person.

TAXATION OF THE FUND

The below is a summary of certain U.S. federal income tax considerations relevant under current law, which is subject to change. Except where otherwise specifically indicated, the discussion relates to investors who are individual U.S. citizens or residents. You should consult your own tax adviser regarding tax considerations relevant to your specific situation, including federal, state, local and non-U.S. taxes.

The Fund intends to qualify as a RIC under federal income tax law. As a RIC, the Fund will generally not be subject to federal corporate income taxes, provided that it distributes out to Shareholders their taxable income and gain each year. To qualify for treatment as a RIC, the Fund must meet three important tests each year.

First, the Fund must derive with respect to each taxable year at least 90% of its gross income from dividends, interest, certain payments with respect to securities loans, gains from the sale or other disposition of stock or securities or foreign currencies, other income derived with respect to its business of investing in stock, securities or currencies, or net income derived from interests in qualified publicly traded partnerships.

Second, generally, at the close of each quarter of its taxable year, at least 50% of the value of the Fund's assets must consist of cash and cash items, U.S. government securities, securities of other RICs, and securities of other issuers (as to which the Fund has not invested more than 5% of the value of its total assets in securities of the issuer and as to which the Fund does not hold more than 10% of the outstanding voting securities of the issuer), and no more than 25% of the value of the Fund's total assets may be invested in the securities of (1) any one issuer (other than U.S. government securities and securities of other regulated investment companies), (2) two or more issuers that the Fund controls and which are engaged in the same or similar trades or businesses, or (3) one or more qualified publicly traded partnerships.

Third, the Fund must distribute an amount equal to at least the sum of 90% of its investment company taxable income (net investment income and the excess of net short-term capital gain over net long-term capital loss) and 90% of its tax-exempt income, if any, for the year.

The Fund intends to comply with this distribution requirement. If the Fund were to fail to make sufficient distributions, it could be liable for corporate income tax and for excise tax in respect of the shortfall or, if the shortfall is large enough, the Fund could be disqualified as a RIC. If for any taxable year the Fund were not to qualify as a RIC, all its taxable income would be subject to tax at regular corporate rates without any deduction for distributions to Shareholders. In that event, taxable Shareholders would recognize dividend income on distributions to the extent of the Fund's current and accumulated earnings and profits, and corporate Shareholders could be eligible for the dividends-received deduction.

The Code imposes a nondeductible 4% excise tax on RICs that fail to distribute each year an amount equal to specified percentages of their ordinary taxable income and capital gain net income (excess of capital gains over capital losses). The Fund intends to make sufficient distributions or deemed distributions each year to avoid liability for this excise tax.

Certain of the Fund's investments will require the Fund to recognize taxable income in a taxable year in excess of the cash generated on those investments during that year. In particular, the Fund expects to invest in debt obligations that will be treated as having "market discount" and/or original issue discount ("OID") for U.S. federal income tax purposes. Additionally, some of the CLOs in which the Fund invests may constitute passive foreign investment companies, or under certain circumstances, controlled foreign corporations. Because the Fund may be required to recognize income in respect of these investments before, or without receiving, cash representing such income, the Fund may have difficulty satisfying the annual distribution requirements applicable to RICs and avoiding Fund-level U.S. federal income and/or excise taxes. Accordingly, the Fund may be required to sell assets, including at potentially disadvantageous times or prices, raise additional debt or equity capital, make taxable distributions of its shares or debt securities, or reduce new investments, to obtain the cash needed to make these income distributions. If the Fund liquidates assets to raise cash, the Fund may realize gain or loss on such liquidations; in the event the Fund realizes net capital gains from such liquidation transactions, the Fund shareholders may receive larger capital gain distributions than they would in the absence of such transactions.

The Fund may invest a portion of its net assets in below investment grade instruments. Investments in these types of instruments may present special tax issues for the Fund. U.S. federal income tax rules are not entirely clear about issues such as when the Fund may cease to accrue interest, OID or market discount, when and to what extent deductions may be taken for bad debts or worthless instruments, how payments received on obligations in default should be allocated between principal and income and whether exchanges of debt obligations in a bankruptcy or workout context are taxable. These and other issues will be addressed by the Fund to the extent necessary to seek to ensure that it distributes sufficient income that it does not become subject to U.S. federal income or excise tax.

Any investment by the Fund in equity securities of REITs may result in the Fund's receipt of cash in excess of the REIT's earnings; if the Fund distributes these amounts, these distributions could constitute a return of capital to Fund shareholders for U.S. federal income tax purposes. Investments in REIT equity securities also may require the Fund to accrue and to distribute income not yet received. To generate sufficient cash to make the requisite distributions, the Fund may be required to sell securities in its portfolio (including when it is not advantageous to do so) that it otherwise would have continued to hold. Dividends received by the Fund from a REIT generally will not constitute qualified dividend income.

The Fund may invest in REITs that hold residual interests in real estate mortgage investment conduits ("REMICs"). Under Treasury regulations that have not yet been issued, but may apply retroactively, a portion of the Fund's income from a REIT that is attributable to the REIT's residual interest in a REMIC (referred to in the Code as an "excess inclusion") will be subject to federal income tax in all events. These regulations are also expected to provide that excess inclusion income of a regulated investment company, such as the Fund, will be allocated to shareholders of the regulated investment company in proportion to the dividends received by such shareholders, with the same consequences as if the shareholders held the related REMIC residual interest directly. The IRS in Notice 2006-97 set forth some basic principles for the application of these rules until such regulations are issued. In general, the applicable rules under the Code and expected rules under the regulations will provide that the excess inclusion income allocated to shareholders (i) cannot be offset by net operating losses (subject to a limited exception for certain thrift institutions), (ii) will constitute unrelated business taxable income to entities (including a qualified pension plan, an individual retirement account, a 401(k) plan, a Keogh plan or other tax-exempt entity) subject to tax on unrelated business income, thereby potentially requiring such an entity that is allocated excess inclusion income, and otherwise might not be required to file a tax return, to file a tax return and pay tax on such income, and (iii) in the case of a foreign shareholder, will not qualify for any reduction in U.S. federal withholding tax. In addition, if at any time during any taxable year a "disqualified organization" (as defined in the Code to include governmental units, tax-exempt entities and certain cooperatives) is a record holder of a share in a regulated investment company, then the regulated investment company will be subject to a tax equal to that portion of its excess inclusion income for the taxable year that is allocable to the disqualified organization, multiplied by the highest federal income tax rate imposed on corporations.

Distributions to Shareholders. The Fund contemplates declaring as dividends each year all or substantially all of its taxable income. In general, distributions will be taxable to you for federal, state and local income tax purposes unless you are a tax-exempt entity, including qualified retirement plans or individual retirement accounts. Distributions are taxable whether they are received in cash or reinvested in Fund Shares. A Shareholder may thus recognize income and gains taxable for federal, state and local income tax purposes and not receive any cash distributions to pay any resulting taxes.

Fund distributions, if any, that are attributable to "qualified dividend income" or "long-term capital gains" earned by the Fund would be taxable to non-corporate Shareholders at reduced rates. Shareholders must have owned the Fund Shares for at least sixty-one (61) days during the one hundred twenty-one (121) day period beginning sixty (60) days before the ex-dividend date to benefit from the lower rates on qualified dividend income. However, U.S. individuals with modified adjusted gross income exceeding \$200,000 (\$250,000 for married couples filing jointly) and trusts and estates with income above specified levels are subject to a 3.8% tax on their net investment income, which includes interest, dividends and capital gains.

Shareholders are generally taxed on any dividends from the Fund in the year they are actually distributed. Dividends declared in October, November or December of a year, and paid in January of the following year, will generally be treated for federal income tax purposes as having been paid to Shareholders on December 31st of the year in which the dividend was declared.

Expenses. As long as the Fund is not continuously offered pursuant to a public offering, regularly traded on an established securities market or does not have at least five hundred (500) shareholders at all times during the taxable year, certain expenses incurred by the Fund that if paid by an individual would be treated as "miscellaneous itemized deductions" are generally not deductible by the Fund. Instead each shareholder will be treated as if it received a dividend in an amount equal to its allocable share of the Fund's expenses and then having paid such expenses itself. For non-corporate taxpayers, such expenses will generally be "miscellaneous itemized deductions" and under the Tax Cuts and Jobs Act, for taxable years beginning after December 31, 2017 and before January 1, 2026, the ability for non-taxable corporate taxpayers to deduct miscellaneous itemized deductions has been suspended.

Certain Withholding Taxes. The Fund may be subject to taxes, including foreign withholding taxes, attributable to investments of the Fund. If at the close of the Fund's taxable year more than 50% of the value of its assets consists of foreign stock or securities, the Fund will be eligible to elect, for federal income tax purposes, to treat certain foreign taxes paid by it, including generally any withholding and other foreign income taxes, as paid by its Shareholders. If the Fund so elects, the pro rata amount of such foreign taxes paid by the Fund will be included in its Shareholders' income and each such Shareholder will be entitled either (1) to credit that proportional amount of taxes against U.S. Federal income tax liability as a foreign tax credit or (2) to take that amount as an itemized deduction. The Fund does not expect to be able to make such election.

Sales, Exchanges and Redemptions. You will recognize taxable gain or loss on a sale, exchange or redemption of your shares in an amount equal to the difference between your tax basis in the shares and the amount you receive for them. Generally, this gain or loss will be long-term or short-term depending on whether your holding period exceeds twelve (12) months. Additionally, any loss realized on a disposition of shares of the Fund may be disallowed under "wash sale" rules to the extent the shares disposed of are replaced with other shares of the Fund within a period of sixty-one (61) days beginning thirty (30) days before and ending thirty (30) days after the shares are disposed of, such as pursuant to a dividend reinvestment in shares of the Fund. If disallowed, the loss will be reflected in an upward adjustment to the basis of the shares acquired.

The Fund is required to compute and report the cost basis of shares sold or exchanged. The Fund has elected to use the First In, First Out ("FIFO") method, unless you instruct the Fund to select a different method, or choose to specifically identify your shares at the time of each sale or exchange. If your account is held by your broker or other advisor, they may select a different method. In these cases, please contact the holder of your shares to obtain information with respect to the available methods and elections for your account. You should carefully review the cost basis information provided by the Fund and make any additional basis, holding period or other adjustments that are required when reporting these amounts on your federal and state income tax returns.

IRAs and Other Tax Qualified Plans. In general, dividends received and gain or loss realized with respect to shares held in an IRA or other tax qualified plan are not currently taxable unless the Fund Shares were acquired with borrowed funds.

Pursuant to the Regulations directed at tax shelter activity, taxpayers are required to disclose to the IRS certain information on Form 8886 if they participate in a "reportable transaction." A transaction may be a "reportable transaction" based upon any of several indicia with respect to a shareholder, including the recognition of a loss in excess of certain thresholds (for individuals, \$2 million in one year or \$4 million in any combination of years). Investors should consult their own tax advisers concerning any possible disclosure obligation with respect to their investment in Fund Shares.

U.S. Tax Treatment of Foreign Shareholders. Nonresident aliens, foreign corporations and other foreign investors in the Fund will generally be exempt from U.S. federal income tax on Fund distributions attributable to net capital gains. However, the Fund does not expect to make significant distributions that will be designated as net capital gains. The exemption may not apply, however, if the investment in the Fund is connected to a trade or business of the foreign investor in the United States or if the foreign investor is present in the United States for one hundred eighty-three (183) days or more in a year and certain other conditions are met.

Fund distributions attributable to other categories of Fund income, such as interest, and dividends from companies whose securities are held by the Fund, will generally be subject to a 30% withholding tax when paid to foreign shareholders. However, the Fund may be able to designate a portion of the distributions made as interest related dividends or short-term capital gain dividends which are generally exempt from this withholding tax. The withholding tax may, however, be reduced (and, in some cases, eliminated) under an applicable tax treaty between the United States and a shareholder's country of residence or incorporation, provided that the shareholder furnishes the Fund with a properly completed Form W-8BEN or W-BEN-E to establish entitlement for these treaty benefits.

A foreign investor will generally not be subject to U.S. tax on gains realized on sales or exchanges of Fund shares unless the investment in the Fund is connected to a trade or business of the investor in the United States or if the investor is present in the United States for one hundred eighty-three (183) days or more in a year and certain other conditions are met.

In addition, the Fund will be required to withhold 30% tax on payments to foreign entities that do not meet specified information reporting requirements under the Foreign Account Tax Compliance Act.

All foreign investors should consult their own tax advisors regarding the tax consequences of an investment in the Fund in their country of residence.

State and Local Taxes. In addition to the U.S. federal income tax consequences summarized above, you may be subject to state and local taxes on distributions and redemptions. State income taxes may not apply, however, to the portions of the Fund's distributions, if any, that are attributable to interest on U.S. government securities.

Information Reporting and Backup Withholding. Under applicable "backup withholding" requirements, the Fund may be required in certain cases to withhold and remit to the IRS a percentage of taxable dividends or gross proceeds realized upon sale payable to Shareholders who have failed to provide a correct tax identification number in the manner required, or who are subject to withholding by the IRS for failure to properly include on their return payments of taxable interest or dividends, or who have failed to certify to the Fund that they are not subject to backup withholding when required to do so or that they are "exempt recipients." The amount of any backup withholding from a payment to a Shareholder will be allowed as a credit against the Shareholder's U.S. federal income tax liability and may entitle such a Shareholder to a refund, provided that the required information is timely furnished to the IRS.

OTHER TAX MATTERS

The preceding is a summary of some of the tax rules and considerations affecting Shareholders and the Fund's operations, and does not purport to be a complete analysis of all relevant tax rules and considerations, nor does it purport to be a complete listing of all potential tax risks inherent in making an investment in the Fund. A Shareholder may be subject to other taxes, including but not limited to, state and local taxes, estate and inheritance taxes, and intangible taxes that may be imposed by various jurisdictions. The Fund also may be subject to state, local, and foreign taxes that could reduce cash distributions to Shareholders. It is the responsibility of each Shareholder to file all appropriate tax returns that may be required. Each prospective Shareholder is urged to consult with his or her tax adviser with respect to any investment in the Fund.

ERISA AND CODE CONSIDERATIONS

Persons who are fiduciaries with respect to an employee benefit plan or other arrangements subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA") (an "ERISA Plan"), certain individual retirement accounts ("IRAs"), or certain Keogh plans, should consider, among other things, the matters described below before determining whether to invest in the Fund. ERISA imposes certain general and specific responsibilities on persons who are fiduciaries with respect to an ERISA Plan, including prudence, diversification, the avoidance of prohibited transactions, and other standards. In determining whether a particular investment is appropriate for an ERISA Plan, U.S. Department of Labor regulations provide that a fiduciary of the ERISA Plan must give appropriate consideration to, among other things, the role that the investment plays in the ERISA Plan's portfolio, whether the investment is designed reasonably to further the ERISA Plan's purposes, the risk and return factors, the portfolio's composition with regard to diversification, the liquidity and current total return of the portfolio relative to the anticipated cash flow needs of the ERISA Plan and the proposed investment, the income taxes (if any) attributable to the investment, and the projected return of the investment relative to the ERISA Plan's funding objectives. Before investing the assets of an ERISA Plan in the Fund, an ERISA Plan fiduciary should determine whether such an investment is consistent with ERISA's fiduciary responsibilities and the foregoing considerations. If a fiduciary with respect to any such ERISA Plan breaches such responsibilities with regard to selecting an investment or an investment course of action for such ERISA Plan, the fiduciary may be held personally liable for losses incurred by the ERISA Plan as a result of such breach.

Non-ERISA-covered IRAs and Keogh plans and other arrangements not subject to ERISA, but subject to the prohibited transaction rules of Section 4975 of the Code (“Code Plans”; together with ERISA Plans, “Plans”), should determine whether an investment in the Fund will violate those rules.

Because the Fund will be registered as an investment company under the Investment Company Act, the underlying assets of the Fund will not be considered “plan assets” of the Plans investing in the Fund for purposes of ERISA’s fiduciary responsibility rules and ERISA and the Code’s prohibited transaction rules. Thus, neither the Investment Manager nor any Sub-Adviser will be a fiduciary within the meaning of ERISA and the Code with respect to the assets of any Plan that becomes a Shareholder of the Fund, solely as a result of the Plan’s investment in the Fund.

Certain prospective ERISA Plan investors may currently maintain relationships with the Investment Manager or a Sub-Adviser or with other entities that are affiliated with the Investment Manager or a Sub-Adviser. Each of such persons may be deemed to be a party in interest to, a disqualified person of, and/or a fiduciary of any ERISA Plan to which it provides investment management, investment advisory, or other services. ERISA and the Code prohibit ERISA Plan assets from being used for the benefit of a party in interest or disqualified person and also prohibit a fiduciary from using its position to cause the ERISA Plan to make an investment from which it or certain third parties in which such fiduciary has an interest would receive a fee or other consideration. ERISA Plan investors should consult with legal counsel to determine if participation in the Fund is a transaction that is prohibited by ERISA or the Code. ERISA Plan fiduciaries will be required to represent that the decision to invest in the Fund was made by them as fiduciaries that are independent of such affiliated persons, that they are duly authorized to make such investment decisions, and that they have not relied on any individualized advice or recommendation of such affiliated persons as a primary basis for the decision to invest in the Fund.

The provisions of ERISA and the Code are subject to extensive and continuing administrative and judicial interpretation and review. The discussion of ERISA and the Code contained herein is, of necessity, general and may be affected by the future publication or the future applicability of final regulations and rulings. Potential investors should consult with their legal advisers regarding the consequences under ERISA and the Code of the acquisition and ownership of Shares.

DESCRIPTION OF SHARES

The Fund is authorized to offer two separate classes of Shares designated as Advisor Class Shares and CIA Class Shares. While the Fund presently intends to offer two classes of Shares, it may offer other classes of Shares as well in the future. From time to time, the Board may create and offer additional classes of Shares, or may vary the characteristics of Advisor Class Shares and CIA Class Shares described herein, including without limitation, in the following respects: (1) the amount of fees permitted by a distribution and/or service plan as to such class; (2) voting rights with respect to a distribution and/or service plan as to such class; (3) different class designations; (4) the impact of any class expenses directly attributable to a particular class of Shares; (5) differences in any dividends and net asset values resulting from differences in fees under a distribution and/or service plan or in class expenses; (6) any sales load structure; and (7) any conversion features, as permitted under the Investment Company Act. The Fund’s repurchase offers will be made to all of its classes of Shares at the same time, in the same proportional amounts and on the same terms, except for differences in net asset values resulting from differences in fees under a distribution and/or service plan or in class expenses.

PURCHASING SHARES

PURCHASE TERMS

The minimum initial investment in Advisor Class Shares by any investor is \$1,000 and the minimum initial investment in CIA Class Shares by any investor is \$1,000. The minimum additional investment in the Fund by any Shareholder is \$1,000. However, the Fund, in its sole discretion, may accept investments below these minimums. Shares may be purchased by principals and employees of the Investment Manager or its affiliates and their immediate family members without being subject to the minimum investment requirements. The Shares were initially issued at \$25.00 per share. Thereafter the purchase price for each class of Shares is based on the NAV per Share of that Class as of the date such Shares are purchased.

Advisor Class Shares are sold at the public offering price, which is the NAV plus an initial maximum sales charge, which varies with the amount you invest as shown in the following chart. This means that part of your investment in the Fund will be used to pay the sales charge.

Advisor Class Shares — Sales Charge Schedule			
Your Investment	Front-End Sales Charge as a % of Offering Price*	Front-End Sales Charge as a % of Net Investment	Dealer Reallowance as a % of Offering Price
Up to \$24,999	5.75%	6.10%	5.00%
\$25,000 – \$49,999	5.00%	5.26%	4.50%
\$50,000 – \$99,999	4.50%	4.71%	3.75%
\$1,000,000 – \$249,999	3.50%	3.63%	2.75%
\$250,000 – \$499,999	2.50%	2.56%	2.00%
\$500,000 – \$999,999	2.00%	2.04%	1.50%
\$1 million or more	None	None	None

* The offering price includes the sales charge.

CIA Class Shares are not subject to any initial sales charge.

Shares will generally be offered for purchase on each business day, except that Shares may be offered more or less frequently as determined by the Board in its sole discretion. The Board may also suspend or terminate offerings of Shares at any time.

Except as otherwise permitted by the Board, initial and subsequent purchases of Shares will be payable in cash. Orders will be priced at the appropriate price next computed after the order is received by the Administrator. The Fund reserves the right, in its sole discretion, to accept or reject any subscription to purchase Shares in the Fund at any time. In the event that cleared funds and/or a properly completed investor application are not received from a prospective investor prior to the cut-off times pertaining to a particular offering, the Fund may hold the relevant funds and investor application for processing in the next offering.

In general, an investment will be accepted if a completed investor application and funds are received in good order. The Fund reserves the right to reject, in its sole discretion, any request to purchase Shares in the Fund at any time.

ADVISOR CLASS SHARES PURCHASE PROGRAMS

Eligible purchasers of Advisor Class Shares may be entitled to reduced or waived sales charges through certain purchase programs offered by the Fund.

Quantity Discounts. You may be able to lower your Advisor Class sales charges if:

- you assure the Fund in writing that you intend to invest at least \$25,000 in Advisor Class Shares over the next 13 months in exchange for a reduced sales charge (“Letter of Intent”) (see below); or
- the amount of Advisor Class Shares you already own in the Fund plus the amount you intend to invest in Advisor Class Shares is at least \$25,000 (“Cumulative Discount”).

By signing a Letter of Intent you can purchase Shares at a lower sales charge level. Your individual purchases will be made at the applicable sales charge based on the amount you intend to invest over a 13-month period as stated in the Letter of Intent. Any Shares purchased within 90 days prior to the date you sign the Letter of Intent may be used as credit toward completion of the stated amount, but the reduced sales charge will only apply to new purchases made on or after the date of the Letter of Intent. Purchases resulting from the reinvestment of dividends and capital gains do not apply toward fulfillment of the Letter of Intent. Shares equal to 5.75% of the amount stated in the Letter of Intent will be held in escrow during the 13-month period. If, at the end of the period, the total net amount invested is less than the amount stated in the Letter of Intent, you will be required to pay the difference between the reduced

sales charge and the sales charge applicable to the individual net amounts invested had the Letter of Intent not been in effect. This amount will be obtained from redemption of the escrowed Shares. Any remaining escrowed Shares after payment to the Fund of the difference in applicable sales charges will be released to you. If you establish a Letter of Intent with the Fund, you can aggregate your accounts as well as the accounts of your immediate family members. You will need to provide written instructions with respect to the other accounts whose purchases should be considered in fulfillment of the Letter of Intent.

The Letter of Intent and Cumulative Discount are intended to let you combine investments made at other times for purposes of calculating your present sales charge. Any time you can use any of these quantity discounts to “move” your investment into a lower sales charge level, it is generally beneficial for you to do so.

For purposes of determining whether you are eligible for a reduced Advisor Class sales charge, you and your immediate family members (i.e., your spouse or domestic partner and your children or stepchildren age 21 or younger) may aggregate your investments in the Fund. This includes, for example, investments held in a retirement account, an employee benefit plan, or through a financial advisor other than the one handling your current purchase. These combined investments will be valued at their current offering price to determine whether your current investment amount qualifies for a reduced sales charge.

You must notify the Fund or an approved financial intermediary at the time of purchase whenever a quantity discount is applicable to purchases and you may be required to provide the Fund, or an approved financial intermediary, with certain information or records to verify your eligibility for a quantity discount.

Such information or records may include account statements or other records regarding Shares held in all accounts (e.g., retirement accounts) by you and other eligible persons, which may include accounts held at the Fund or at other approved financial intermediaries. Upon such notification, you will pay the sales charge at the lowest applicable sales charge level. You should retain any records necessary to substantiate the purchase price of Shares, as the Fund and approved financial intermediary may not retain this information.

Information about sales charges can be found on the Investment Manger’s website www.vivaldifunds.com or you can consult with your financial representative.

TERM, DISSOLUTION AND LIQUIDATION

The Fund may be dissolved upon approval of a majority of the Trustees. Upon the liquidation of the Fund, its assets will be distributed first to satisfy (whether by payment or the making of a reasonable provision for payment) the debts, liabilities and obligations of the Fund, including actual or anticipated liquidation expenses, other than debts, liabilities or obligations to Shareholders, and then to the Shareholders proportionately in accordance with the amount of Shares that they own. Assets may be distributed in-kind on a proportionate basis if the Board or liquidator determines that the distribution of assets in-kind would be in the interests of the Shareholders in facilitating an orderly liquidation.

REPORTS TO SHAREHOLDERS

The Fund will furnish to Shareholders as soon as practicable after the end of each of its taxable years such information as is necessary for them to complete U.S. federal and state income tax or information returns, along with any other tax information required by law. The Fund anticipates sending Shareholders an unaudited semi-annual and an audited annual report within 60 days after the close of the period for which the report is being made, or as otherwise required by the Investment Company Act. Shareholders also will be sent reports regarding the Fund’s operations each quarter.

FISCAL YEAR

The Fund's fiscal year is the 12-month period ending on March 31. The Fund's taxable year is the 12-month period ending on December 31.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM; LEGAL COUNSEL

The Board has selected Grant Thornton LLP of 171 N. Clark Street, Suite 200, Chicago, Illinois 60601-3370, as the independent registered public accountants of the Fund.

Drinker Biddle & Reath LLP, One Logan Square, Suite 2000, Philadelphia, PA 19103-6996, serves as counsel to the Fund and the Independent Trustees.

INQUIRIES

Inquiries concerning the Fund and Shares (including procedures for purchasing Shares) should be directed to the Fund's Administrator, UMB Fund Services, Inc. at 235 West Galena Street, Milwaukee, WI 53212.
